

The De Laval Milker

It pleases the cow

THE NAME INSURERS SATISFACTION

The De Laval Milker is sold with full knowledge of the fact that more is expected of the De Laval than of any other milker. For over forty years the name DE LAVAL on dairy machinery has stood for highest value and service to the user.

The De Laval Milker is a distinctly different type of machine from other milkers, and was designed with two chief objects in view—the comfort of the cow and ease of cleaning.

The Udder Pulsator, with its alternating action and positive, uniform pulsation, pleases the cow and induces milk secretion. The simple and sanitary design of all parts with which the milk comes in contact, and the special quality of the rubber used, make possible practical sterilization and production of milk of higher sales value.

The De Laval Milker has been in daily use for three years on cows of every breed, as well as in producing certified milk and in A. R. O. work.

The De Laval Company's well-known facilities and reputation for service are an assurance of lasting satisfaction to users of De Laval Milkers.

Write to H. S. Newcomer, Mt. Joy, Pa., for Milker Catalog, mentioning number of cows milked

THE QUESTION OF FURNITURE QUALITY

There are few things that quality effects so vitally as furniture.

Often things that people buy for personal wear and for home use are not always expected to last a long time, but this cannot be said about furniture. When you buy furniture you are buying something you expect to render you long service. It will if you buy it here, because here we think of quality first. All the furniture we buy must measure exactly up to requirements which we make as to the manner of workmanship. And, after all, in the long run, well-made furniture is the cheapest sort of furniture to buy. We invite comparison, look around, compare qualities and prices and then come here and see our vast assortment.

LANE IS TO LEAD SALVATION ARMY

Former Secretary of Interior is Chairman, 1920 Committee

Franklin K. Lane, who recently resigned as Secretary of the Interior Department, has accepted the chairmanship of the national committee in charge of the Salvation Army's home service appeal for 1920. This is Mr. Lane's first big civic work after severing his cabinet connections.

In a letter to Commander Evangelino Booth, Mr. Lane declared that sympathy for the suffering people of other lands must not cause America to neglect her own poor and unfortunate classes.

FRANKLIN K. LANE

"In all our thoughts for other peoples, we may not rightfully forget those on our streets," writes Mr. Lane. "The girl who has stumbled and sees no refuge but the grave; the man who has been broken, through repeated disappointment, dissipation or disease; the neglected, unloved child; the Salvation Army speaks words that are healing to the spirit, holds out a supporting hand and starts them on the way upward out of the slough of despond. If we were not all intended to do this kind of work, then I believe the teaching of nineteen hundred years has been in vain."

Mr. Lane has made it clear to off-

SHOOTING THE MINES.

The U. S. Mine Sweeping Detachment has just returned from its work in the North Seas.

The ever present danger of floating mines was counteracted by the sharp eyesight of the men who were behind the guns. Their job was to pick off the mines as they appeared and explode them by direct hits. The lives of the other men aboard and the safety of the ship depended on their keenness.

A large proportion of the 55,000 mines laid in the North Seas by the U. S. Navy was destroyed in this way. This is just one of the jobs that comes in the career of a U. S. sailor; one of the experiences that gives him a grip on himself and makes him a regular fellow.

"My sedentary habits have necessitated the use of an occasional laxative. I have tried many but found nothing better than Chamberlain's Tablets," writes George F. Daniels, Hardwick, Vt. Mr. Daniels is proprietor of the Hardwick Inn, one of the model hotels of New England. 3-3-6t

We Need the Money

Paint Time

It's here—and we are ready to supply the paint that gives real satisfaction. It is the well-known

Dutch Boy White-Lead

mixed to order with pure linseed oil, turpentine and tinting matter to meet surface, weather, and color conditions. Your choice as to color can be matched exactly.

Dutch Boy White-Lead is only a small part of the cost of painting. Labor is the big item. It costs no more to apply good paint than poor paint, and you don't have to do it so often.

This paint costs less, figured by the gallon, square yard, or years of service. As it is mixed to order, you can have the exact color you want.

For sale by all dealers

JOHN T. LEWIS & BROS. CO.

Philadelphia

Save the surface and you save all; to save the surface, white-lead it.
