Shoot will be held rain or shine, as gunners can shoot in the dry. Shoot starts promptly at 1 o'clock. Come and win your Christmas roast.

CARE FOR SEPARATOR

Unclean Machines Necessarily Cause Financial Loss.

Cream From Polluted Device Has Poor Keeping Qualities and Soon Develops Decided "Off Flavor"—Rules to Follow.

(Prepared by the United States Department of Agriculture.)

In the care and use of the cream separator the necessity of thoroughly cleaning and scalding it every time it is used cannot be too greatly emphasized.

Cream from an unclean separator has very poor keeping qualities, soon develops a decided "off flavor" and becomes second grade. Cream of this kind brings financial loss to the purchaser whether he is selling on a quality basis or not. Poor cream makes poor butter and poor butter returns a low price to the producer, whether the creamery is co-operative or otherwise.

The financial loss caused by unclean separators is frequently not fully appreciated because it is indirect; it is, however, none the less real. Good business management of the dairy therefore demands that the following rules be observed in using a separator:

1. Put the separator in a bright dairy room that can be easily cleaned and that is always free from odors of all kinds.
2. Set the machine perfectly level and bolt it to a solid foundation, preferably concrete.
3. Oil thoroughly each time it is used.
4. Be sure that the parts are properly assembled, then start the machine gently slowly.
5. Maintain the proper speed and keep an even pressure on the handle at all times.
6. When separation is completed, flush the bowl with a quart of skim milk or warm water.
7. Having set the cream into cold water and disposed of the skim milk, take the bowl apart and rinse with luke-warm water.
8. Using hot water, washing powder, and brushes, scrub all parts that come into contact with the milk.
9. Rinse with hot water, then place in boiling water for a few minutes and hang up to dry.
10. Wipe frame of separator and clean the room.

IT IS WORTH ITS WEIGHT IN GOLD MRS. HILL AVERS

SHE SHUDDERS NOW WHEN SHE THINKS OF PAST SUFFERING

"I seriously doubt if there is a person living who can recommend Tanlac more highly than I do. I was a constant sufferer from indigestion, but Tanlac quickly chased my troubles away."

The foregoing statement was made by Mrs. Amelia Hill, a well-known resident of Shillington, Pa., three miles from Reading.

"I had been a sufferer from indigestion for several years," continued Mrs. Hill, and it seemed as if I would never, never get any relief. I tried nearly every known remedy, and nothing seemed to suit my case. But this Tanlac certainly has, and that is the reason I can so highly recommend it."

"Before I took Tanlac I had very little appetite. Sometimes I would just force myself to take something of a solid food nature, and as soon as I ate it I would suffer from a choking sensation in my throat and severe pains in my abdomen."

"My food seemed to ferment quickly and to form a gas that caused heartburn and a sickening sensation that would last for hours afterwards."

"My headaches were something awful. I shudder now when I think of them. My, but what a relief this Tanlac has given me! The medicine is worth its weight in gold to me. Tanlac is now being sold here at the drug store, W. D. Chandler, druggist, Mount Joy, Pa."

Mortuary Recordings

(Continued from page 1)

Mr. and Mrs. George Dellinger, died at his home in Florin on Sunday evening at seven o'clock of brain fever after a very brief illness, having only taken, sick Friday evening. His parents and the following brothers and sisters survive: Ada, Irene, Naomi and George all at home. Funeral services were held at 7:30. On Wednesday morning the body was removed to York and interred in the family plot in the Mount Rose cemetery.

Jacob L. Bishop
Jacob L. Bishop, 81 years old, a former resident of Lancaster county, died at Oberlin, Pa., on Saturday, from the effects of a stroke and infirmities of age. He had been ill for some time. He was a life-long Republican and one of the most prominent farmers of his community. His wife died seven years ago. He was a member of the Salem Reformed church. The following children survive: Mrs. Ella Beates, Elizabethtown; Albert, Oliver, Warren, Hiram, Norman, Mrs. Ida Engle, Oberlin; Mrs. Katharine Kaylor, Highspire. The funeral was held yesterday.

Daniel L. Hauenstein.
Daniel L. Hauenstein, one of the best known residents of our borough, died at his home on West Main street Sunday from a complication of diseases, aged 70 years, 9 months and 17 days. He was born near Salunga and spent his boyhood days in that section. He was a blacksmith and painter by occupation and the past thirteen years conducted a confectionery store on East Main street. For twenty-one years he lived near Smithville, Ohio, but has been a resident of this place the past fifteen years. He was twice married, his first wife being Miss Fannie Brenehan, of near Sporting Hill. To this union there were two children: Daniel B., of Louisville, Ohio, and Mrs. Charles K. Witmer of Harrisburg. His wife died forty-three years ago. His second wife was Miss Mary Good who survives, as does also one son, Elson, of this place. One brother, George, of Cresson, Ohio; a step-brother, John Hauenstein, east of town, and a step-sister, Mrs. Elizabeth Farmer, on East Main street, also survive. In politics he was a Republican and for many years he was a member of the Old Mennonite church in this place. The funeral was held from his late home on West Main street this forenoon at 9:30 with services in the Mennonite church on West Donegal street at 10 o'clock. Interment was made in the Henry Eberle cemetery.

DAVIS & RELIANCE
SEWING MACHINES
Will Make Splendid Gifts for Mother, Sister, Wife or Sweetheart
DURING these days of economy, nothing could be more appreciated by the recipient than a machine of this kind. Home sewing is becoming more popular every day—and these machines help make it a great pleasure rather than a tiresome task.
Both Makes Are Well Known for Their Wonderful Construction and Their Easy Running Qualities
IN any home where you find a Davis or Reliance Sewing Machine, ask what service they give the owners. We say that every owner is a pleased and truly satisfied customer—ask the woman who owns one. There are over 2,000 Reliance Sewing Machines in daily use in this city and Lancaster county—a wonderful record of one of the models in our stocks. Our selection is varied—there are 14 Models From Which You Can Choose
THIS is the largest showing of Sewing Machine Models in Lancaster city—nowhere else in this city can you find as great a variety of styles from which to choose. Our prices are way below the agents' prices on these models. We note four of the most popular models below:
\$23.00 A Reliance Machine; hand lift; case of quartered sawed oak; five drawers; dust-proof head drum; well constructed and complete with attachments. Agents' Price, \$35.00.
\$25.00 An automatic lift Reliance Model; new style colonial case of quarter sawed oak. A beautiful, service-giving machine that is very popular. Agents' price is \$45.00.
\$30.00 A Davis Machine that is the latest J head; automatic drop; four-drawer models of quarter sawed oak; five-stitch ruffler with attachments. Agents' price of model is \$50.00.
\$35.00 A six-drawer Davis model with the new Sitrite Stand, which is approved and recommended by physicians; apron front; of quartered sawed oak; automatic fit. Agents' price, \$60.00.
ALL MACHINES ARE COMPLETE WITH A FULL SET OF STEEL ATTACHMENTS AND ARE GUARANTEED FOR TEN YEARS BY THE MAKERS AND BY WATT & SHAND.
Sold on the Club Plan—\$2.00 Down Then \$1.00 a Week

PIG FEEDING IS PROFITABLE
Nebraska Station Finds Alfalfa Hay and Corn Best Feeds for Fattening—Don't Grind Corn.
Alfalfa hay and corn were the best feeds for fattening hogs for profit at the Nebraska station. Pigs fed on this
Fattening Hogs for Market.
ration did not gain as rapidly as those fed on tankage and corn, but made a better showing in cost of gains. Corn was valued at 70 cents a bushel, alfalfa at \$10 a ton and tankage at \$2.50 per 100 pounds.
The test showed that it does not pay to grind corn for pigs. Those fed on ground corn made the slowest and most expensive gains. Where ground corn and alfalfa hay were used the cost per 100 pounds gains was nearly \$2 per 100 pounds more than where dry shelled corn and alfalfa were fed.
MAKE BARNS MORE SANITARY
Formula Suggested for Whitewash to Be Applied Inside—Adds to Attractiveness.
An application of whitewash will make stables and farm buildings more sanitary and attractive. For inside application the following formula is suggested: Slake with boiling water a half-bushel of stone lime. Cover while slaking and strain. Add one peck of salt dissolved and three pounds of ground rice, boiled and thickened. To this add 50 quarts of water and allow to stand for three days. The mixture may then be applied with a brush.
CUTS COST OF MAINTENANCE
Breeding Animals in Good Thrifty Condition Insures Reasonable Level and Production.
A good thrifty condition in breeding animals keeps the cost of maintenance at a reasonable level and insures maximum production. Such condition may be had by judicious use of roughage and pastures. Clover or alfalfa hay, fall-sown rye or blue grass pasture that has not been grazed closely will cut the grain requirement of the brood sow in winter. Corn silage with cottonseed meal will maintain breeding cattle in winter.
