MORGENTHAU PLAN FOR HELPING HARDSHIP IN THE NEAR EAST

Former Ambassador to Turkey Says America Should Not Let Armenian Allies Starve.

By HENRY MORGENTHAU, Former Ambassador to Turkey and Leader in Near East Relief. If they were good enough to fight and die for us when we needed their help so surely, they are good enough now to share some meager little crumbs from our plenty when they have nothing, when hundreds of thousands of them are homeless, unclad, foodless and threatened with extermination by their enemies and our own. Not far from a million Christians have been murdered by their Turkish oppressors. Hungry, terror stricken hundreds of thousands of refugees now look to the United States for succor.

Have Trust in America. We cannot refuse. Next to their faith in God is their trust in the disinterested good will and generosity of

The American people. They look to us as the human agency to extricate them from the frightful situation in which they have been left as a consequence of the war. If we should fail to aid them, starvation and the winter's cold would go far to completing the work done by the unspeakable Turk.

I have not seen with my own eyes the misery in which the Armenians now exist. I have been assured that. But the reports which have been brought in by agents of the Near East Relief and by representatives of the Peace Conference paint a picture of wretchedness inconceivable to those who have not a first hand impression of the savagery of the Mussulman.

Exiled From Homes. Since the beginning of the war the Turkish Armenians have been largely refugees from their homes. A simple agricultural people, they have been exiles from their farms, deprived of all opportunity to support themselves. Year by year their sufferings have increased. Now, a year after fighting has ceased, they are still living the life of nomads, able to continue to keep alive only by virtue of American philanthropy.

These homeless people—"filthy indels" to the Turk—were good enough to exert their poor might in our behalf while the war was still in the balance. Massacres of a half century had not so broken their spirit that they dared not fight for right and for democracy when justice was the issue. We accepted their aid then. Surely we shall not pass them by without compassion now.

The day has passed when any self respecting man dares permit absorption in his own personal affairs to exclude consideration of his neighbor's well being. No honorable man can knowingly allow his neighbor to hunger or to go unclothed. The Christian peoples of the Near East are our neighbors. The money needed to relieve them can be spared without causing any man, woman or child in the United States to suffer.

Must Not Rest on Past. In other years of our own free will we sent missionaries to Turkey. Our schools and colleges and hospitals have played a wonderful role in humanizing that dark spot in the world. Our ideas, our educational resources, our material equipment, have been leaven in the Near East. Because we have done well in times past we have this great opportunity for the present.

The Armenians have been treated as perhaps no people in history have been treated because they are the spiritual brothers of western races. Will America help them? There can be but one answer. Their necessity is dire, but our power is great. We are wealthy. We are a member of the family of nations. Our brothers call us. Food, clothes, money, are immediately wanted. If ever unmet need suffering called for succor the plight of the Armenians should be heeded now. A few months more and it may be relief will be too late for those myriads whom only we can save. We shall not fall them.

Willard Uniformity. Uniformity is the secret of success of any good product. It's the reason Willard Batteries with threaded Rubber Insulation are making such a wonderful record of long life without repairs.

Ordinary materials used for insulation between battery plates are taken just as they come from nature and can't be made uniform by any process. But threaded Rubber Insulation is built up by a scientific manufacture. Every piece of it is like every other and almost invariably Threaded Rubber lasts as long as battery plates. No wonder many of these batteries have given three and four years of uninterrupted good service. Drop in and get the whole story.
