NEGRO EMPLOYEE CRUSHED BY A CAR

WILLIAM JACKSON WAS GATHERING COAL WHEN LOCOMOTIVE COUPLED WITH CAR—BODY NEARLY CUT IN TWO

Unaware of the approach of a locomotive for the coupling of a series of coal cars, under which he was gathering coal, William Jackson, colored, an employe at the J. E. Baker Company quarries, at Billmyer, was crushed to death beneath the wheels of one of the cars, on Tuesday afternoon, at the quarries. The coal cars were located on a siding, and as was his duty, he was gathering coal from beneath the car. At about 4:30 o'clock, a locomotive shunted onto the siding for the purpose of coupling the cars. Jackson was not warned of the approach of the locomotive, and with the impact of the engine and the cars, Jackson was struck and thrown across the rails, the wheels of the car passing over his body, and dragging him for a distance of sixty feet. His half-mangled body was then discovered, and released by several fellow workmen.

Dr. Stever, of Bainbridge, was summoned, and it was found that his leg had been completely severed and the stomach badly crushed, almost cutting his body in two. A coroner's investigation was held at the undertaking parlors of H. J. Hawthorne, at Bainbridge, and it was decided that it was accidental death.

Jackson was aged about twenty-nine years. His body was interred in Potter's Field burial grounds at Bainbridge from the undertaking establishment of Mr. Hawthorne.

LETTER FROM A MT. JOY SOLDIER

MR. FRANK FUNK, IN THE SERVICE OF UNCLE SAM, IS NOW STATIONED AT FORT THOMAS, KY.

We are in receipt of the following very interesting letter from J. Frank Funk, a story of Mr. Samuel Funk on North Barbara street, Fort Thomas, Ky., Jan. 29, 1918.

Mr. J. E. Schroll,
Dear Sir—Just these few lines to remind the Mount Joy people that I am still alive, well and happy. I am now stationed at Fort Thomas, Kentucky, but expect to change places in the near future.

Before I left home to work for Uncle Sam, one of our Mount Joy boys wrote home to a friend of his and told him that he was a K. P. and never explained what that was. So for the benefit of the people in the old home town, I will try to explain. The duty of the K. P., which is Kitchen Police, is to do all the work around the kitchen that the cooks don't like to do; such as wash dishes, pots, pans, kettles, wait on tables in the special mess halls, keep up the fires, carry in coal and kindling wood, mop up the floors and a lot of other odd and end jobs. Take this for granted because I know, having been one of those Knights of the Kitchen, as the boys call them when they see them dressed in their grand army suits which are overalls and jumpers.

We are called in at 5:55 A. M. but not by a mother who would call her son about a dozen times before he gets up but by something altogether different. If a person don't get up on the jump, he gets more than a light talking too. From that time until 4:30 P. M. we have our duties to perform for our Uncle Sam. But after that time we are left to ourselves until 10:45 P. M., unless we have a mess from the company commander. If we don't have a pass and are not in our bunk at the given time, we are sent to the guard house which sure is no joke. There they are kept until they have a gun leveled at them all the time.

We have a Y. M. C. A. and a K. O. F. C. hall here and they sure are doing the boys a good turn; they furnish papers, envelopes, pens and ink free for the boys in uniform. It don't get very cold here nor snow very much. Mercury only gets as low as 20 degrees below zero and we have snow about four times a week. Now that is not half bad if you don't care what you say, but having one of Uncle Sam's uniforms and overcoats on you don't mind it very much.

We just returned from a 14 mile hike which some of the boys could not stand and fell out before we hiked 6 miles. I told my pal that I would stick to it if they had to carry me back to the Fort on a board, but it was not necessary. Well, as it is almost time for mess, I will close. I remain as ever,
J. Frank Funk.

Why Not on Monday?

The Conestoga Traction Company has been asked to remove the surplus snow on all streets in town on which there are car tracks as it is almost impossible to pass a car at many places on account of the depth of the snow. The traction company says it will pay for the work if we get the men and we would suggest giving our idle factory employes work and cleaning all that snow away on Monday. That would require no fuel to do this work, which is permissible under the new order and it would certainly be a help to the unemployed that day.

Sold the Hotel

Mr. O. M. Donovan, of this place, recently purchased the Mechanics' Hall Hotel at Columbia and on Wednesday evening sold it to Mr. Fred Kemmerly, of this place, who will take charge April 1st. Mr. Kemmerly was formerly a bar clerk at the Exchange hotel here.

WOMEN OF MIDDLE AGE

Need Help to Pass the Crisis Safely—Proof that Lydia E. Pinkham's Vegetable Compound Can be Relied Upon.

Urbana, Ill.—"During Change of Life, in addition to its annoying symptoms, I had an attack of grippe which lasted all winter and left me in a weakened condition. I felt at times that I would never be well again. I read of Lydia E. Pinkham's Vegetable Compound and what it did for women passing through the Change of Life, so I told my doctor I would try it. I soon began to get in strength and the annoying symptoms disappeared and your Vegetable Compound has made me a well, strong woman so I do all my own housework. I cannot recommend Lydia E. Pinkham's Vegetable Compound too highly to women passing through the Change of Life."
—Mrs. FRANK HENSON, 1316 S. Orchard St., Urbana, Ill.

Women who suffer from nervousness, "heat flashes," backache, headaches and "the blues" should try this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound.

BRIEF ITEMS IN LANCASTER COUNTY

HAPPENINGS THROUGHOUT THE ENTIRE LENGTH AND BREADTH OF UNCLE SAM'S GARDEN SPOT

Lancaster's Grand Jury opposes removal of the county prison and hospitals from city to county in war time.

Alma Schroeder, of Dallas, Texas, came to Reinhold, Pa., on a visit and fell in love with the village blacksmith, Daniel J. Showalter, and as a sequel decided to stay, and they were married.

Probably the chief fire sufferer in the county is David W. Jackson, when his home burned, two young children being rescued in burning clothes. Jackson's mill was burned a short time ago, his barn burned twice and another home was burned.

After visits to many of the schools in this county Superintendent Daniel Fleisher declared that it is imperative that teachers in rural schools reach their classes as early as possible during severe weather in order to have them thoroughly heated when the pupils arrive.

For the first time in many years bummers' hall at the county prison, has been without occupants the past week or two, this being occasioned by the shortage of coal. Those who would have occupied the place were placed in cells in the county jail itself.

Miss Mary Ward, renowned American harpist, has returned to her home in Lancaster, from a series of concert appearances in Massachusetts. She was acclaimed an unusually fine artist by the critics in Boston and holds an enviable position among women harpists of the world.

The Susquehanna river is covered with thicker ice at the present time, than at any time since 1880, according to the facts given by the rivermen in the boro of Marietta. On December 8th, 1917, the river closed tight and has remained so since. From 14 to 21 inches of ice, and a 14 to 21 inches of ice is being cut in some sections and all ice houses are now filled.

Who Does The Fighting

The experience of almost every Nation has been that the greatest enthusiasm for fighting and willingness for military service were found in men under twenty-five years of age.

In our Civil War, out of the more than two and one-half millions of men who served in the Union Armies, more than two millions were under twenty-one years of age, and less than a hundred thousand over twenty-five. The vast majority enlisted in the Union Armies were between sixteen and twenty-one.

"Dr. Harry A. Garfield has ruled that ALL amusement places may be opened on fuelless Mondays. This includes theatres, motion picture houses, dance halls, billiard and pool rooms, boxing clubs, skating rinks, etc. They must close on Tuesdays."

"Men," answered Willie.

"And the plural of child?"

Mr. Clayton Metzler, who recently purchased the dwelling of the late J. R. Missemmer, decided not to take it and the property will now be sold at public sale by the administrator, Mr. H. N. Nissly.

A Substitute Teacher

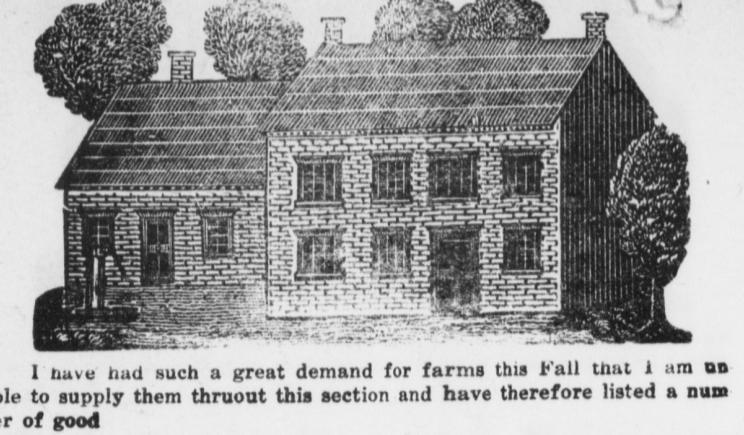

Miss Mary E. Newpher is substituting for Miss Elizabeth Eshleman as teacher of the Sixth Grade of our public schools. The latter is ill at her home near Elizabethtown.

No Wonder Its Cold

According to accurate records, the snow fall for January was four feet, which surpasses all records since the blizzard in 1898.

Livestock reports show a splendid increase in the number of sheep in the State and the rejuvenation of this industry promises to take great strides during the present year.
