

52¢
How would YOU like a raise like this?

— and for 34 Years Work

THAT is the kind of increase in salary the minister has received. His living expenses have risen just as fast and as far as yours.

But he is paid on the average just 52 cents more per church member than he was paid 34 years ago.

The Minister Never Fails You

Every officer of the Government with a war message to deliver appealed to the ministers first of all.

But 80% of the ministers receive less income than government economists figure as a minimum for the support of an average family.

When hospitals need money they enlist the support of the ministers—and receive it.

But when sickness visits the minister or the members of his family they must be treated in a charity ward. His pay is less than a day laborer's.

8 out of every 10 ministers receive less than \$20 a week—about half the pay of a mechanic.

We Pay Him Half the Wages of a Mechanic

And of these pitifully inadequate salaries, how much do you contribute? Nothing if you are outside the church; an average of less than 3c a day if you are a church member.

All of us share in the benefits of Christian ministers to the community. They marry us; bury us; baptize our children; visit us when we are sick. In their hands is the spiritual training of the youth.

We Are All Profiteers at Their Expense

Part of the Interchurch World program is this—a living wage for every minister of Jesus Christ; an efficient plant, and a chance to do a big man's job.

If you want better preachers, help to pay the preachers better. It's the best investment for your community—and for your children—that you can ever make.

THE QUESTION OF FURNITURE QUALITY

There are few things that quality effects so vitally as furniture.

Often things that people buy for personal wear and for home use are not always expected to last a long time, but this cannot be said about furniture. When you buy furniture you are buying something you expect to render you long service. It will if you buy it here, because here we think of quality first. All the furniture we buy must measure exactly up to requirements which we make as to the manner of workmanship. And, after all, in the long run, well-made furniture is the cheapest sort of furniture to buy. We invite comparison, look around, compare qualities and prices and then come here and see our vast assortment.

Good Old Paroid

"Good Old Paroid"—that's what they call the best roll roofing ever made.

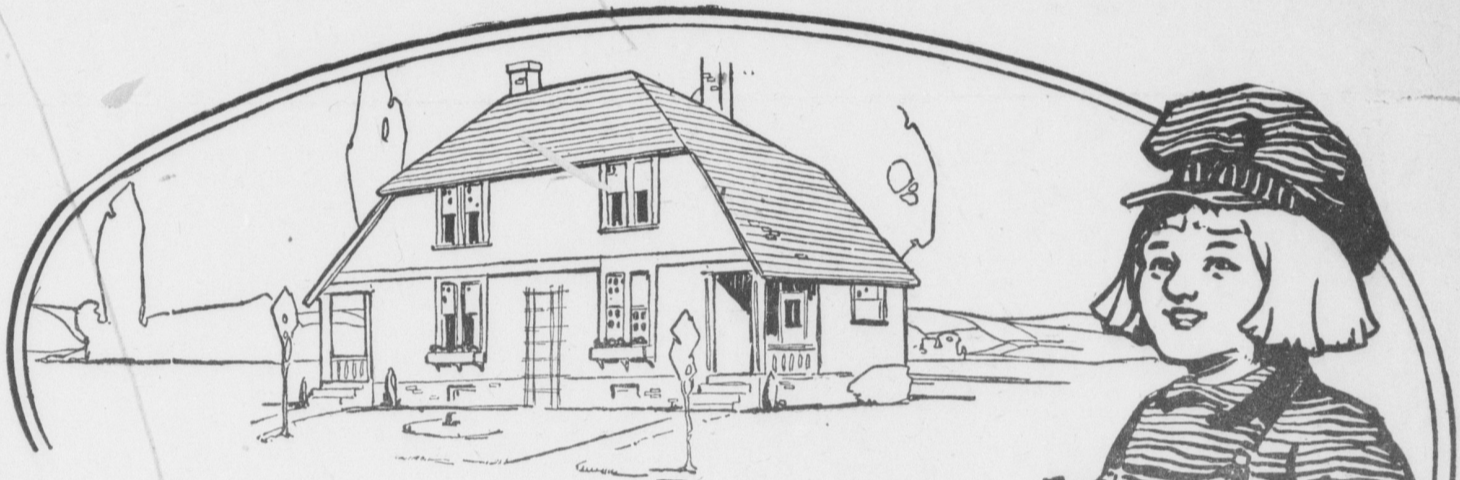

For more than 20 years Neponset Paroid has solved the problem of roofs for new and old buildings. It wears, wears, wears. Impregnated with asphalt. Surfaced with slate or talc. It has made good on farm buildings, depots and manufactories. It's the ideal

roofing for bungalows and camps. Colors—slate-red, slate-green, and gray.

Come in and let us tell you why you should build NOW and why we back Neponset Roofs—Neponset Twin Shingles or Neponset Paroid—to the limit. Remember, there's a copy of "Repairing and Building" waiting for you at our store.

For Looks and for Economy

Paint!

Paint now! And be sure the paint you use is good paint—the kind your painter makes by mixing

Dutch Boy White-Lead

and pure linseed oil.

Dutch Boy White-Lead is only a small part of the cost of painting. Labor is the big item. It costs no more to apply good paint than poor paint, and you don't have to do it so often.

This paint costs less, figured by the gallon, square yard, or years of service. As it is mixed to order, you can have the exact color you want.

Save the surface and you save all; to save the surface, white-lead it.
