WE HATED THE LIARS When as wee youngsters in school together, we hated the liars and the telltales. Once we found them out, we never really trusted them again And it is the same way in our older years-we never really trust those we have found lying and telling tales.

In a world way, the Germans have proved themselves the most consist ent and despicable liars of all times. That is why we do not trust themwhy we must win the war through to a finish. And that is why we do not dare accept, at face value, any rumor or talk that in anyway has to do with the Germans. Truth comes from them only by accident.

Now that they are encountering defeat on every side, the Germans may very likely rebouble their efforts to save some of the wreckage by adroit lying-so keep your eyes open and demand proof of every story you hear.

The battle front in Europe is not the only American front. There is a home front, and our people at home should be as patriotic as our men in uniform in foreign lands.

SEVEN REASONS FOR SAVING

Save for your country's sake, because it is now spending millions a day and must find most of the money out of savings.

Save for your own sake, because work and wages are plentiful, and, as prices are high now, a dollar will buy more after the war.

Save, because when you spend you make other people work for you, and the work of everyone is needed now to win the war. Save, because by saving you make things cheaper for everyone, especi-

ally for those who are poorer than

Save, because by going without you relieve the strain on ships, docks, and railways, and make transportation cheaper and quicker, Save, because by saving you set an

example that makes it easier for the next man to save. A saving nation is an earning nation. Save, because every time you save you help twice, first when you don't spend and again when you lend to th

Notice To Subscribers

The Government of the United States has decided that the use of news print paper must be reduced by at least fifteen per cent. This decision was arrived at because there is needed for the manufacture of munitions of war a part of the coal, water power, wood

pulp, etc., now used in making paper. As a result of this action of the Government, the newspapers of the United States have each been notified by the War Industries Board that certain things must be done by them, otherwise they will not be able to obtain any paper. There are fifteen of these requirements, among them Rule No. 2, which effects every Bulletin sub-

scriber, who is three or more months in arrears: NO. 2 NO PUBLISHER MAY CONTINUE SUBSCRIPTIONS AFTER THREE MONTHS AFTER DATE OF EXPIRATION, UN-LESS SUBSCRIPTIONS ARE RENEWED AND PAID FOR.

You will bear in mind that this is an order from the United States Government which must be obeyed by us. We feel sure that every Bulletin subscriber wishes to be cer-

You have until October 15, 1918, to get up to date. Kindly see to it that by said date your paper is paid in advance. The small label containing your name and pasted on your paper each week will show the date to which your paper is paid according to our books. For example: "John Smith lapr18," means that your paper is paid to the first of April, 1918, and that you are five months in arrears. Please give this matter your immediate at-

tain of receiving every issue of the paper during these war times.
