

AMERICAN STORES CO.

Nation's Birthday, Friday, July the Fourth

Our stores will be closed all day. Open until 10 P. M. Thursday evening to better serve you.

We have arranged a very seasonable list of merchandise at prices much below those usually charged, alike suitable whether you spend the day at home or "picnicing" in the woods.

The special occasion as well as the "every day routine" finds us in readiness.

FARMERS' COLUMN

Items in These Columns Are Prepared in the Department of Agriculture at Washington, D. C., and Are Reliable and Trustworthy.

Items in These Columns Are Prepared in the Department of Agriculture at Washington, D. C., and Are Reliable and Trustworthy.

GUARD WHEAT AGAINST RATS AND MICE

The greatest wheat crop ever produced in America will soon be harvested. Grain elevators will soon become veritable treasuries which thieves rats and mice will break into if they can.

Don't feed \$2.26 wheat to rats and mice, says the United States Department of Agriculture. Traps, poison and rat-proof construction will stop their raids.

The arch enemies of stored grain are dampness and rodent pests—rats and mice. An elevator with a leaky roof is only a little worse than one allowing free entry to rats and mice.

Where rats and mice have plenty of food and are unmolested they multiply overwhelmingly. For example, in Australia, during the great war, sacks of wheat stacked in high piles awaiting shipment, became infested by mice which riddled the sacks and destroyed a large part of the contents before preventive steps were taken.

The United States Department of Agriculture furnishes plans and bills of materials for rat-proof granaries, and in its Farmers' Bulletin 896 described various methods of destroying rats and mice. These publications may be had free on application.

BUY FEEDER HOGS IN SOUTH

Members of the county farm bureau in Montgomery county, Ind., with the assistance of the county agent, corresponded with county agents in Alabama and Tennessee and have been able to locate feeder hogs.

MORE MEN ANIMALS ON FARMS

Last November the Secretary of Agriculture addressed a statement to the farmers of the Nation, in which he said: "The world will have need particularly of a greater supply than normal of live stock, especially of fats. We should not fail, therefore, to adopt every feasible means of economically increasing our live stock products."

CURING AND STORING HERBS

The most important point in connection with producing good savory herbs is proper curing. The tender stems, leaves and flowers, where included, should be taken from the plants at the proper stage and then dried in the shade.

For marketing these small packages can be packed in pasteboard boxes in any desired number. They are usually sold by the dozen. Much depends upon the attractiveness and appearance of the herbs when they are put up for the market.

Chamberlain's Colic and Diarrhoea Remedy

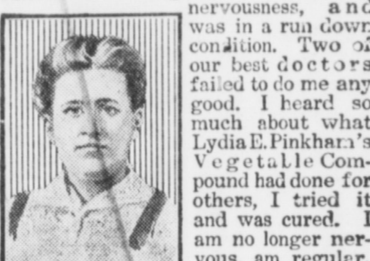

This medicinal remedy wins the good opinion if not the praise of those who use it. Try it when you have need of such a remedy. 7-2-19

Reports show that there has been an increase of three per cent. in the number of lambs in Pennsylvania.

HOW THIS NERVOUS WOMAN GOT WELL

Told by Herself. Her Sincerity Should Convince Others.

Christopher, Ill.—"For four years I suffered from irregularities, weakness, nervousness, and was in a run down condition. Two of our best doctors failed to do me any good. I heard so much about what Lydia E. Pinkham's Vegetable Compound had done for others, I tried it and was cured. I am no longer nervous, am regular, and in excellent health. I believe the Compound will cure any female trouble."—Mrs. ALICE HELLER, Christopher, Ill.

Nervousness is often a symptom of weakness or some functional derangement, which may be overcome by this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, as thousands of women have found by experience.

THE FISH LICENSE BILL IS NOW SHELVED

The Senate committee on Game and Fish, Tuesday night refused the plea of sportsmen of the State to report out at once the Fishermen's License Bill and give the Senate a chance to act on the measure.

Loss of Appetite

As a general rule there is nothing serious about a loss of appetite, and if you skip a meal or only eat two meals a day for a few days you will soon have a relish for your meals when meal time comes.

Good Business for Sale

I have for sale the entire dairy outfit, F. Kaszmar, E. P. Kaszmar, Son of this place. It includes horses, wagons, cans, bottles, clarifier, separator, cooler, etc.

Deer Changes Its Mind

Tales of the unusual boldness of a deer which came from one of the nearby mountains are being told by residents of Landisville. Late Wednesday the animal came through the town, walked up the steps of the First National Bank, turned about and hastened away when the attention of bank attaches was drawn to the animal.—An Exchange.

Now Get Busy

On account of advanced years of the owner, who wants to be relieved of responsibility, I have five dwellings and a lot adjoining on North Barbara street, Mt. Joy, known as Sherk's Row, for sale. The price is right as I can show you a ten per cent. investment. Who wants it? Greater portion of money can remain. J. E. Schroll, Mt. Joy.

Keystone Combined Side Delivery RAKE and TEDDER

This Machine Rakes Clean, Teds Thoroughly and Handles Hay Gently

Its Left-Hand Delivery Means Better Hay, Cleaner Raking

Using this machine as a rake, you can follow the mower closely striking the heads of the hay first. As you know, the hay falls backward from the mower with heads upmost. The closely spaced teeth of the Keystone Side Delivery Rake and Tedder thus work against the heads and the leaves, and rake as clean as if the stubble was swept by a broom.

If a right-hand rake were used two serious difficulties would be encountered: First, if the mower were followed the windrow would be deposited on an unraked swath, thus leaving that swath uncured. Second, in going in the opposite direction from the mower, the teeth would strike the butts of the stems first, not catching in the crotches and not doing as clean work.

INSTANTLY ADJUSTED FOR RAKING OR TEDDING
By manipulating lever, the cylinder can be adjusted to revolve in either direction. There are three notches in this lever quadrant, one neutral and one reverse for tedding, the other revolving the cylinder for raking. THIS VALUABLE MACHINE CAN BE BOUGHT FOR \$100 OR FOR \$95.00 THIRTY DAYS

G. MOYER

West Donegal St., Mount Joy, Pa.
