Items in These Columns Are Pre-pared in the Department of Agri-culture at Washington, D. C., and Are Reliable and Trustworthy

A COW FOR EVERY FARMER
Every farmer should at least have
one dairy cow. More may be kept if
it is desirable or profitable, but there
should be at least one cow. The farm
family richly deserves the best of
food and from the standpoint of
economy it should have inexpensive
food. Milk produced by the farm
cow is not expensive. What other A COW FOR EVERY FARMER food. Milk produced by the farm cow is not expensive. What other animals will so well utilize the grass plots around the house and barn throughout the summer? In the winter it will be necessary to give her some commercial feed, but the cost on any farm will not be great. Even with this the cow is profitable for she produces milk that furnishes plenty of bone and muscle-building material for the young people, and gives terial for the young people, and gives strength to the older members of the ramily. Dairy dishes in any form add rariety to the meal. Milk can take he place of many purchased foods also at a great saving in cash and lealth. Maybe there should be more, out surely one cow to the farm

MARKETING BUTTER BY MAIL A farmer's wife who was making a good quality of butter was securing but little more than half retail price a pound for it when a trial shipment was made by parcel post to a customer in a large city. As the result of this shipment, a demand was developed, and customers obtained for veloped and customers obtained for the entire product at an advance in price to the farmer's wife and with considerable saving to the cus-Dest creamery butter.

A number of creameries have de-

eloped an extensive parcel-post busi-ess. One which has a large output narkets practically its entire product lirect to consumer or retail dis-ributors, except in the flush of production in spring and early summer. Another has developed a substantial arcel-post trade by sending out a veekly price list.

OATS STRAW FOR BEEF CATTLE the feeding value of our straw it was ound that a ration of corn silage, orn and cottonseed meal was just so valuable for economy and extent f grains when used with oats straw

ed country. Where people and live stock must compete for the same grain, live stock is pretty apt to get left.

But there is no real need for permatraw and stover are especially aluable for the wintering of breed-ng herds of beef cattle, and should rm a large part of their feed.

PARASITES CAUSE GREAT

There are thousands of species of parasites belonging to the animal kingdom aldready known to man, and new ones are continually being discovered. Some of them appear to be quite harmless; others are most injurious, and some produce acontinually being discovered. The IRISH POTATO THE FOOD injurious, and some produce conditions for which no cures have been discovered. The loss to the live-stock industry in the United States from animal parasites amounts to be stated. these parasites can be transmitted to man, either in meat or in other ways. It was for the purpose of investigating such parasitic organisms with the view of developing methods with the view of developing methods.

Truly, the potato is the food of the province of investigating the control of the control o with the view of developing methods of prevention, control and treatment that the zoological Division of the Bureau of Animal Industry was established. The division now posns any of the above lines on request.

with the view of developing methods of prevention, control and treatment that the zoological Division of the Bureau of Animal Industry was established. The division now posnsesses one of the largest collection of the Region of the Proposition of the Region of the Reg specimens of parasites in the world, which is most useful for the purpose of reference in identifying specimens bushels per acre, and at the same time to decrease the cost of raising each

sent in by farmers, veterinarians and others.

A BALANCED POULTRY RATION A well-balanced, simple ration may be made of equal parts, by weight, of wheat, cracked corn, and oats fed twice daily, usually in the morning and at night. The grain may be either scattered on the range in summer and in the litter in the poultry house in winter, or fed in the house throughout the year. It should be supplemented with a wet or dry mash of years of corn meal and one part each of wheat bran and midlings and beef scrap. One feed of mash may be fed at any time during the day and the grain fed for the other two meals. Regulate the proportion of grain and mash so that the hen will consume about equal parts or each. About one quart of grain daily should be great to every 16 Leghorn hens, or to 13 general purpose hens, such as the Plymouth Rocks, with an equal weight of mash. This amount, however, varies and should be regulated by the feeder, as the hens should be cager for each meal. Leghorns will eat about 55 pounds of grain and mash in a year and Plymouth Rocks, with an equal weight of mash. This amount, however, varies and should be regulated by the feeder, as the hens should be cager for each meal. Leghorns will eat about 55 pounds of grain and mash in a year and Plymouth Rocks, which are provention of grain and mash in a year and Plymouth Rocks, with an equal weight of mash. This amount, however, varies and should be regulated by the feeder, as the hens should be cager for each meal. Leghorns will eat about 55 pounds of grain and mash in a year and Plymouth Rocks, with an equal weight of mash. This amount, however, varies and should be regulated by the feeder, as the hens should be cager for each meal. Leghorns will eat about 55 pounds of grain and mash in a year and Plymouth Rocks or hens of the general purpose class, about 75 pounds.

POPULAR MAYOR PAYS TANLAC A GLOWING TRIBUTE

Mayor T. F. Freeburn, of North-umberland, Pa., joins with other prominent Pennsylvanians in en-dorsing Tanlac, the Master Medicine.

We food products, chiefly grains and meats, were produced on virgin, un-fertilized lands. Emigrant labor was

A SOIL FERTILITY PROPHECY

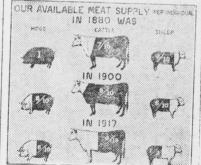

Editor Collingwood ot the Rural New Yorker says:

"Gasoline leaves no organic matter behind it. We have come to the time, and we are rapidly going further into it when there will be practically no stable manure for people to buy and put on their ground. And then people will suddenly wake and realize that all these years they have been giving to stable manure a value it did not carry, and that, with fertilizers properly handled and with cover crops, they will be able, to get the same results with less labor, with more profit and with far greater satisfaction."

OUR DWINDLING MEAT SUPPLY

You have no doubt become accusomed to meatless days, but secretly you are probably waiting and hoping for the day when you can again eat a good steak without feeling unpa-

But do you realize that the average neat supply per individual, even beore the war, had fallen off nearly one fourth since 1900? To be sure, each of us had nearly as much meat to eat

in 1917 as in 1900, but this was secured at the expense of our European neighbors. Our exports practically ceased; we had no surplus left to send

But the question is, "Toward what are we headed?" Shall we have to continue to reduce our meat ration until eventually we come to the plan of cereal-eating China? This is the In an experiment conducted at the diana experimental station to test ed country. Where people and live

But there is no real need for permaas when fed with clover hay. As such a ration is extensively used in various parts of the United States its practical value can readily be seen. farm and particularly our pastures are pacity. Following the close of the war fertilizer will undoubtedly be used more extensively than ever before to boost live stock production. Many live stock farms could actually double their carrying capacity by making use

THE IRISH POTATO THE FOOD OF THE PEOPLE

animal parasites amounts to hundreds of millions of dollars every year, and in addition to this damage certain of consumed in the United States in 1915 The Irish potato is a staple of

prominent Tennsylvanians in endorsing Tanlac, the Master Medicine. He says.

"I can gladly recommend Tanlac to all sufferers of stomach trouble and nervousness. I suffered greatly from my stomach for a long time. My stomach trouble was accompanied by nervousness, sleeplessness, loss of appetite, indigestion and a badly run-down condition.

"I had heard a good deal about Tanlac, so I bought a bottle to see what it would do for me. It really is the finest thing I ever tried. My stomach is giving me no trouble at all and my nerves have been quieted. After I get to bed I sleep like a rock. Mrs. Freeburn has also taken Tanlac and says it is building up her system. "Tanlac surely has my endorse ment."

The genuine Tennsylvanians in endorsing Tanlac, the Master Medicine. He says.

"I can gladly recommend Tanlac to employed and subsequently there was cheap railroad and steamship transportation, so until recently the people in cities have been fed on food produced and sold at a price which did not take into consideration the cost of production and the value of plant food contained in crops which must be returned to the soil to maintain productivity."—Report of the Food Problem Committee, the Merchants' Association of New York.

Chamberlain's Tablets

When you are troubled with indigestion or constipation, take cheap railroad and steamship transportation, so until recently the people in cities have been fed on food produced and sold at a price which did not take into consideration the cost of production and the value of plant food contained in crops which must be returned to the soil to maintain productivity."—Report of the Food Problem Committee and sold at a price which d

"Tanlac surely has my endorsement."

The genuine Tanlac bearing name J. I. Gore Co. is sold by W. D. Chandler & Co., druggists, Mount Joy, Pa.

Big Shoot at Florin

A shooting match for a big hog, and a lot of fine turkeys will be held at the Hotel at Florin on Saturday, Jan. 25. Distance, 25 yards, 12 gauge guns, No. 8 shot and only factory loaded shells.

"Tanlac surely has my endorse. When you are troubled with indigestion or constipation, take Chamberlain's Tablets. They strengthen the stomach and enable it to perform its functions naturally. Indigestion is usually accompanied by constipation and is aggravated by it. Chamberlain's Tablets cause a gentle movement of the bowels, relieving the constipated condition.

The building owned by the Lititz Motor Company, at Lititz, was destroyed by fire entailing a \$9,000 loss.

PROF. ROYER OF LAN-

The Lancaster Examiner has the

The Lancaster Examiner has the following to say of Mr. Royer, who will appear in Mount Joy Hall on Thursday evening, Feb. 6, under the auspices of the Pattersonian:

Mr. Clarence de Vaux Royer, the eminent solo violinist, teacher and director of orchestra, has decided to remain this season or part of the season in Lancaster. This will add greatly to the musical forces of the city and offer an opportunity to violinists for instruction of a high quality. Mr. Royer has been recognized as one of the foremost teachers and violinists of the great metropolis. His temporary address is No. 144 College

CASTER, IS WIDELY KNOWN WAS NOTHING NEW

Royer has been recognized as one of the foremost teachers and violinists of the great metropolis. His temporary address is No. 144 College avenue. He was for the past nine years head of the violin department of the New York School of Music and Art and associated with Arthur Friedheim, the great Liszt authority. He was for six years a private pupil in Europe of three of the world's greatest masters—Ysaye, Halir and Marsick. He was one of the founders and the concert master of the Philadelphia Symphony Society, afterwards the Philadelphia Symphony Orchestra. He has given over fourteen hundred recitals, concerts, lecture recitals musicales and solo violinist at church services during the past twenty-five years in America. Canada and eight countries of Education, totaling three hundred and five to dat.

He lectured and played six times at Columbia University. Mechanics' and Tradars' the conditions are given as he foundthem in that section. In some respects the symptoms described are not unlike those observed in the prevalence of influenza now.

Dr. S. P. Hildreth, writing from Bellepre, Ohio, March 3, 1808, has this to say about the same disease: "Influenza appeared amongst us on the first of October. It came from the eastward and travelled on the westward. Nothing new was discovered in its appearance. Old people suffered me at from it, their cough being much more distressing than the young. Some who had fever and ague suffered very much from it, the cough being obstinate, and removed only by removing the ague. By the first of November influenza had left us. Towards the last of October and beginning of November, a number were seized with a disorder that had the appearance of a violent pleurisy. The patient was seized with a chill, in some amounting to an ague, followed with a violent fever, and severe pain Inversity.

Education, totaling three hundred and five to dat.

He lectured and played six times at Columbia University; at Cornell University, Mechanics' and Traders' Institute (where he also had charge of the orchestra), at every school along the Hudson river from one to six times, except Vasser. His torns have extended over New York State, every State in New Enlgand, Pennsylvania, New Jersey, Maryland, North Carolina, Virginia, Delawars seven of the Western States and the Dominion of Canada and in Europe. He gave twenty-one subscription concerts at the Waldorf-Astoria and was director of the orchestra and soloviolinist at Cornell University, was head of the violin department, Itaca Conservatory, for three years: director of music at Merideth College, Raleigh, N. C.

He has appeared in public with many of the world's greatest artists as violin soloist; also with other celeptities—Mark Twain, Charles Schwab, Thomas Johnson, Dwight Hillis, Champ Clark, Elbert Hubbard, Joseph Choate, Andrew D. White, Edwin Markham, Hudson Maxim, Robert Collier, Henry Van Dyke and others. He has also appeared before the Empress Frederick, Princess Beatrice, Proncess Metterwich, the American and British embassies in Paris, Brussels and eBrlin.

A big dye industry will occupy the former distillery at Grofftown.

and yet influenza was not an un-known pleague more than a century

THERE is no use in letting time pass when an opportunity presents itself such as is offered in this Sale of Men's Suits and Overcoats.

We can guarantee these prices only as long as our stock holds out-after that we

will be talking "Spring stuff." KEEP IN MIND that these Reductions are offered by the largest Clothing store

That they are offered by a store whose policy has been LOW PRICES ALL THE TIME—REDUCTIONS NO TIME-

And that this Reduction Sale was only undertaken after thoughtful consideration, and because of the fact that an abnormally mild Fall and early Winter Season, the uncertainty of many men as to their draft status and the unexpected signing of the Armistice found us with a heavier stock than normally we would have had.

Because our ORIGINAL prices were lower than the run of stores, our reductions are larger than they appear on the face.

BOYS' \$8 BLUE SERGE SUITS, \$5

Here is another fine Bargain. It consists of 150 Blue Serge Suits out of a lot of 550 that we bought some time back to sell at \$8. Being the unsold portion, we are offering them at ONLY \$5. They are absolutely ALL-WOOL, FAST COLOR.

ANOTHER BARGAIN IN MEN'S TROUSERS

We have a table of 300 Pairs of Men's separate Trousers-worsteds and corduroys—that we have marked \$1.98 each to clear out rapidly. We couldn't buy for that price at wholesale today. Sizes 31 to 42.

BOYS' RAINCOATS ALSO REDUCED

All Our Rainy Day Oufits, that were formerly priced up to \$7, are NOW \$3.98. Some have Coat and Cap, others have Coat, Cap and Leggings.

GROFF & WOLF CO.,
