

### Who Fixes Your Washday?

Does your washing have to wait for a washer-woman's whim or a laundry's convenience? They fix their own time—and what's worse—their own price.

### LAUNDRY QUEEN ELECTRIC WASHER

washes when you please—as often as you choose—and saves the money you would pay to high-priced washer-women or laundries.

And the Laundry Queen does all the real work. It washes the clothes—wringing them from the tub and blues them. It is entirely automatic and electric—all you need do is to hang the clothes on the line. All your clothes—whether the flimsiest lingerie or the heaviest woollens—are washed as thoroughly and as carefully as if by hand.

The whole cost of a large-sized family washing is three cents—for power. In six to nine months the Laundry Queen saves enough to pay for itself. Come in today and see it work.

### Only America Can Keep These Pots Boiling

This snapshot of an American feeding kitchen in still prostrate eastern Europe shows what America means to the otherwise helpless childhood of the war-swept nations. Funds supporting these outposts of succor and other agencies for the relief of children stricken by the disease caused by under-nutrition have run out, and that the work may not cease, depriving millions of the innocent their only hope for life, eight great American relief organizations under the name of the European Relief Council are banding together in a joint appeal to the American conscience in their behalf. These agencies are the American Relief Administration, the American Red Cross, the American Friends' Service Committee (Quakers), the Jewish Joint Distribution Committee, the Federal Council of Churches of Christ in America, the Knights of Columbus, the Y. M. C. A. and the Y. W. C. A.

### The Newest Near East Geography

This accompanying map aims to show the extent of the operations of Near East Relief and also by contrast how comparatively limited is the Armenian area in the Near East controlled by the Bolsheviks. Wherever in the Near East there are destitute Armenians, Syrians, Greeks, Jews, Assyrians, or others, needy and oppressed, regardless of race or creed, there Near East Relief follows. From Constantinople to Bagdad, from Port Said to Baku, even into Persia, the protecting arms of Near East Relief have reached until today its work is far more extensive outside the country of Armenia than within.

### THE AMERICAN RED CROSS IN PEACE TIME Eastern Europe

Americans who contribute to the Red Cross would feel amply repaid for their generosity if they could see what it means to hundreds of thousands of war weary sufferers in the Balkans. Here is a widowed Roumanian mother with her five children just after a visit to a Red Cross relief station. All are barefoot and the boy at the left is wearing clothes made of scraps from the battlefields. They have just received winter clothing, food and condensed milk for the baby. Similar work is being done for Russian refugees driven from home.

### Filipinos Would Welcome Investigation by Congress

By JAMES C. DE VEYRA Resident Commissioner from the Philippines to the United States. I learn that there is an intention of sending an investigating body to the Philippines. It is welcome; the sooner it is done, the better. Let there be light! The Filipino people are not afraid of light and would not run away from it. On the contrary, they want the flashlight of this Nation's investigators focused upon them. The Philippine Legislature, which has repeatedly petitioned the United States for independence, has been persistent in its solicitation to the members of the Committee of the Senate and the House. In charge of Philippine affairs, to visit that distant country so that they may see for themselves and render judgment upon actual conditions in the Islands. It was in 1917 when the first petition was made. They did not insist then, because the United States was busy in her war activities, and the members of the Congress were entirely absorbed therein. In the spring of 1919, a Philippine Mission came and renewed the invitation. Securely entrenched in our position and fortified with incontrovertible facts of our claim, we do not fear the arrival of any body of investigators. We want it; we request it; we urge it. For what purposes are various malevolent and suspicious spirits working? A certain public alleges maladministration, negligence in service and mere inefficiency of some Bureaus, not to say absolute demoralization of the service. In view of these allegations it would seem to be the duty of the government to have a certain doubt; and it is said that there are some and satisfy others. Mr. Harding entertains the idea of sending a

HON. JAIME C. DE VEYRA A Commission of investigation to the Philippines. I repeat: we are not afraid of the proposed investigation. As in all human institutions, defects or imperfections may be found in the administration of Philippine affairs; but we deny that there are such as to invalidate our claim of being able to maintain a good government. Interested as we are in the good same of whose management we are participants and in the truth itself, we cannot but anxiously await the realization of this plan.
