Last Year and Now
Last year at this time potatoes were selling at \$2.50 to \$4.00 a bushel, as compared with \$5c. to \$1.50 a bushel now; onions were selling at \$7.00 to \$9.00 per 100 pounds, against \$1.00 to \$1.75 per 100 pounds today; and cabbage at \$6.50 to \$7.50 per 100 pounds, in place of \$1.25 to \$2.00 per 100 pounds today.
The drop in prices on the above are due to the fact that last fall the farmers refused to sell to the speculator and therefore they could not force the prices sky-high.
On the other hand we are today paying from 35c. to 40c. per pound for corn and hams, that were purchased last year at from 18c. to 25c. per pound.

THIS SURELY IS QUITE A WONDERFUL RECORD

Even if feed is high, we doubt whether there is a more profitable source of revenue on the farm than a good herd of fine cows. Our readers will remember that recently we published an article which stated that John Brubaker received a milk check of \$528 from twenty head of cows, an average of \$26.40 of milk per cow. This was a better record than we ever heard of around here but you can be sure that Mr. John W. Eshleman of near Elizabethtown, has a very good herd of cattle, mostly Holsteins. He has twenty-two head of his milk check last month was \$625.00, an average of \$28.41 per cow. At that rate Mr. Eshleman's cows would produce over \$7,500 worth of milk in a year. We feel certain this latter record will stand for some time to come and mark for many progressive farmers to aim at.

MT. JOY CAN GET THIS INDUSTRY

HOSIERY FACTORY THAT WOULD EMPLOY FROM 100 TO 150 HANDS, DESIROUS OF LOCATING HERE
If the citizens or business men of this town want another industry, here's one of the best propositions this town has been offered in a long time.
The men at the head of this concern do not ask for financial assistance, free building, water, light, or anything of that sort but have a very good proposition for our attention.
They simply ask as follows: "Is there a building in Mount Joy available at this time with about 2,000 square feet of floor space? We have a hosiery factory that employs from 100 to 150 hands, mostly female. Business is an old established one and expansion will be rapid. Are there union labor troubles in Mount Joy?"
The local Board of Trade now has the matter in charge and the Bulletin would suggest any of the following buildings as a suitable location for such an industry. Simon R. Snyder's stone mill building, an ice plant, brewery and bottling works building of the A. Bube Estate remodeled, the second floor of Martha's Clothing store and entire rear buildings of D. H. Engle or the large coach works building of Mr. Wm. H. Schutte on West Main street.
