American Airman Tells of Fighting Experiences

A Committee on Public Information representative in London says: There are no better sportsmen in the world than the allied airmen, and American aviators now fighting in Europe always play a fair game.

Magoun, former Harvard student, now a member of the Royal Air Force, recently wounded, tells how the lives of German observers escaping from balloons have been spared.

"We caught three Hun balloons above the allied grounds in a mist, which prevented the gunners seeing us," said he. "It was a cinch. You should have seen them hustle out their parachutes and abandon the balloons."

Magoun is the only American in his squadron, having joined in February of last year. He has bagged five German planes. While carrying bombs for low attack in the recent offensive he received a bullet through his left arm, but managed to get to his own lines.

Magoun tells of a companion in his squadron who had one of the luckiest escapes during the war. He was put out of action through the air when a bullet perforated his gasoline tank.

He rendered unconscious by the flames and his machine took a nose dive to earth, but he escaped without a scratch.

A section of the Royal Air Force operating in the Ypres salient has its only American member, who, when with the squadron only 1000 feet in the air when a bullet struck his plane.

Magoun's newspapers to promote good feeling between the people of England and the thousands of Americans received official backing when Sir Randolph Baker, member of Parliament, offered to take charge of the American troops welfare department of the British Government.

His plans contemplate a continuous program of healthful recreation in every American rest camp and training camp in England. Special London theatrical companies will be sent out. An organization known as "Sammy's Blighty League" is being formed.

Finger Prints to be Taken in Registration of German Alien Females. Registration of German alien females, to begin Monday, June 17 and end Wednesday, June 26, will be conducted in cities or municipalities having 5,000 population or over by police officials.

In general the plan of registration is the same as that followed in the registration of February of German alien males. Each person who must register will be required to register her finger prints. This method of identification is also used in the military and naval services of the United States.

American Infantryman Has Advantage in Ammunition Equipment. The American infantryman in the Expeditionary Forces carries 200 rounds of ammunition in the pockets of his light canvas web belt and his holsters. The German soldier has 120 rounds, and 30 of these are in his knapsack.

The American web belts, according to the War Department, are far superior to the German leather bandoliers. They are not affected by weather and are not so heavy as the leather of these belts is one pound lighter than the German model.

The Doctor Away From Home When Most Needed. People are often very much disappointed to find that their family physician is away from home when they most need his services.

Chronic Constipation. Perhaps you have never thought of it, but this disorder is due to a lack of moisture in the residual matter of the food.

Men in Training Camps Have Equipment for Many Sports

At every training camp in the country plans of the Commission on Training Camp Activities have been carried out to provide athletic facilities for the men. Base ball heads the list in popularity, and full equipment has been placed in the camps.

Where facilities permit, instruction in swimming is given. Men are first given land instruction and then sent into the water. Tennis courts have been built in every camp, one having 40 courts, and the sport is rapidly gaining in popularity.

REV. BOSSERT PREACHED BACCALAUREATE SERMON

The baccalaureate sermon to the largest graduating class turned out of the Mount Joy High School in many years was preached in the Presbyterian church on Sunday morning by the pastor, Rev. Frank G. Bossert, who leaves shortly for France, before an audience that should have been twice as large as it was.

The program opened with a prelude followed by Protestant, three verses of Onward Christian Soldiers; Invocation; Scripture Lesson; Announcements; Offering; Solo by Miss Mary Detweiler; singing four verses of Stand Up, Stand Up for Jesus; Rev. F. G. Bossert preached a very strong sermon, using as his subject, "Only be Thou Strong and Very Courageous"; Prayer; singing three verses of Hymn No. 533 followed by the Benediction.

These graduates were present: Abner Nissly Gingrich, Vivian Odetta Chasler, Florence Rebecca Becker, Howard Ross Eshleman, Edwin Donald Walters, Earl Brandt Walters, Calvin LeRoy Kramer, Russell Wilbur Sweigert, Henry Warren Musser, Martin Seachrist Musser, Pearl Miller Myers, Frances Ruth Pearl Miller Myers, Frances Ruth Muriel Hertzog, Christine Eleanor Moyer, Charles Gould DeLong, William LeRoy Tyndall.

CONSCIENTIOUS OBJECTORS WILL ALL BE SEGREGATED

Drafted men claiming conscientious objection to military service and who have been found by a court martial to be non-combatants as prescribed by President Wilson, are to be segregated at Fort Leavenworth, Kan., under terms of an order announced by Secretary Baker. If found guilty in their scruples by a special board of inquiry, they will be furloughed to work on farms as laborers at a private pay.

Federal Judge Mack, of Chicago; Dean Stone, of Columbia Law School; and Major Stoddard, of the Advocate General's Office, constitute the Board of Inquiry.

Under no circumstances will conscientious objectors be discharged from their responsibilities under the selective service act," the order says, and instructions are renewed to military courts martial to try and punish which were recently made by the War Department. It is intended to start several schools in selected military hospitals. Unless otherwise specified, applications should be sent directly to the Army School of Nursing, office of the Surgeon General of the Army, Washington, D. C.

Under a new agreement the Army will handle all mail for the Expeditionary Forces after it leaves United States ports. The Post Office Department will deliver the mail to military authorities at the port of embarkation in this country and receive it from them at a port in France for dispatch to the United States. The domestic money-order service to the troops will, for the present at least, continue under the direction of the Post Office Department in France.

The first Porto Rican laborers to reach the United States under Government auspices will be at work upon Government contracts within a month. The Employment Service of the Department of Labor has already found employment for at least 10,000 of these men as common laborers on construction work at Norfolk, Newport News, Baltimore, and vicinity. Arrangements are now being made by the Department of Labor to provide proper housing for these men.

HUNDREDS OF DEAD FISH IN THE SUSQUEHANNA RIVER. Hundreds and hundreds of fish—carp, bass and salmon and snapper turtles, also, have, for the past three weeks, been floating dead down stream, on the Susquehanna river, according to reports from Poconea and Shenk's Ferry. What kills the fish and turtles is a mystery, but indications point to it being some chemical in the water, evidently deposited somewhere upstream. So great has been this mortality among the fish that the dead bodies lined along shore has caused such a stench as to be scarcely bearable at places. Strange to say, no catfish or eels have been among the dead animal life that floated down atop the surface.

Perhaps you have never thought of it, but this disorder is due to a lack of moisture in the residual matter of the food. If you will drink an abundance of water, eat raw fruits and take lots of outdoor exercise, you may be able eventually to overcome it entirely. In the meantime use the most mild and gentle laxatives. Strong and harsh cathartics take much water out of the system and make a bad matter worse. Chamberlain's Tablets are easy to take, and most agreeable. Give them a trial and you will save life.

Plant a War Garden; Help Win the War. PLANTING to increase our export food stocks, war gardens will be planted this year in greater numbers than ever before. Each American family that has a garden plot is being urged to become more nearly self-sustaining by making use of it. This will render a national service by lessening the burdens on our railroads. Fewer carloads of food hauled about the country means more cars of munitions and food sent to seaboard for the Allies.

The United States Department of Agriculture and State Agricultural Colleges have printed leaflets of instructions for gardeners which will be sent upon request without charge. It was only during the last winter that government experts were able to know definitely how great was the aid of 1917 war gardens. In many sections the potatoes and other vegetables raised enabled the people to escape a widespread famine in certain commodities that were held up on account of a transportation crisis. Approximately 2,000,000 war gardens were planted in 1917—many were failures; but the gardeners who know more about potatoes and will do better in 1918.
