Buy A Maxwell

If You Want a Car That's Tried and True

I have taken the agency for the Maxwell Automobiles, which is one of the best equipped and easiest riding cheap cars on the market. It is by no means a new car, but one that has been tried for years and has proven satisfactory. Any one in the market for such a car will be cheerfully given. I not only sell cars, but I am prepared to take care of the people to whom I sell, which should not be overlooked by persons buying cars. I am at your service Sundays or night time as well as during the day. None but competent mechanics employed. If your car needs attention, give this garage a trial. I also handle the

Job Printing

We are equipped to handle any kind of Job Printing and when it comes to Service, we can only refer you to our customers or ask that you give us a trial.

MAKING UNIQUE LIABILITY RULES

Driving Load of Lumber to a Corncrib Not One of the Vacations Covered by Risk.

WRONG ELEVATOR RIGHT

Many Appeals Are Dismissed—Reckless Man, Who Took It Against Orders, "Furthering Employer's Business."

—Harrisburg. Thirty or more decisions were announced at the office of the State Workmen's Compensation Board, including a dozen in which compensation awards made to employees of railroads engaged in interstate commerce and governed by decisions of Federal Courts were set aside.

Among the appeals dismissed was one in which a claim for compensation for dependents of a man killed while engaged in farm labor was refused. Commissioner James W. Leech holding that there could be no compensation given for a man driving a team loaded with lumber for a corncrib, under the existing State laws. He added that the counsel for the appellants "should have presented" arguments to the Legislature, or may yet be urged to go before an appellate court. The Board would be pleased to have the whole question passed upon by the appellate courts.

In affirming an award in the case of Chermiak vs. the Pennsylvania Sugar Company, the Board found that the man was engaged in furthering his employer's work, even though in going to obtain drinking water he used a prohibited elevator and was killed by it. The Board holds that at the time the man was not in his lunch period, and that his errand "was fully as much in the furtherance of his employer's business as though he had been going to fetch tools or any other necessary equipment. This being so, it is immaterial that he selected a means of transportation which was not only prohibited by his employer, but was so dangerous that the attempt to use it was reckless to the point of foolhardiness."

In the case of Hemmig vs. the Fiser Hosiery Company, a Berks county case, it was held that an employee who fell down stairs after completing a day's work and was not injured because of the condition of the stairs, was not entitled to compensation. In the opinion, after a rehearing of Carr vs. the Pennsylvania Railroad, the man is awarded compensation for being hurt through being shoved off a bench during a rest period at a station.

Appeals dismissed include Kelly vs. Midvale Steel Company, Philadelphia; Wallace vs. Meadow Hill Coal Company, Scranton; Getken vs. Martin, York; Roskowski vs. Pittsburgh Coal Company, Pittsburgh; Quigley vs. McDowell Paper Company, Philadelphia; Pfeffer vs. Republic Iron & Steel Company, Youngstown, O.; Love vs. Marshall Coal Company, Pittsburgh; Bryall vs. Delaware & Hudson Company, Scranton; Herbert vs. Pennsylvania Railroad, Pittsburgh; Achey vs. Philadelphia & Reading Railway, Philadelphia; Chovic vs. Pittsburgh Crucible Steel Company, Pittsburgh; Hazlett vs. Buchman, Rosen, Washington; Sasnofsky vs. South Park Coal Mining Company, South Park; Walters vs. Philadelphia & Reading, Pottsville; Granville vs. Delaware, Lackawanna & Western Railroad, Scranton; Blumenstine vs. Philadelphia & Reading, Harrisburg.

The other cases come under Federal decisions.

Box Cars For Coal Trade.

The Public Service Commission's Bureau of Rates and Tariffs issued this notice:

As an aid to relieve the difficulties at the bituminous coal mines, caused by insufficient cars for shipment being available, the Public Service Commission has granted the coal-carrying railroads authority to amend the "car distribution rules," effective immediately, to permit the assignment of box cars to mines, regardless of the number of coal carrying cars supplied, and not to be charged in the distributions.

This practice will be carried out only for west bound shipments of coal, and is designed to make use of box cars, which are now moving West empty for the grain movement East, which is very heavy at this time of the year. It will also enable operators to increase the output of coal, which will relieve not only the markets in the West, but also will have a beneficial influence on coal supplied in the East, in that it will conserve coal-carrying cars to this traffic which might otherwise be necessary for coal moving in other directions.

Reinsurance Local Now.

The State Workmen's Insurance Board has placed the reinsurance of the State Fund, covering its catastrophic hazard, with an insurance company licensed to operate in Pennsylvania and incorporated. William J. Roney, manager of the State Fund, said that prior to this time there were no companies incorporated by this Commonwealth to write excess reinsurance risks, and consequently it was impossible to place the business with a strictly Pennsylvania insurance company.

State Imposing Penalties.

The Attorney General's Department brought suit against the Economy and Artisans' Building and Loan Association, of Scranton, for \$100 fines each for failing to make reports on conditions to the State Commissioner of Banking for 1916. Suit was also brought in behalf of the State Fire Marshal against F. G. Kruegerman, of Scranton, for recovery of \$750 fines for failing to remove a building owned by him in Wilkes-Barre. The fines are \$25 a day for each day of failure to report.

PENNSYLVANIA BRIEFS

A demonstration took place at Ashland in honor of departing conscripts.

PHILADELPHIA

Wheat—Government standard inspection: No. 1 red, \$2.29; No. 1 soft red, \$2.27; No. 2 red, \$2.26; No. 2 soft red, \$2.24; No. 3 red, \$2.23; No. 3 soft red, \$2.21; No. 4 red, \$2.19; No. 4 soft red, \$2.17; No. 5 red, \$2.15; No. 5 soft red, \$2.13; No. 5 smutty, \$2.10.

PITTSBURGH.—Cattle—Choice \$12 @ 13.50; prime, \$14 @ 14.80.

All Stove Troubles Fade Away Before This Pipeless Furnace

Stoves and base-burners are trouble makers, work makers, expense makers. There's the trouble of setting them up in the Fall and taking them down in the Spring, with unsightly pipes disfiguring the home six months out of twelve. There's the work of bringing in coal and taking away ashes, with the extra work caused by the dirt and dust that fills the rooms. There's the expense of buying several stoves (because one is not sufficient to heat a home), the expense of maintaining three heating units, and the expense of replacing furnishings which are damaged by dirt and dust. You can buy a

Home Ventilator Furnace

The Original PATENTED Pipeless Model
Manufactured only by the Homer Furnace Co., Homer, Mich.

for little (if any) more than you pay for a good base burner, get this pipeless furnace perfection. The heat will be distributed evenly throughout the house—and plenty of it. No small registers scattered about, no wall flues to invite fire danger, no cold air drafts, no pipes in the rooms, no space wasted, no trouble to install, no boiler at any time, no heat in the cellar. A "Home Ventilator" in the cellar, one combination hot- and cold-air register right above it, and the heating system is complete.

Write or telephone us for more particulars.
G. MOYER, Mount Joy, Penna.

Read the Booklet "From Fire to Peace"

Facts Concerning The Home Ventilator Furnace

An announcement made by competition would indicate that a DECLARATION OF WAR had been made on all types of furnaces by the one they are handling, and if this article were allowed to go unheeded, the result would be that possibly many people would be misled into purchasing some furnace other than the HOME VENTILATOR, being under the impression that they were getting the original.

We take pleasure in informing the people of Mount Joy and vicinity that G. Moyer of your town is prepared to furnish you with the HOME VENTILATOR FURNACE, which has been on the market for the past seven years and is absolutely the ORIGINAL PATENTED PIPELESS FURNACE using the combination hot and cold air register.

TAKE SPECIAL NOTICE—Mr. G. Moyer has copies of patent papers, both of ours' and competition, which will easily show that the HOME VENTILATOR FURNACE was in use and PATENTED LONG BEFORE ANY OTHER FURNACE of this type was HEARD OF.

A LITTLE HISTORY—Back in 1910 when the only furnace was the old pipe job Mr. S. D. Strong, President of the Homer Furnace Company, Homer, Michigan, conceived the idea that if a furnace could be made which would satisfactorily heat residences, stores, churches, school-houses, etc., and at the same time save the heat which was being wasted in cellars by pipe furnaces, a ready sale would be found. Against the advice of older and more experienced furnace men, he perfected and manufactured a few HOME VENTILATOR FURNACES. The result was a REVOLUTION IN THE HEATING WORLD. Farmers, who heretofore could not have furnaces because their vegetable storage would be spoiled, bought "HOMERS," installed them in the vegetable cellars, heated their houses so much cheaper than with stoves, and so much more satisfactorily, that since that time THOUSANDS OF HOME VENTILATORS HAVE BEEN SOLD, from Maine to California, and from Florida to Canada.

Now—when other manufacturers saw the enormous strides made by THE HOME VENTILATOR, these eyes began to open, and from the sickly grin they tried to maintain they were brought up against the solid fact that to SAVE THEIR BACON, they MUST manufacture something as near the HOME VENTILATOR as possible without infringing on the rights of S. D. Strong. SMALL MANUFACTURERS sprung up trying to get a foot-hold in the pipeless world, but the HOME VENTILATOR has been too long established and had too big a start to be affected, and the sales of the Homer Furnace Company still lead by many lengths. IN THE LAST FIVE MONTHS, 4000 HOME VENTILATOR FURNACES HAVE BEEN SOLD TO RESPONSIBLE DEALERS.

DON'T BE DECEIVED into buying an imitation of the HOME VENTILATOR FURNACE. Don't let other manufacturers' experiment at your expense. When you buy, buy the ORIGINAL. Five minutes comparison will convince you. Weigh the 24 inch fire pot of the HOME VENTILATOR (when we say 24-in., we mean inside measurement) then weigh that of any other furnace of the same size. Result? About 40 percent in favor of the HOME VENTILATOR. The HOME VENTILATOR is equipped with heavy galvanized casings throughout; no flimsy black inner casings to rust out, and which are good only as talking points, and the buyer pays for these talking points by getting a lighter furnace.

The HOME VENTILATOR FURNACE is sold under a guaranty to do the business or no sale every casting is guaranteed for five years, except the grate, and our reason for not guaranteeing this is that sometimes a careless user will allow ashes to accumulate underneath, and same is liable to melt out. However this happens only rarely.

After manufacturing HOME VENTILATOR FURNACES for seven years, our repair business will not amount to \$1.00 a day, which we judge is a fair evidence of the durability of our castings.

Our modern plant at Homer, Michigan is equipped to manufacture 9000 furnaces per year, and enables us to turn out a furnace which is a joy to the installer, and castings second to none.

G. Moyer of Mount Joy is prepared to furnish you with the ORIGINAL PATENTED PIPELESS FURNACE, and the one from which all others of this type are copied either directly or indirectly. BUY THE "HOMER" and be safe from infringement proceedings. 15,000 in use. For further information call on
