BELL PHONE 81R2 MOUNT JOY, PA.

MAGICIAN AT CHAUTAUQUA.

Brush appears, the fun begins; he removes his gloves; they vanish; next removes the cuffs, rolls up his sleeves, shows his hands are empty, and by compressing the atmosphere is able to produce handkerchiefs, flags, balls, money, eggs, oranges and what not? His manipulation of balls and coins is a work of art and must be seen to be appreciated.

Refreshing and captivating are his animal tricks. Ducks, rabbits, guinea pigs, birds and goldfish are made to appear and disappear from unexpected places, and in the most ridiculous as well as mysterious manner.

Under your very nose many articles will be produced that will bring forth rounds of applause and you will hear people say on all sides of you: "How did he do it?"

Surely this is the greatest of all entertainments to make you forget your troubles and feel that life is really worth living. You will be able to perform your business duties with a new zeal after witnessing Brush. He is a humorist in every sense of the word. Uses a flow of language that is full of comedy, and while listening to him mystery follows surprise in rapid succession.

His entire entertainment is an innovation, beautiful, refined and complete, carrying with it an artistic charm that grown people will never forget, and that children will look back upon in after life as a bright phantom, a most pleasant recollection.

Edwin Brush, the Witty Wizard, Mirth Provoker and Master Magician, is one of the greatest entertainers of the mysterious realm in which he reigns. He is a man of clean character, refined habits and pleasing personality and has literally at his finger ends all of the most wonderful and puzzling tricks of both Orient and Occident. He works and talks rapidly, his tongue being as catchy as his tricks. Dullness and Edwin Brush don't travel together. He always makes good.

**FEED FOR GROWING CHICKS**

As soon as chickens will eat whole wheat, cracked corn, and other grains the small sized chick feed can be eliminated. In addition to the above feeds the chickens' growth can be hastened if they are given sour milk skim milk or buttermilk to drink.

Growing chicks kept on a good range may be given all their feed in a hopper, mixing two parts by the weight of cracked corn with one part of wheat, or equal parts of cracked corn, wheat and oats in one hopper, and the dry mash in another. The beef scrap may be left out of the dry mash and fed in separate hopper so that the chickens can eat all of this feed they desire. If the beef scrap is to be fed separately it's advisable to wait until the chicks are 10 days old, the poultry division of the United States Department of Agriculture advises, although many poultrymen put the beef scrap before the young chickens at the start without bad results.

Chickens confined to small yards should always be supplied with green feed. Fine charcoal, grit and oyster shell should be kept before the chickens at all times, and cracked or ground bone may be fed where the chickens are kept in small, bare yards but the latter feed is not necessary for chickens that have a good range.

## A LETTER TO THE PUBLIC!

The Leading Lancaster Stores Will Close Every Saturday at Six P. M.

**THE MANAGEMENT AND WORKERS** in the retail stores of Lancaster have felt for some time that it was no longer necessary to keep the stores open on Saturday night for the accommodation of the public.

**OTHER CITIES**—Larger and smaller than Lancaster, north, east south and west have long since abolished night-work in retail stores. In our neighboring cities of York and Williamsport Saturday night closing has been in successful operation for some time.

**NOW PROGRESSIVE** Lancaster stores, large and small, employing more than 70 per cent. of the workers and doing about 90 per cent. of the downtown business in Lancaster have agreed to close Saturday's at six o'clock.

**WE THE WORKERS** in these stores ask you to endorse this movement—show by your co-operation that it is not necessary to keep stores open nights for YOUR BENEFIT—shop before six on Saturdays and help to make this humane, progressive movement the success it deserves to be.

**SHOPPING BEFORE SIX** on Saturdays means better and more efficient service for all concerned and with mills and factories all closing Saturdays at 12 noon there seems to be no sound reason why the stores should be open nights.

**REMEMBER** come to Lancaster just a little earlier on Saturday and complete your shopping before six—these important business houses have agreed to abolish night shopping hours and feel it will not be a hardship to you.
