HONOR ROLL OF WOMEN who will work to win the war

Has He Registered YOUR Name For Service?

Women of Pennsylvania, have you seen it?—the shadow that dims the sun. Listen? The air seems vibrant as if stirred by distant thunder. A tempest is upon us—a storm worse than any America has known, and its danger signals are far-flung. The storm has crept in from Transatlantic shores. The air, too, was surcharged there—made vibrant by the gun-peals of human hate. Take heed! There is a warning for you in these far-flung signals. If you have not read it, read now.

War—merciless war—has been unleashed to wreak its fury upon you and yours.

The extent to which that fury will ravage America depends very largely upon the part the women of America decide to take in the war.

If you and every other woman capable of giving some useful service will promptly give that service, so that America may strike with crushing effect, then the dread of what the war will bring need not be all upon this side of the Atlantic.

Therefore, it remains for you—the women of Pennsylvania and of the nation—to make a momentous decision. Will you stand back now, supinely claiming exemption from unusual effort upon the plea of sex?

Or will you come forward to work in some useful capacity that will give the fighting men of your country the support they need to win the war?

That is what is being asked of you and of every other woman of working age in Pennsylvania. Your decision will mean much to your state and to your country. It may mean even more to you.

Remember: The worst trials that defeat brings to a conquered people invariably are the horrors experienced by its women. Keep stricken Belgium and outraged France before you—then decide that you will do your utmost to make defeat impossible for America.

Every Woman Needed.

If you have any doubt about the help of every woman being needed now consider these facts:

One million men in Pennsylvania alone have been holding themselves subject to a call to the colors since Registration day, June 5, last. One hundred thousand recruits—the pick of the state's manhood—have already been taken from productive employment for army and navy service. Additional thousands are being drafted with machine-like precision. Still more thousands have been drafted from ordinary into war employments.

Every man called leaves another gap in the army of production. Every man drawn means, also, that four new workers must be found to produce the things that will give him fighting efficiency.

With industry losing its workmen and, on the other hand, being required to produce a greater output than ever it is apparent that new labor sources must be tapped or disaster may result.

You women who have never been required to earn your living—and there are some hundreds of thousands of you—constitute the most important undeveloped labor reserve in Pennsylvania. If you will from patriotic inspiration accept some useful work, even though you do not need to earn money, you will help amazingly to solve a labor crisis which, with the country at war, ranks as a positive menace.

How to Find Work.

To assist you in finding the job you are willing to fill as a patriotic duty—to train you for the job if necessary—a registration of women is now being conducted under State and Federal supervision. The Pennsylvania Women's Committee of the Council of National Defense and the Civilian Service Department of the Pennsylvania Committee of Public Safety have it in charge.

It is a registration that is determining the complete "woman-power" of the state. It is showing with exactness the total number of women, trained and untrained, of working age and it is classifying them according to their capacity for work. The purpose is to inform the government—the United States Department of Labor—of how far it may rely upon women's energy as a productive resource.

Even the women who are unable to take regular positions, but who can accept work at home are being listed. The plan has the support of President Wilson and is commended by Governor Brumbaugh, who, by official proclamation, fixed November 1 and 2 as special registration days.

In conducting the registration, no interference with existing labor situations or with useful industries is permitted. While workers as well as non-workers are being listed, trained workers are not being solicited to change employers or employment. In fact, established industries will be assisted. Part of the plan is to place new workers at jobs in their home sections and thus encourage and speed up useful, established production.

Signing-Up is Easy.

Registration, too, has been made easy. Every organized group of women in the State is taking names. County Committee of Public Safety, Federated Clubs, Suffrage Association and Women's Christian Temperance Unions anywhere will sign you up.

And now that you have learned of the dire need of women's service in this world crisis, it is for you—the women of the state—to make your registration a roll of honor for Pennsylvania.

With the future of all civilization, with human liberty itself in imminent peril the call from the "Front" is for "workers, more workers, and still more workers."

Work will win the war. Let the women of Pennsylvania by their actions say, "WE WILL NOT SHIRK."

ARE YOU GUILTY?

A FARMER carrying an express package from a big mail-order house was accosted by a local dealer.

"Why didn't you buy that bill of goods from me? I could have saved you the express, and besides you would have been patronizing a home store, which helps pay the taxes and builds up this locality."

The farmer looked at the merchant a moment and then said:

"Why don't you patronize your home store and advertise? I read it and didn't know that you had the stuff I have here."

A Thousand Hats Almost Half Price

That's Our MILLINERY STORY In a

And remember the kind of hats they are Hats—the flowers of Lancaster's retail millinery the newest of the new, the smartest of the smart

Hundreds and hundreds of women have daily been availing themselves of this wonderful opportunity, coming right at the beginning of the season, to by hats at half their actual price.

A great Metropolitan Importer who was heavily overstocked and who was suffering from a bad attack of nerves knew we could use any quantity if the price was right and made us a tempting offer to take the whole lot off their hands. We got them almost at our own price and we're selling them as we bought them—at half price. The quantity is so large that our big millinery department stacked to the limit is unable to hold the entire stock. We have been compelled to withhold portions of the purchase till space permits. That is why the selection is just as varied and complete as at the beginning of the sale. Every day finds the tables refilled with new models each prettier and a better value than the last.

HELP! HELP! HELP!

Millions of Surgical Dressings Wanted at Once

An appeal has come from the National Red Cross, through the Lancaster Chapter to all its branches for Standard Surgical Dressings in great quantities.

Major Grayson Murphy, American Red Cross Chief of Commission in France cables, "Red Cross standard dressings in millions must be sent over with all possible speed. If this is not done immediately a serious calamity and national disgrace is inevitable."

A few weeks ago a ship containing two and one-half million of surgical dressings was sunk by a German submarine. It is imperative that the women of the Red Cross Chapters make every possible effort to increase largely this needed supply of surgical dressings that the Front is calling for.

It is greatly to be hoped that the women of the town will respond to this call by coming to the Red Cross rooms and helping to make these dressings. Members of the local Red Cross are especially urged to come out but all others who are not members, but are willing to help will be gladly received. Every woman in the town can be used.

The Red Cross room is open for work every Wednesday afternoon. An effort is being made to secure this room for Red Cross Work on Tuesday evening also so that those who can not come during the day and are willing to work will be given an opportunity to do so. Will the women of Mount Joy let their sons, brothers, friends and neighbors give their lives while they stand idly by?

Women Asked to Register

Women all over the country have been asked to register for service. This work is being done through the Women's committee—Council of National Defense.

The object is to ascertain just what the women and girls of the community, if the men were practically all taken away for war service, would do.

It is an advantage for women to become registered both the ones trained in certain lines of employment and the untrained. In giving out positions the trained would of course have the preference but the untrained can register later to take training.

The registration will take place on Thursday and Friday November 1 and 2. The women of Mount Joy are asked to call at Chandler's and Garber's Drug stores and secure the cards with full information.
