TONALL CONTAINS A SAFE AND HEALTHY FORMULA

SIVE ALCOHOL

It is the practice with some persons to sneer at proprietary medicines, but in many cases there is a self-interest at stake. In spite of this attempt to sneer at all proprietary medicines thousands of persons are using, for example, Tonall, and get the very results they are looking for, and no attempts to discredit, or any amount of ridicule, can alter the opinion of those who are taking a amount of ridicule, can alter the opinion of those who are taking a useful and effective medicine.

Tonall bottles display on the label the name of every root, herb and bark contained in it, and the manu-

facturers know how to compound and blend the ingredients in order to highest efficiency as a

article of food can be As any article of 100d can be spoiled because the cook is incompetent when given the best materials, so another cook using the same materials prepares a dish which is a joy

Some people are always skeptical, but would Prof. Beck, chemist of Franklin and Marshall College, Lancaster, Pa., give a certified analysis regarding the purity of Tonall as being free from poisonous drugs if it was not pure? Wrapped in every bottle of Tonall is a copy of Prof. Pack's analysis ck's analysis.

There is no better medicine made than Tonall in this or any other coun-try for indigestion and ailments aris-ing from a disordered stomach. Tonall is sold by E. W. Garber, druggist, Mount Joy, Pa.

GOVERNMENT DEMANDS FLOUR SUPPLY REPORTS

A TONIC FREE FROM EXCES- All Householders Must Report Flour Supply at Once-Card Printed in Newspapers Must be Used.

> All householders in Pennsylvania have been ordered by the United States Food Administration to report the quantity of flour in their possession on a flour supply card issued by the Federal Food Administrator for this County and printed below in this paper. The card will not be issued in other form than that found printed in the newspapers so that if you are affected by the order you must cut out the clipping and mail it the Federal Food Administrator for your County.

The following statement was issued by Mr. Heinz, Federal Food Administrator for Pennsylvania, in commenting on the above rule:

"The flour supply card issued by the Food Administration is the first step in a campaign to dearn how much wheat flour is stored away in the nomes. Householders are given the opportunity to report on the flour supply card the number in their households, the amount of wheat flour on hand (including whole wheat and graham flour) and the amount they consider their thirty days' requirement. Those who fail to report will run the risk of prosecution and the penalty for hoarding-\$5000 fine and wo years' imprisonment or both. If any persons fail to report, the Food

Administration can promise them no leniency, if found guilty of hoarding, "By directing the public to state their flour holdings on the flour supply card the Food Administration is taking the step necessary to prevent a possible flour famine. Hoarders hasten famine. If next May, June or July we find ourselves without wheat flour, it will be because thousands of tons are stored away in cellars by unpatriotic householders who banish any consideration of the soldiers in their greed to have their own desire satisfled. The flour supply card is a government action which will meet with the approval of all those who have taken the time to study food conditions abroad and who know therefore that food is probably the foremost factor in winning the war."

OFFICIAL HOUSEHOLDER'S FLOUR REPORT

WRITE CAREFULLY.

No householder is permitted to purchase over 49 pounds of wheat flour nor to have more than 30 days' supply. Every householder must report immediately (on this form) to their County Food Administrator. Make report of all wheat flour on hand whether it is excess or not and urge on your neighbors the importance and necessity of making this report prompt-

SAVE FEW CHOICE ROOSTERS

Disappointment Awaits Farmers Who Have Been Accustomed to Buy Cockerels in Winter.

"People who have been accusto to buying roosters in January and February to make up their breeding pens," says a poultry expert of the United States food administration, "are likely to be disappointed next year."

To be sure of an early start in poulson, farmers and city flock owners are advised to retain at least a few choice matured cockerels. Carrying them through the winter, even at a considerable cost for feed, is a wiser course than depending on the uncertain commercial supply.

ROOSTS ON THE SAME LEVEL

Where One is Higher Than Other Fowls and Chicks Struggle to Get on Highest One.

If more than one roost is used in the henhouse, be sure that all are on the same level, because if one is higher than another the fowls and chicks will all try to roost on the highest pole.

Don't Fail to Buy A Spring Suit at This Critical Time

We would be loath to sound alarms without necessity. Our whole record as a merchandising establishment is clear of calamity howling when the horizon was clear.

But we DO see portentius signs of trouble in the Clothing world ahead—nore than signs, but actual knowledge that prices next Fall are going to be astoundingly high.

This is going to be a hardship on many people, and it is these we give this advice: Don't Fail to Buy a Spring Suit at This Critical Time.

There are many men who have accustomed themselves to wearing one weight clothing the year 'round, and such men especially shouldn't thing of letting this season pass without securing a Suit that will stand good for Winter wear as well as Spring and Summer.
