**MEN'S SUITS** **BOY'S SUITS**  
**MEN'S OVERCOATS** **BOY'S OVERCOATS**  
**MEN'S SHIRTS** **MEN'S NECKWEAR**  
**BOY'S MACKINAW** **MEN'S HOSIERY**

With other drastic cuts in Men's Hats, Footwear, Trousers and the Minor items of Furnishings.

## A GROFF & WOLF Half Price Sale is something to set the entire county talking

For two reasons: The fact that this house has always enjoyed the reputation of lower-than-ordinary prices on guaranteed merchandise—and that as the leading Clothing Store of the county we are thereby setting a tremendous price.

### BIG COMPANY WILL PLAY HERE FRIDAY EVENING

In many respects William H. Kibble's "Uncle Tom's Cabin" is the most important of the season's productions. In the first place it serves to exploit the masterpieces of two of Europe's noted artists, I. e., Ralph Brunel's elaborate painting entitled "The Celestina City" and Hartz Verion's picture of the New Orleans slave mart; and secondly it has brought back into prominence the memories of the grand old lady, Harriet Beecher Stowe, and serves to reveal the beautiful lessons really to be learned by careful attention. Second to the Holy Book does Uncle Tom's Cabin rank as a sacred instructor. The pulpit has endorsed it as a moral teacher worthy of mankind's support, while the Board of Education in many of the large cities has encouraged scholars in witnessing the worthy dramatization of the story that was instrumental in making our country religious, free and happy. Like a poor composed book, there are many versions of "Uncle Tom's Cabin" now being forced upon the public under embossed coverings, which are detrimental to the greatest degree. They are usually short-lived for the people of today are not to be hoodwinked as easily as those of not so many years ago. It is a known fact that Mr. Wm. H. Kibble possesses the original version of Mrs. Stowe's story and that it has been unanimously accepted by the press, pulpit and public of America and England. The play will be given in Mt. Joy Hall on Friday evening, Feb. 25.

Kansas is shipping large quantities of corn to the famine districts of China.

# Harvester Company Brands Story False

**DURING** the past month, reports have come to us that at farmers' meetings charges have been made, sometimes directly and sometimes indirectly, that this Company has adopted a policy of refusing to supply repair parts for old machines in order to compel the purchase of new ones. This statement is absolutely false. Such a policy has never been considered by this Company nor suggested to it.

Ordinarily we ignore such reports, because we have learned that any large company, no matter how fair and high principled, is subject at all times to unjust criticism. The facts are this Company has always recognized the importance of repair service and has used every effort to make IHC service the best. We believe we can truthfully say that the repair service furnished wherever this Company's goods are sold is equal if not superior to that furnished on any manufactured line.

We call attention to the fact that machinery "Fix-up Weeks," instead of being something new and originated by the farmers in 1921, as some seem to think, were really an outgrowth of the movement started by manufacturers and dealers' associations in connection with the Council of National Defense as a war conservation measure. Perhaps no other agency has done so much to promote "National Repair Weeks" as this Company.

The farmer needs machines which will be efficient and economical. If his old machines can be repaired so as to render efficient and economical service, he would be foolish to purchase new ones. Whether the farmer utilizes and repairs his old machines or buys new ones is a question for him to determine. But in making his decision, we give to every farmer who owns any IHC machines the assurance that a full stock of repair parts will always be provided by this Company.

Today, our repair stocks on the territory available for the farmers are 21 per cent greater than ever before at this time of the year. An average of a quarter million pounds of repairs are shipped from IHC factories for every working day in the year. Thirty million dollars' worth of repair parts are now ready, as insurance for the farmer when he needs this service.

In every International Harvester Works, manufacturing orders call for repair parts first and even when furnishing them has meant cutting down production of new machines for which we had orders, repairs have always had preference.  
 At every one of our 91 branch houses trained men are on duty to see that all orders are filled and shipped promptly. Thousands of dealers scattered everywhere with an assortment of repairs in stock are always ready and willing to render every assistance.

This service which this Company has rendered through the years to those who have purchased its machines has been a matter of great pride to the Company, and is the foundation of the cordial good-will existing between it and its customers.

We feel it is due the Company and those who have purchased its machines that we give the widest publicity to the fact that this service of repairs will be maintained and improved, and that any charges to the contrary are untrue.
