THIS MATTER SHOULD BE AMICABLY ADJUSTED

Some time ago the Bachman Chocolate Manufacturing Company asked Mount Joy Boro Council to extend its western boro limits so as to include all the land between the trolley tracks and the Penna. R. R. tracks and as far west as the public road along the residence of Mr. Henry Wittie. Shortly thereafter a numerous signed petition was filed praying the Courts to incorporate Florin into a borough. In the above boundaries were included some of the land and factory building of the Bachman Chocolate Manufacturing Company. As soon as the preliminary details could be arranged, such as preparing an ordinance, etc., the Bachman Chocolate Manufacturing Company's request of Mt. Joy Boro was complied with and the limits were extended.

The matter will be finally settled in Court on November 15. Since the Bachman Chocolate Company was started some years ago, it transacted all its freight, express and mail business at Florin. When the Nissly Swiss Chocolate Company decided to erect a plant at Florin, the Bachman people figured that matters would be quite confusing with both companies doing business through offices there with limited facilities and immediately decided to do its business thru the Mount Joy office. All its labels, printed matter, etc. were changed and since then the company has been doing its business here.

Not Mount Joy or Florin alone, need the above industry in dispute, but both towns as well as the surrounding country want and need this plant. Any community can feel proud of a pair of industries like either Bachman or the Nissly Swiss and while we have them, why scrap about it?

A RECEPTION HELD FOR THEIR RETURNED PASTOR

After prayer service on the evening of Oct. 13th a reception in honor of their return by conference was given to Rev. C. A. Snavely and family. Appropriate remarks were made by several members to which the pastor feelingly responded. During the social refreshment period Mr. Jno. W. Eshleman made an address in which he presented to the pastor and family in behalf of the donors a large assortment of boxes of food packages containing gifts and provisions such as are useful in any family. A large number of the members of the rural district also were present to help make the occasion enjoyable.

Sunday evening Oct. 17th the Women's Missionary Association and Otterberr Guild observed Woman's Day. Rev. J. F. Musselman and wife returned missionaries from Africa were present and made fine addresses on their work in the field. The program rendered was very impressive and the very good offering proved the interest manifested by the congregation.

New York Attractive

On Oct. 26 and 27 The Al Noda Attraction will show at Mount Joy Hall. Many good attractions none have appeared to various people of such towns as New York City, Brooklyn and other Cosmopolitan cities as has this show.

To dilate upon the number of novelties which will be presented on this occasion would necessitate the use of too much space, so we advise our readers to see "Ad" in other columns.

WOMEN MAY SERVE ON COUNTY JURIES

On November 8 Judge Hassler and Jury Commissioners Good and Jeffries will begin the selection of jurors for next year from the names of 1,100 persons to be included in the drawing. It is admitted by the officials that women are eligible for jury duty, but how many names will be placed in the wheel is an unanswered question as yet. One of the three is of the opinion that the names of no women should be placed in the wheel unless there is positive assurance that they will serve the week for which they are drawn.

There will be some women's names going into the jury wheel, but the consensus of opinion is that they will be few in number, for women, as a rule, will not want to serve with the probability of being locked up with nearly all men for hours.

NEW SCHOOL LAW IN EFFECT HERE

SUPERINTENDENT FLEISCHER NOTIFIES TEACHERS OF NEW LAWS GOVERNING ENROLLMENT OF CHILDREN

County Superintendent Fleischer sent out notices to teachers, calling their attention to new regulations of the State Superintendent of Public Instruction, concerning the enrollment of children.

Under the new rules attendance averages will show a decline, the method of computation being different. If a child belongs in school the beginning of a month and does not appear for enrollment until the middle, the attendance average must be computed from the first day when he or she belonged there. For instance, if a child should appear on the 15th and would be present every day until the end of the month its average would not be 100 per cent. as heretofore figured, but only 60 per cent.

The instructions sent out follow:

1. In order to standardize and make uniform the method of recording attendance data in the schools of the State, it is required that the following regulations be observed:

2. The teacher's roll of pupils belonging to her school shall contain the names of all children assigned to her school from the enumeration list at the opening of the school by the board of education, and such additions as may be made thereto during the term, and no child's name shall be removed from the roll as belonging to the school unless, upon investigation by the local attendance bureau or the proper school official, it shall be found that the child:
 1. Has been removed from the district.
 2. Is enrolled in another school.
 3. Is legally employed, upon a general employment certificate.
 4. Is 16 years of age or over and has withdrawn from school.
 5. Has been certified by the medical inspector as permanently incapacitated and not a fit subject for education and training.
