THE QUESTION OF FURNITURE QUALITY

There are few things that quality effects so vitally as furniture. Often things that people buy for personal wear and for home use are not always expected to last a long time, but this cannot be said about furniture. When you buy furniture you are buying something you expect to render you long service. It will if you buy it here, because here we think of quality first. All the furniture we buy must measure exactly up to requirements which we make as to the manner of workmanship. And, after all, in the long run, well-made furniture is the cheapest sort of furniture to buy. We invite comparison, look around, compare qualities and prices and then come here and see our vast assortment.

Was Comparatively Low Harrisburg, Pa.—Lancaster county industrial workers were victims of 14 fatal accidents during 1920, according to figures issued today by Dr. Clifford B. Connelley, Commissioner of the Pennsylvania Department of Labor and Industry. Of that number 2 were killed in manufacturing plants, 12 in public service work, and none in mines.

Throughout the State, there were 2,528 fatalities suffered by workmen during the last year. One thousand and nineteen miners were killed, 580 of the persons fatally injured were employees of public service corporations, and 929 worked in industrial plants. The figures were compiled by the Bureau of Workmen's Compensation.

A NEW HOLLAND SHOT WON SATURDAY'S SHOOT

One of the best attended live bird shoots ever held at Elizabethtown, was held there on Saturday afternoon, when fifteen of this county's best wing shots met. Gust Weiler, New Holland's best bet in all around shooting, took first money while there were five ties for second money. An exceptionally fast bunch of birds assisted by a strong west wind, made good scores difficult. Weiler finished with thirteen while Jno. E. Schroll, of Mount Joy, H. C. Good, of Lancaster, Benj. Reese, of Lancaster, George Sargen and Jos. Ziegler, of Marietta, each finished with even dozen dead ones. Third place went to Jacob R. Groff, of Lancaster, Ira Kersey, Elizabethtown's pride, and Daniel Brubaker, of East Donegal. The score:

ABLE TO DO HER WORK

After Long Suffering Mrs. Siefert Was Restored to Health by Lydia E. Pinkham's Vegetable Compound

Pottsville, Pa.—"I suffered with female trouble for four or five years and was very irritable. I was not fit to do my work at time and took medicine from a doctor and got no benefit. I saw Lydia E. Pinkham's Vegetable Compound advertised in the newspapers and took it and got all right. I gained twenty pounds or more and am now able to do my work. I recommend the Vegetable Compound to my friends and you may use these facts as a testimonial."—Mrs. SALLIE SIEFERT, 313 W. Fourth Street, Pottsville, Pa. "The everyday life of many housewives is a continual struggle with weakness and pain. There is nothing more wearing than the ceaseless round of household duties and they become doubly hard when some female trouble makes every bone and muscle ache, and nerves all on edge. If you are one of these women do not suffer for four or five years as Mrs. Siefert did, but profit by her experience and be restored to health by Lydia E. Pinkham's Vegetable Compound. Here's a Bargain I have just listed a very desirable truck farm on Longenecker road, Mt. Joy, that will be sold quick. About six acres of excellent land, large frame house, barn, tobacco shed and cellar, an abundance of fruit, a good investment for any one. Good location for warehouse or building purposes. Convenient to industries, trolley, etc. Has boro water, light, etc. Act quick if interested. Jno. E. Schroll, Realtor, Mt. Joy, Pa. It

The "U.S." Walrus—worn by farmers everywhere

FOR years farmers have needed a high rubber overshoe—easy to put on and take off—warm and comfortable—one that could be easily cleaned of the dirt of the barnyard. There's an overshoe like that ready for you this winter. With an all-rubber surface—snow-tight and water-tight—lined with soft, warm fleece—the U. S. Walrus is just the thing you've been looking for. It slips right on over your leather shoes. You can work in sticky mud all day, but when you get home a pail of water or a rinse at the pump washes the U. S. Walrus as clean as when you started. No chance for dried mud to rot that smooth rubber surface! At exactly the place where overshoes usually wear out first, the U. S. Walrus has been made strongest. Its sole consists of heavy layers of the finest rubber. All other points of strain are specially reinforced. Ask your dealer to show you a pair of the U. S. Walrus. Examine for yourself their wonderful built-

to-wear construction. After you've worn a pair for a day or two, you'll realize why farmers everywhere are buying them. Other types of "U. S." Footwear—built for rough service U. S. Boots have all the wear and comfort which the accumulated improvements of 74 years have given them. U. S. Bootes lace on over the sock like a leather shoe. You can wear them all day long in mud and water—your feet will stay dry and comfortable. The U. S. line of footwear has a type for every need—arctics, rubbers, "overs." Every one is backed by over half a century of experience. The rubber comes from our own plantations—the whole process of manufacture is supervised by experts. Always look for the U. S. Seal—it means solid wear and long service for your money.
