To the Milk Producer

We are pleased to advise that we will be ready to receive your milk not later than October 31, 1918.

Our plant is equipped to handle 25,000 to 30,000 (twenty-five to thirty thousand) pounds of milk daily, and is, we think, the most modern and up-to-date in the State.

NO MILK WILL BE RECEIVED ON SUNDAYS

Do not listen to any tales to mislead you, given out for selfish interests. We are in business to stay and will stand by the Milk Producer. Your milk will be taken regularly the year around.

We are not connected in any way, whatsoever, with any other buyers of milk.

By delivering your milk to us you will be supporting a home industry, in which most of you are directly interested, and all of you indirectly.

You will receive an absolute square deal, a good price for your milk and treatment of the kind that one business man owes to another.

Drop us a card or 'phone us, so we may know that we can count on you.

THIS WEAK, NERVOUS MOTHER

Tells How Lydia E. Pinkham's
Vegetable Compound
Restored Her Health.

Philadelphia, Pa.—"I was very weak, always tired, my back ached, and I felt sickly most of the time. I went to a doctor and he said I had nervous indigestion, which added to my weak condition kept me worrying most of the time—and he said if I could not stop that, I could not get well. I heard so much about Lydia E. Pinkham's Vegetable Compound my husband wanted me to try it. I took it for a week and felt a little better. I kept it up for three months, and I feel fine and can eat anything now without distress or nervousness."—Mrs. J. WORTHLINE, 2842 North Taylor St., Philadelphia Pa.

The majority of mothers nowadays overdo, there are so many demands upon their time and strength; the result is invariably a weakened, run-down, nervous condition with headaches, back-ache, irritability and depression—and soon more serious ailments develop. It is at such periods in life that Lydia E. Pinkham's Vegetable Compound will restore a normal healthy condition, as it did to Mrs. Worthline.

Drop us a card or 'phone us, so we may know that we can count on you.

SHARE OUR SUGAR WITH THE ALLIES

British Get Two Pounds a Month.
French Pound and Half,
Italians One Pound.

GERMAN SUPPLY PLENTIFUL.

All Nations Permit Use of Sweetening
for Home Preserving Purposes.

America's new sugar ration of two pounds a month per person is equitable when compared with the sugar ration enforced by rigid governmental order in England, France and Italy, nations with which we are sharing sugar.

Each Allied nation—in the matter of sugar consumption—is sharing on near-equal terms the hardships imposed by greatly altered conditions in the world sugar situation.

Formerly classed as a luxury, sugar is now a war time essential. The fair and just division of this essential is in the hands of the various Allied food controllers.

The United States Food Administration has asked this nation to observe a voluntary sugar ration of two pounds per person a month.

In the other countries at war with Germany sugar is one of the scarce articles on every menu—whether in the households of both rich and poor, or in the hotels.

England today has a sugar ration of two pounds per month per person. In France the ration is a pound and a half and in Italy it is one pound a month. And the prices in allied countries are from two to three times as high as in America.

If you go to a hotel in England or France these days and order tea or coffee they serve absolutely no sugar with it. If you want sugar you must bring it with you.

In England it is allowable to use one-seventh of an ounce of sugar in the preparation of each luncheon. In France...

COMMUNICATED
Nov. 19, 1918.

To the Bulletin Editor:
The raising of money in any and every way is not commensurate even though the object be a good one. A case in point is the letter now being sent out to all citizens of Mount Joy soliciting subscriptions for the United War Work Campaign. The letter contains the following paragraph—"A list of subscribers and the amount paid by each is posted at the First National Bank, the Union National Bank and in the window of the Bulletin Office." The publishing of this list is done without the consent of the subscribers and its object is to "Blackjack" all present subscribers, and those who did not, to give more. Such hold-up tactics have been altogether too frequent, they create an irritation that in the end is harmful to the cause they seek to benefit. Soliciting should be done with tact and good nature. Any attempt to humiliate those who are OBLIGED to refuse a contribution deserves a rebuke. Let us have no more black-guarding of citizens who cannot afford or will not at the moment hand over any amount some one imagines they ought to give.

Yours truly,
M. A. ROLLMAN.

Thousands of Dollars Added to Cattle Profits

OUT of every five bushels of whole grains fed your cattle, one bushel goes to the manure pile without being digested and is a total waste.

But ground feed is all digested. Feeding it, means a 20% cut in feed costs, also fatter, higher priced stock. Come in and let us show you without any obligation, how easy it is to get these results with the

LETZ America's Leading Feed Mill

The fine cutting of the Letz is due to the 843 keen cutting edges of the patented Letz Grinding Plates. In one operation cuts, grinds, pulverizes into finest meal all grains and grasses, wet or dry; and cannot clog.

Grinds corn, shelled or on cob—snapped corn—or complete stalk, ear, leaves, and all. Grinds oats, hulls and all; grinds barley, rye; special attachment for alfalfa, clover, millet, Kafir corn and other roughage crops. Grinds into finest flour.

Plates are self-sharpening—can be run together empty for hours without injury—average 2000 bushels of moderately fine cut meal before replacement is necessary.

Grinds the finest flour. Has 10 big exclusive features any one of which makes the Letz superior to any other process. Let us prove it. See a Free Demonstration today.
