How France Has Been Fed

"Before the war, a distinguished French Officer, General Maitrot, wrote a series of articles in the 'Echo de Paris' to warn France, that in case of war, the French meat industry would be unable to supply the French army in the field with fresh meat, —owing especially to the lack of modern refrigerating plants and of refrigerating transportation, —and too, owing to the deficiency in the national herd."

"Since the war began the French army has never been short of fresh meat, thanks mainly to the prosperous condition of the American meat industry, and too, to the American live stock breeders."

The foregoing statement was made by a representative of the Allies now in the United States.

Another representative of the Allies said recently:

"that the American packers have been of the greatest possible assistance to the Allies and have, by their efficient co-operation, contributed in the utmost degree to the successful prosecution of the war."

Information Service Bureau Expands Rapidly

The Service Bureau of the Committee on Public Information has taken over various departmental independent information bureaus at Union Station, Washington, will consolidate and reorganize them and be prepared to give all visitors accurate information on Government business and the names and location of those clothed with authority to speak and

WEEKLY WAR NEWS DIGEST

STORIES OF ACTIVITIES AND CONDITIONS THROUGHOUT THE U. S. AND ON THE BATTLE FRONTS

Photographs of Navy Heroes Wanted

The Navy Department is collecting photographs of enlisted men who lose their lives in the war that their memory may be perpetuated. Secretary Daniels asks relatives or others having such photographs to lend them to the Navy that copies may be made for the Navy's records. Originals will be returned to the owners as fast as copies can be made.

A photograph of each man is to be forwarded by the Navy Department to the training station where he began his career in the service. At each of such stations a memorial gallery of honor or a hero's corner is to be established so that for all time the face of the man of the Navy who has made the supreme sacrifice may be honored by the youth of the future sent to the station for training.

All pictures, loaned or contributed, should be securely wrapped for mailing after they have been marked with the name, branch of service, and training station the young man entered under enlistment. They should be addressed to the Recruiting Division, Bureau of Navigation, Navy Department, Washington, D. C. Care will be taken to return safely the photograph to the sender, when desired, together with one of the copies made of it.

Size of Army Camps and Cantonnments Increased

More than \$22,000,000 have been expended during the past year under the direction of the Construction Division of the Army in making additions and improvements to camps and cantonnments. This sum does not include the construction of hospital buildings or the improvements made at other Army stations.

The improvement work consisted of additional buildings for housing the men and providing for their comforts and needs. Among buildings erected were quarters for officers and nurses, repair shops, additional barracks, coffee-roasting plants, kitchens and bakeries and theaters. New roads were laid and sanitation works improved and extended.

Many additional buildings are contemplated and general construction work will be rushed to completion during the summer and fall. In some instances the camp work has been extended to drainage of an entire district surrounding the camp to remove danger of disease arising from the proximity of swamps.

Liberty theaters have been erected at all national Army cantonnments. Each of these theaters has an average inclosed seating capacity of 2,000. Theaters and amusement halls have been erected at the National Guard camps and at other points where troops are in training.

Navy Enforces Direct Purchase Policy

Manufacturers and dealers are encouraged under the policy of the Navy Department to deal direct with the department. The purpose is to eliminate the middleman in purchases of supplies and materials.

"In my annual report," says Rear Admiral Samuel McGowan, "manufacturers and dealers are encouraged to deal direct with the department. The purpose is to eliminate the middleman in purchases of supplies and materials."

"In my annual report," says Rear Admiral Samuel McGowan, "manufacturers and dealers are encouraged to deal direct with the department. The purpose is to eliminate the middleman in purchases of supplies and materials."

Crack Navy Gunner Stops Submarine

The fourth shot from a gun manned by a Navy armed guard on the conning tower of a German submarine, which attacked the ship May 12 last at 1,000 yards distance. The submarine was compelled to submerge after having launched four torpedoes, two of which missed the steamer, bow by about 12 feet. Chief Gunner's Mate Harry R. Chambers, commanding the armed guard, was commended by Secretary Daniels for efficient conduct.

The Medical Department, United States Army, needs women as reconstruction aids. The office of the Surgeon General announces: "The work of reconstruction aids is divided into two sections, (1) those women who are well trained in massage and the other forms of physiotherapy and (2) those who are trained in simple handicrafts." Foreign service pay is \$60, home service pay \$50 per month and quarters allowances.

Illinois is the center of agricultural production of the United States says the Department of Agriculture. States of greatest production 1917 are: Iowa, \$1,330,000,000; Illinois, \$1,255,000,000; Texas, \$1,045,000,000; Nebraska, \$774,000,000; Indiana, \$769,000,000; Kansas, \$735,000,000; New York, \$700,000,000; Minnesota, \$646,000,000; Pennsylvania, \$646,000,000; Georgia, \$605,000,000; Wisconsin, \$598,000,000; California, \$575,000,000; Michigan, \$534,000,000; Kentucky, \$529,000,000.

Better Ship Loading Helps Our Allies

Economies of approximately 20 per cent. in shipping weight and 50 per cent. in shipping space have resulted from improved methods of packing merchandise for overseas practices by the Army Quartermaster Corps. This is equivalent to about 2,500 tons of space per month.

For the shipment of clothing and equipment, including such items as blankets, barrack bags, towels, shelter tent halves, bedding and other dry goods, in addition to wearing apparel, having been substituted for boxes, and the weight of the lumber has been saved. The bales average 30 by 15 by 15 inches and weigh 90 pounds. They are bound with not less than four rolled unannealed steel bands. Burlap over waterproofed heavy paper is used to cover the bales, and there are two "ears" on either ends of the bale for handling.

Women are stevedores on the docks in France. There is a law they shall not be required to carry packages weighing more than 70 pounds. Packages shipped to the American Expeditionary Forces are standardized so they shall not weigh more than 70 pounds for handling by one woman carrier or more than 140 pounds by two women carriers. Men handle the heavier packages and the boxes that must be used instead of bales.

The Quartermaster Corps recommends to manufacturers supplying the Army many similar economies in packing and shipping which will result in even more pronounced space and weight saving. Round cans and containers entail a waste in space of 23 per cent. Square containers are urged. It is estimated that every inch saved through bale compression is worth 65 cents in ship space.

Mrs. Burns' Letter

Here is a letter that is certain to prove of interest to people in this vicinity, as cases of this sort occur in almost every neighborhood, and people should know what to do in like circumstances:

Savannah, Mo., Oct. 12, 1916.

"I used a bottle of Chamberlain's Colic and Diarrhoea Remedy about nine years ago and it cured me of flux and Chamberlain's Colic and Diarrhoea Remedy cured dozens of people since I first used it." July 3-6t

At Greensburg, Pa., A. D. McConnell, proprietor of a hotel became ill and his wife tended bar. Just for that the court revoked his license.

act for the Government. Since the service bureau opened offices May 1 it has built up a card-index system with 50,000 entries, many of the cards being subject to daily revision and correction. In a recent week the bureau handled 1,630 visitors seeking special information and answered an average of 150 query letters daily.

Newspapers Must Economize on Print Paper

Because of an acute shortage in the supply of paper the War Industries announced, effective July 15, the following preliminary economies to be enforced by newspapers published daily and weekly edition.

War article 2

Discontinue the acceptance of the return of unsold copies.

Discontinue the use of all samples order to promotion copies.

Discontinue giving copies to anybody, except for office-working copies or where required by statute law in the case of official advertising.

Discontinue giving free copies to advertising agencies, except one copy each for checking purposes.

Discontinue the arbitrary forcing of copies on news dealers (i. e., compelling them to buy more copies than they can legitimately sell in order to hold certain territory).

Discontinue the buying back of papers at either wholesale or retail selling price from dealers or agents in order to secure preferential representation.

Discontinue the payment of salaries or commissions to agents, dealers, or newsboys for the purpose of securing the equivalent of return privileges.

Discontinue all free exchanges.

Southern farm boy-club members produced in 1917 food and feed valued at \$4,019,121 the Department of Agriculture reports. A total of 115,745 boys were enrolled in regular clubs in 14 States.

Student Nurses Enter Camp Schools

Three hundred applicants for student nurses to enter training schools in the base hospitals at cantonnments were accepted recently. There have been more than a thousand applications for entrance to these Army schools, or nursing schools the Government sent out its call for student nurses.

The majority of these offering their services have been college women or women with a complete high-school education. The training units will be assigned, it is expected, during the present month. Each unit will number 25 or 30 student nurses and will be supervised by an accredited and competent nursing instructor and by a trained woman, who will be responsible for the physical welfare and recreation.

Department of Agriculture specialists, appearing at increased production of poultry and eggs, make these suggestions: Keep better poultry; select healthy vigorous breeders; hatch early; preserve eggs; cull the flocks; grow as much poultry feed as possible; supply the family table with more poultry and eggs and conserve the meat supply.

The division on women's war work of the Committee on Public Information announces that the trustees of Pratt Institute, Brooklyn, N. Y., offer to wives and daughters of Army officers three scholarships, including tuition and laboratory fees, for 1918-19 covering housing, science, household arts and preparation for institutional work.

STATES HE HAD ONE LUCKY DAY

TANLAC HELPED WELL-KNOWN DRAYMAN AFTER EVERYTHING ELSE FAILED HIM

Almost everybody in Erie, Pa., knows G. W. Gundaker, of 441 East Fifth St. George, as he is fondly called by those who have admired him for his honesty and integrity for a good many years, has been a sufferer from stomach trouble and indigestion.

"I had a terrible case of stomach trouble and indigestion," he explained, and although I had doctored several years I could not get any relief.

"I would just blot up like a mule and get cramps after eating. Yes, sir, I would feel all out of shape. The only relief I could get was by taking a little soda, and that relief was only for an hour or so at a time."

"It was a lucky day for me when I got this Tanlac, and I certainly do thank the fellow who recommended it to me. Tanlac is the only medicine that really ever helped me, and I had tried everything. Yes, sir, everything. I am now like a new man and I advise any one who has stomach trouble or indigestion to use this medicine. It surely will cure them. My phone number is Mutual 1707-X, and I would not mind answering any other questions about my relief."

Tanlac is now sold here by W. D. Chandler & Co., druggists, where the Master Medicine can always be had.

GIVE YOUR MOTOR THE HY-SIGN

THEY WATCH IT PICK UP AND HUSBLE, SURE DEATH TO CARBON!

Friend Autotest: We don't have to tell you anything about carbon, the great standard motor curve which you "pass out," but seldom entirely cut out of your motor. At that carbon is great stuff—in his place. This it may be life to the electric light—while it is death to gasoline engine efficiency.

You should do what thousands of satisfied autotests are doing. They give their motors HY-SIGN CARBON REMOVER and that is a sure death to carbon.

HY-SIGN improves the quality of your "gas," giving 25% to 40% more mileage on same amount of gasoline—thus making for greater increased efficiency and economy these war times of high gasoline prices.

Give your dealer the HY-SIGN. Then give your motor the HY-SIGN, and note how gratefully it gives you its best of speed power and mileage.

HY-SIGN has proved all that is claimed for it by exhaustive tests. BOTTLES CONTAINING 24 cts. \$1.00 for 120 gallons of gasoline. ASK YOUR DEALER or send to Eureka Auto Products Corp., 123 Liberty St., N. Y. City.

It pays to advertise in the Bulletin

BATTERIES RECHARGED

I am equipped to recharge your batteries on short notice and in a manner that will not inconvenience you and at the same time be inexpensive. Bring your car to my garage some evening and next morning battery will be ready. Call and let me give you my plan.
