WAR WORK OF AMERICAN WOMEN

Staggering Total Shown by Production of Red Cross Chapters During War.

NEARLY \$100,000,000 WORTH ITS SERVICES LAST YEAR

This Was Only One of Many Activities in Which Their Loyalty to Their Country Was Shown.

The war achievement of the women of the United States through the American Red Cross has just been made public, and it shows clearly what they did to win the great conflict. The report shows but one of the numerous activities by which they backed up the country's fighting men, but the tremendous part they played is shown in the fact that in two years they produced nearly \$100,000,000 worth of surgical articles and garments, a truly staggering total.

Three Million Worked. It is estimated that 3,000,000 women and girls participated in this tremendous work, and it is among them largely that the Red Cross is now recruiting the million workers who will assist in the enrollment of members for 1920 during the ten days ending Armistice day, when universal membership will be sought to maintain the effectiveness of the organization built up in the war for the big peace program of the Red Cross.

The approximate number of articles, and their estimated value, produced by the women of the various Red Cross Divisions of the east, is as follows:

New England (Maine, New Hampshire, Vermont, Massachusetts, Rhode Island), 29,084,706 articles, valued at \$7,436,695.

Atlantic (New York, New Jersey, Connecticut), 77,839,394 articles, valued at \$15,597,428.

Our Own Contribution. Pennsylvania-Delaware (Pennsylvania and Delaware), 25,277,321 articles, valued at \$7,670,279.

Potomac (District of Columbia, Maryland, Virginia, West Virginia), 7,881,056 articles, valued at \$2,404,319.

The other nine divisions, covering the remainder of the United States, did proportionately good work. Every division made a splendid record, its contribution being regulated only by its population and material resources.

Chapter production was not the only activity of these loyal women, for they were tireless in Red Cross canteen and hospital work, in the two War Fund campaigns and Christmas Roll Calls, the remarkable increase in Red Cross membership from 328,000 before the war to its present strength of nearly 20,000,000, exclusive of Juniors, being attributed in very large part to their assistance.

What this chapter production meant to the needy people to whom the results of its labor was sent can scarcely be overestimated. It was not confined to any one people or group of people, but was distributed wherever needed over the entire war zone as well as among the military camps in this country. The work was an earnest, not only of the spirit of the American women, but of the American people as well.

RED CROSS TO FIGHT "FLU"

State Commissioner of Health Calls on It to Prepare For Possible Recurrence.

NEARLY \$100,000,000 WORTH ITS SERVICES LAST YEAR

By Reason of Splendid Work the Red Cross is Asked to Be Ready This Fall in Case Aid is Needed.

The Commissioner of Health of Pennsylvania has called upon the Red Cross as represented here by the Pennsylvania-Delaware Division, to make suitable preparations to meet a possible recurrence of the influenza epidemic this fall.

While it is believed that a repetition of the disastrous epidemic of last year is improbable, last year's experience has shown that the epidemic develops with such rapidity that in order to provide for prompt and efficient action, plans should now be formulated to deal with the possible emergency.

Work For Chapters. To this end the commissioner recommends that each Red Cross chapter should make a careful survey of material resources, of buildings, both actually and potentially available, and of nurses and nurses' aides, classified in accordance with their availability for either local service or as a part of a mobile force.

The commissioner suggests that for the occasional case or in an epidemic of slight proportions, arrangements with hospitals would meet the requirements in many localities.

Last Year's Services. All the Red Cross chapters in the state last year did so much in combating the ravages of the disease and bringing relief to its sufferers that their familiarity with the conditions will enable chapter officials to take whatever precautionary measures sound judgment will suggest as being advisable at this time, in order to promptly meet a similar condition this year should it arise.

As to the prevention and treatment of the influenza, the commissioner advises as follows:

Measures of Prevention. "As for precautionary steps applying to the individual, there seems nothing better than the maintenance of the general health at its highest point, the avoidance of crowded, overheated, ill-ventilated places, and the shunning of him or her who coughs without using the handkerchief as one would a sufferer from smallpox.

"There is enough evidence of the value of masks properly constructed, properly worn, and supplemented by clean hands to make this measure advisable, particularly in the case of those who do cough. This as a protection to others.

"The underlying cause of influenza has not been discovered, unless it be a filterable virus, nor is there any therapeutics for it other than shelter, good nursing, proper nourishment, and symptomatic treatment."

The state officials feel that the work of the Red Cross in the late epidemic alone has more than fully justified the existence of the body and its future continuance. The perfect organization will be of great value in preventing another visitation this fall.

SPEAKS TO WOMEN RIGHT FROM HEART

Mrs. E. Hildreth, 72 years old, 141 N. Lawrence St., Phila., said: "During the epidemic I caught the 'flu'! Double pneumonia and pleurisy followed in quick succession. These diseases laid havoc with my system, leaving me weak, nervous and rundown. My age was against me, and medicines didn't seem to take effect until I took Tanlac.

"Tanlac restored my appetite, fixed up my stomach and revived my lost strength and vigor. It's wonderful." Tanlac builds up the system, creates a healthy appetite, vitalizes the blood and brings back color to the cheeks and the sparkle of health to the eyes. It is sold here by W. D. Chandler & Co., and all leading druggists.

LOCAL QUINLETTE TRIMS ALL COLLEGIATES

On Monday evening in the High School gymnasium, manager Groff with his twirlers opened the basketball season, having the All-Collegiate team as their opponents. The final score was 40 to 20. The affair was hard fought in the first half, the period ending 10 to 7 in favor of the locals. They showed more consistent form in the latter period and easily romped away with the contest. Gantz and Bennett starred for the locals, while Williams was the shining light for the visitors. The lineup:

Mt. Joy	All-Collegiate
Ellis	Williams
Gantz	DeLong
Grisinger	Haag
Breneman	Myers
Barr	Huntsinger

Substitutes—Bennett for Ellis, Klugh for Breneman, Garber for Barr, Singley for Huntsinger. Field goals—Ellis 2, Gantz 6, Grisinger 2, Breneman 1, Bennett 5, Williams 3, Myers 2. Foul goals—Breneman, 8 out of 14; Williams, 10 out of 18. Time of halves, 20 minutes. Referee Ellis. Timer Mowery.

High School Lost Our High School boys journeyed to Hershey on Saturday afternoon, but resulted in a defeat, by a score of 37-10.

Hershey High Mt. Joy High Copenhaver, forward. H. Tyndall (Lithaiser) Shea, forward. F. Tyndall Dowhower, centre. Secyars Belser, guard. Sweigart Balsbaugh, guard. Myers

Field goals, Shea, 3; F. Tyndall, 1; Dowhower, 6; Balsbaugh, 1; Myers, 1. Fouls, Shea, 9 out of 16; H. Tyndall, 2 out of 10; Myers, 2 out of 4.

"ONLY RATS ARE NOT HUNGRY IN POLAND," DESCRIBES AWFUL NEED

Philadelphia.—The Jews in many villages throughout Poland are now living in stables, their houses having been burnt down piece by piece for firewood, during the period of their banishment, according to Sholom Asch, a Yiddish writer well known in the United States, whose account of his investigations in Poland has been translated and just made public here. In other places, their homes were levelled to the ground, which was then plowed over, so that not a trace of their homes remained, upon their return.

"In many little villages," states Mr. Asch, "the houses that were left were half destroyed by shells; the synagogue was spared no more than the other buildings. The wooden houses were demolished, and carted away piecemeal by the local population and the soldiers for fuel." One of these villages, Sholom Asch describes, was somewhat ironically named Godlove.

More than 10,000 candles and an equal number of boxes of matches were among the supplies recently sent by American Jewish relief agents from Paris, to the destitute Jews of Poland, in order to enable these starving people to conform to their ancient creed of lighting Sabbath candles, while they ask a blessing. American Jewish relief workers there say that the candles were used to keep the rats away from the dead, in the cellars where destitute Jewish refugees live, according to a report made public by the Jewish War Relief campaign headquarters for Philadelphia and Berks, Bucks, Chester, Delaware, Lancaster, Lebanon, Lehigh, Montgomery and Northampton counties. Dr. Cyrus Adler, of Philadelphia, is the district chairman.

"Only the rats are not hungry in Poland," concludes the report.

DOUGHBOY HOB-NAILS GO MARCHING ALONG ON FEET OF JEWISH WOMEN

The trusty hob-nailed boots of the American doughboys, like the soul of John Brown in the old song, are marching on. But they are marching today on women's feet.

Two cartloads of these new or mended boots, size 5, were recently purchased in France by Miss Harriet B. Weinstein, of New York, a representative of the Joint Distribution Committee of American Funds for Jewish War Sufferers, and shipped to the Jewish women of Poland, many of whom have been barefoot during the five years of the war. Worn over the heavy, woolen army stockings sent with them, the boots were a very good thing for American Jewish relief workers in Poland say. The funds raised in New York by Philadelphia and adjacent counties in the Jewish War Relief campaign will be disbursed through the Joint Distribution committee.

The high death rate among the Jews of eastern and central Europe is due largely to consumption and typhus. An investigator of the Jewish relief agencies reported that 70 per cent of the deaths in the large city of Lodz, Poland, are due to consumption alone.

Willard SERVICE STATION

Come to Battery Headquarters

Just because some garage man says, "I'll fix it and it'll be good as new," don't trust your battery to an amateur.

Come to battery headquarters where we have the equipment to really test your battery and the knowledge of what it needs.

Only a careful hydrometer reading can show if a battery needs charging. Only the proper instruments can give it a discharge test showing that it is properly recharged. It costs a little more to make repairs in the right way, but a thorough job is always worth while.

A Good Cough Medicine For Children

Mrs. J. W. Phillips Redon, Ga., phoned to J. M. Floyd, the merchant there, for a bottle of Chamberlain's Cough Remedy and said she had bought a bottle of it at his store recently and that it was doing her children so much good that she wanted to keep up the treatment. You will find nothing better for coughs and colds in children or for yourself. It loosens the cough loose, expectoration
