FARMERS' COLUMN

Items in These Columns Are Prepared in the Department of Agriculture at Washington, D. C., and Are Strictly Reliable.

How They Save Farm Labor

With a 28-inch horse-drawn plow, one man accomplishes from 70 to 80 per cent more than with a single-bottom plow. One man with a 28-inch plow drawn by a tractor covers from 30 to 35 per cent more ground in a day than does a man using six horses on a horse-drawn plow of the same size. A three-bottom plow drawn by a suitable tractor enables one man to accomplish from 60 to 70 per cent more than does the two-bottom plow drawn by six horses.

A Florida Girl's "Chicken Money"

Marie Bradfish, who lives in St. Johns County, Fla., has found poultry raising profitable. In 1919 the net returns from her birds was \$739.75.

Awkward Ways Waste Energy

From buttoning shoes to washing dishes, there is an easy and awkward way of doing all work, as everyone well knows. Now, along comes the scientist, who says his experiments show that, aside from feeling and looking more comfortable when you do your work in the right way, you also save considerable energy.

How a City Library Helps Farmers

Few city libraries have as many country book borrowers as they should, says the United States Department of Agriculture. But the free public library at Stockton, Cal., is a pleasant exception to the rule. Not only does it send out traveling libraries to communities and school districts but it also encourages the country people to make direct use of the main library.

Tobacco Consumed in United States

Figures showing the consumption of tobacco in the United States over a long period have recently been compiled by the Bureau of Crop Estimates, United States Department of Agriculture.

Wants I Cent Income Tax

The most quibbling stickler on income is not likely to eclipse the low record in income tax payments made by a silk mill girl at Altoona, who after careful computation decided she owed Uncle Sam one cent, and she has made payment of that amount to the income tax collector.

Realty Bargains

Here are a few bargains on quick sale propositions:
I have a frame double house, 6 rooms on each side, one side has bath and heat, together with the entire baking establishment of Wm. Shelling on West Main street.

Shell Fish Yields Dye

A shell fish on the Pacific Coast of Costa Rica, has been found from which a fine purple color is obtained by the natives which is used in dyeing silk thread.

Following the Civil War the computed average is as low as 2 pounds, and this was followed by a climbing movement that reached 6.4 pounds in 1905-1914 and 8 pounds during the following four years. For domestic tobacco the per capita consumption grew from 1.8 pounds in 1865-1874 to 5.9 pounds in 1905-1914, and for foreign tobacco from 0.16 to 0.49 of 1 pound.

This little Florida girl two years ago joined one of the poultry clubs supervised by the United States Department of Agriculture and the State agricultural college. She made a good profit the first year and won the State championship. She started her second year poultry work with 105 fowls, valued at \$258.

During 1919 she sold 1,030 eggs and set 14 dozen. From the fowls raised she sold 49 for \$89 and kept 209, valued at \$525. The total income from her flock for the year was \$1,330.75.

This excellent record won her the prize of \$50 which had been offered by two members of the Board of Control of the State Institutions of Higher Learning to the girl who did the best work in a poultry club in Florida in 1919.

It was found in the homely everyday task of dish washing that a woman washed dishes on a table so low that she was obliged to bend over, her energy output was 30 calories per hour. When she washed them on a table that was a little too high for comfort, it required 25 calories per hour, while only 21 calories were used when the working surface was of the right height.

When is a saloon not a saloon? was a question before the court on Saturday at the opening of quarter sessions that caused an official upheaval and near-strike of the constabulary of the county.

Immediately there was an outbreak of constables and many threats to resign. The matter was carried before Judge Landis at Chambers, who informally ruled that the constables should be paid which was done. At the same time the court intimated that no more such fees would be paid in a "case stated" had been presented to the court and it had been passed on in all its phases.

Marietta may be the site for a United States Government aviation field.

Preparations for the building of high railroad storage yards at this place by the Pennsylvania System has attracted the attention of the United States government, apparently, and a survey will be made to determine what qualifications Marietta and its immediate vicinity may have to offer for the construction of an aviation field.

Monday Burgess George Zink received a letter from the Operations Department of the United States Aerial Service asking detailed information about a farm located near the boro. The letter inclosed a long list of questions that Burgess Zink is asked to answer regarding the field. He is asked to return the questions as soon as possible.

Vulcanizing Retreading

SAVE YOUR WORN TIRES

WE can save you money on your tire expense each year—and enough to make it worth while, too.

The motoring public are being rapidly educated to re-tread their tires as soon as the original tread is mutilated to a point where damage to the canvas, through wear or rotting commences.

Therefore, just as soon as the tread surface begins to develop blisters, or to separate from the canvas, and particularly where faulty alignment wears away the tread surface through continuous skidding, re-treading should be immediately attended to.

Don't throw your old worn out tires away or sell them to the junk man just because they are tread worn, for we can re-tread them with new rubber for you so that you should get from 3,000 to 6,000 more miles of service out of them.

It's a cinch to figure why Camels sell!

Camel CIGARETTES

You should know why Camels are so unusual, so refreshing, so satisfying. First, quality—second, Camels expert blend of choice Turkish and choice Domestic tobaccos which you'll certainly prefer to either kind smoked straight!

Camels blend makes possible that wonderful mellow mildness—yet all the desirable body is there! And, Camels never tire your taste!

You'll appreciate Camels freedom from any unpleasant cigarette after-taste or unpleasant cigarette odor!

For your own satisfaction compare Camels puff by puff with any cigarette in the world at any price!

Camels are sold everywhere in scientifically sealed packages of 20 cigarettes; or ten packages (200 cigarettes) in a glassine-paper-covered carton. We strongly recommend this carton for the home or office supply when you travel.
