## Defies the U.S.

Washington.-Notice was given the empany intends to connect its new he United States by means of existng cables to Cuba regardless of the pposition of President Wilson and the State Department.

Mr. Carlton's statement was made efore a Senate Interstate Commerce Commission subcommittee, which has efore it an administration measure giving the executive department absoate control over the landing of cable lines on American soil. He was one of four witnesses examined at the opening of an inquiry into the whole ubject of cable communication from whose testimony the committee developed among other things that the concern, was engaged, with the support of the State Department, in a fight against the Western Telegraph Company, of Great Britain, and the Western Union, in an effort to break the cable monopoly enjoyed by the British company in Brazil.

There also was testimony that the All-American company enjoyed cable onopolies in several Central and South American countries, that the international communications conference here had reached a tentative agreement that no censorship should be imposed upon cable message merely passing through relay points that there was no cable communica tion between the United States and Germany except over British controlto Answer Phone led lines; that some foreign governments were substituted as a substitution was a substitute of the subs nents were subsidizing news agencies isseminating reports in other counries and that the Western Union planned further independent connections through American cable lines to

Elihu Root, Jr., appearing for the lead to the British company giving up that the Western Union had entered pany by which the American concern would direct the British lines all the usiness collected in the United States

Acting Secretary Davis, of the State Department, testifying as to the controversy between the government and the Western Union, said the President had refused to permit the landing of the Barbadoes cable because it would connect with the British, which enjoyed a monopoly in Brazil, and that this action was in "conformity with American precedent and tradition."

Walter S. Rogers, of Washington, one of the American commissioners to the communications conference, said he had heard a great deal of complain that American business messages pass ing through British censorship in the war were copied and turned over to British trade interests

#### The Rajha and the Seidlitz Powder

An English doctor attached to the palace of the rajah made himself almost indispensable to his highness. The doctor had fortunately made a friend of the prime minister. On one occasion his highness. The doctor had fortunately made a friend of the prime minister. On one occasion his highness. The doctor had fortunately made a friend of the prime minister. On one occasion his highness, being rather indisposed, had taken, by the doctor's advice, a seidlitz powder, with which he expressed himself delighted. Its tendency to palace of the rajah made himself aloff," seemed to him to "scatter coolness," and he ppeared so much better after taking it that the dactor felt himself justified in joining a hunting

You cut the material long enough so that it covers the dress so that it will not \$dlinauglmgosydkIntafrbyl S shrd s
In connection with agitation for the compulsory use of the metric system in this country a report from Consul General Rayndal from Constantinople, from cretonne or made from ribbons. musa also make it wide enough Stitch

hanger. Be sure to cut these largt enough so that they will slip over the Someone asked an old lady about a cotton easily. Trim the ends with cretonne roses and wind the hook with ribbon and finish with a bow

> A utility bag for the closet door may be made of heavy cloth. You should cut the material the proper length and width to fit the door upon which you intend to hang the bag. It has four shoe pockets, two at the bottom and two at each side, which are 13 inches wide and 10 inches high. Press two plaits one inch deep, two inches from the edge of the pocket, and stitch the pockets to the background. Just above the shoe pockets on either side is a smaller stocking pocket, measuring 13 inches wide and seven inches high. 20 inches high. At the top of the bag you can have a nightgown pocket, 24 inches wide and 14 inches high. Add a
