Uniformity

Uniformity is the secret of success of any good product.

It's the reason Willard Batteries with threaded Rubber Insulation are making such a wonderful record of long life without repairs.

Ordinary materials used for insulation between battery plates are taken just as they come from nature and can't be made uniform by any process.

But threaded Rubber Insulation is built up by a scientific manufacture. Every piece of it is like every other and almost invariably *Threaded Rubber lasts as long as battery plates.*

No wonder many of these batteries have given three and four years of uninterrupted good service.

Drop in and get the whole story.

PUBLIC SALE

of **HORSES & BROOD MARES**

SATURDAY, JAN. 3, 1920

at the

THUDIUM HOUSE, CARLISLE, PA.

U. G. Eppley, Propr.

We will sell about **20 Head of Brood Mares** ranging in age from 5 to 8 years old. About 15 of them are with foal with high grade horses that cost from \$5,000 to \$27,000. We bought these mares from a man who has a large stock farm who breeds only the best. Now farmers and dealers or any person who is interested in brood mares should not fail to come and see them, as we think there will not be a chance again to get brood mares of this kind that are bred with such high grade horses as they are.

We also will sell about **10 Head of Heavy Work Horses**, ranging in age from 8 to 10 years old. The weight of these mares and horses range from about 1,000 to 1,500 lbs.

Our motto is to try and please one and all.

We will try and tell you all about these horses we know. Horses can be seen at the Thudium house day before sale. Sale starts at 12 o'clock.

A credit will be given for your interest and we furnish you the pedigree with every mare that is with foal.

Horses can be seen at B. F. Hoffman's Stable, 5th and Woodbine sts., Harrisburg, Pa., from Dec. 22 to Jan. 1.
