May Only be Rumors Rumors that the Pennsylvania Power Company, which operates the McCall Ferry power plant, might erect another dam at Turkey Hill, five miles south of Wrightsville. There was a representative from the plant

in the vicinity looking after real estate, and it has been learned purchased some. The feasibility of erecting the dam at Turkey Hill is recognized on account of the fall between Wrightsville and that point, and would supply considerable more current.

## How to Cut down your Fuel Expenses

THINK how much coal you burn in a range when you're not cooking. That's all wasted—money thrown away. And Uncle Sam wants every housewife who can, to save coal. Here is a good way for you to do your part. Use an oil cook stove instead of the fuel-wasting coal range. Then the only time you use fuel is when you are cooking. And that fuel, kerosene, is much more economical than coal.

## NEW PERFECTION OIL COOK-STOVES

not only give most satisfactory results—they save steps in house work and do all the cooking just as well (usually better) than a coal range.

Think how easy it is to strike a match and have an intense heat in less than a minute. No coal or wood to carry. No getting down on hands and knees to rake and poke at the fire. Your New Perfection is always ready when you are.

But after you do get your New Perfection be careful what kind of kerosene you use. There is only one kind that will always give most satisfactory results. It is called Atlantic Rayolight Oil to distinguish it from the other kinds. Ask for it by name. Atlantic Rayolight Oil is so highly refined that it burns without smoke, smell or sputter. Gives a more intense heat, too.

Select your New Perfection Oil Cook stove now. There's a dealer near you.
