The climax was reached when Mr. Eshleman made four crayon sketches. This was something new for the audience and it is doubtful whether an act was ever given in the local hall that was more appreciated. The audience was spellbound and the only thing that could be heard was an unconscious crying out of some small boy or girl as they thought they knew what the picture was to represent before finished. The people of Mount Joy are to-day complimenting themselves on being able to produce a Concert Company posessing so much merit.
