Spring is the most joyful season of the year. The little brooklets are leaved from their icy fetters and go laughing and rippling along their winding way. The birds begin to sing in the budding branches and the soft south wind calls forth the green grass.

When they informed us that Judge Samuel Woods of Blain, Perry County, had passed from time into eternity a strange feeling overcame us. The death of that prominent gentleman will be missed in that romantic little town. A friend to everybody and everybody's friend is putting it straight. His main characteristics consisted in giving employment to working men who ever applied for it at my time. He was extensively engaged in lumber tracts in and around that immediate vicinity. The height of my ambition at one time, when he was an aspirant for judgeship in that county, when I worked assiduously for his election and had the pleasure of enjoying the fruits of my labor. He was a man of considerable means and owned a beautiful and prosperous farm back of Blaine. Kind and generous from a high hat man down to the begrimed tramp. His family consisting of Mrs. A. D. Garber, of Florin, Francis, Dr. Harvey Wood, of Blain, Claud of near Carlisle and John of near Blain, have our deepest sympathy for the loss they sustained in losing such a kind father.

MILTON GROVE

Farmers are exceedingly busy sowing the tobacco seed and plowing the sod.

The Church of the Brethren of this district may be proud of the fact that it conducts four Sunday schools. The school at Green Tree church has a good attendance on an average of 90 pupils; Florin, 60 pupils; Rheems, 80 pupils; Marietta, 35 pupils.

Many of our poultry men report that the percentage of eggs hatched produce a very small number of chicks. One man reported only 80 chicks were brought forth alive, another 80 eggs, 20 chicks, another 300 eggs, 175 chicks, another 300 eggs 125 chicks.

A committee is at work getting data and names of all pupils who ever attended the Chestnut Grove school, Rapho township. All those still alive will receive a notification of the date of reunion. This school has produced numerous celebrated personages, who have gone forth in the world and made good. It is expected that the committee will be ready to report the convening of the reunion in June.

On Saturday morning the principal of the Milton Grove High School examined a large class of applicants for entrance to the High school in the fall namely 18 in number. All but a few passed and the second will consist of nearly forty students. This school is too large for one teacher and the school board must make preparations for a large building and an assistant principal. Great interest is shown, among both pupils and patrons. Forty years ago this school consisted of 10 pupils not enough to maintain a high school.

An old proverb has it that one should "divide everything one hears, by twelve." If one-twelfth of what we hear is going to happen at the storage yards south of town, it will still be good enough for this town

Good work clothes, too

PERHAPS the neighboring farmers, and a good many of our fellow townsmen, think we lose sight of the fact that they wear work clothes a big part of the time.

But we don't; we may not talk so much about them, but that's because buying them isn't so important a matter with you.

It's clothes for "dress up" that you're particular about; they involve more of an investment and they're the ones you rely on when you want to look right.

That's why we have Hart Schaffner & Marx clothes for you—they're stylish; worth the money.

But you'll find the same good values in the things we have here for work wear. Shirts, overalls, gloves, caps, shoes--anything you need, at surprisingly low prices.

Our satisfaction guarantee goes with work clothes as well as the rest of our goods; money's worth or money back.
