

...of MANKIND
...What the World Would
...Do if Deprived of Carbonic
...Acid Gas.

The American constitution is now
in a fair way to become saturated with
carbonic acid gas. Reference is not
made to the document signed by the
forefathers, but to the constitution
that gets run down every spring and
has to be perked up with cod liver oil.
Well, it won't be as bad as it sounds.
Carbonic acid gas is quite harmless.

It's made from coke, and it is prob-
ably the most versatile servant that
mankind has. It's like those medi-
cines that the almanacs say are good
for everything. It can put a kick in
your ice-cream soda, or your lemon
phosphate. It's in all fire extinguishers.
It's used to harden steel. It's used in
making sugar, to remove the lime from
the juice of the cane. It's a refrigerat-
ing agent and also is used in making
bicarbonate of soda, the substance one
takes for heartburn. And it forms one
of the chief curative agents used in
the baths at such resorts as Neuhelm
in Europe and Saratoga in this coun-
try.

Manufacturers of carbonic gas in this
country report that they have
doubled their output in the last year
because of the increased demand for
carbonated beverages, or "soft drinks."

At present, in round numbers, carbonic
acid gas enters into 375,000,000 gal-
lons of beverages in the United States.
Figuring on sixteen drinks from a gal-
lon, you have 6,000,000,000 soft
drinks as the approximate consumption
a year. Sixty sodas apiece.—Chicago
Journal.

NEVER AGAIN FOR PLUMLEY
Victim of Unkind Suspicions Will
Carry No More Stuff Home
to Oblige the Wife.

Mr. Plumley was embarrassed and
well might be. For the suitcase
he was carrying had sprung a leak!
And as he walked swiftly through the
crowd on the street it seemed that
everyone glanced down at the leather
bag, and saw that something was
wrong. Curses on that prohibition
Ever since it had been passed
people noticed any one who carried
a package—especially a suitcase.

A policeman eyed him suspiciously
and Plumley hurried faster than ever,
almost breaking into a run. He boarded
a street car and placed the bag on
the floor in front of him, trying to
cover it with his feet as much as pos-
sible. It was useless. The stuff con-
tinued to trickle out and soon formed
a miniature pool. Some of the red-
nosed male passengers looked en-
vious; strap-hangers saw it and smiled;
even the ignorant-looking wop in
the next seat looked wise! But all
Plumley could do was to turn several

and wish them all in heaven
something like a year the car ar-
rived at his suburban home.
"Were you able to get any?" asked
his wife at once.

"Yes," said Plumley, throwing the
suitcase to the floor with a bang,
"please take 'em! Those are the last
oysters I'll ever carry home!"

Autoists Blame Potato Bugs.
Potato bugs are speed fiends in south
Jersey, say the motor drivers who
have investigated the reason for the
skidding of automobiles on apparently
dry roads. They declare that the trouble
has been caused by potato bugs
migrating from one field to another
and crossing the roads in the paths
of their machines. Automobiles are
exterminating about as many of the
pests as the usual application of poi-
son sprays, as the latter have washed
off nearly as fast as they have been
applied during the rainy weather. One
farmer is said to have placed a motor
horn in his spraying outfit. As he
had previously trained his flock of
geese to gobble up the potato beetles,
he claims that the honking of the horn
is quite effective in frightening the
pests away.

Beware Yellow Butterfly.
The yellow butterflies which look
harmless enough when flying around
the garden are really danger signals
to the cabbage grower, for these but-
terflies lay the eggs from which cab-
bage worms are hatched. To keep
the worms away, begin dusting the
cabbage plants when they are very
small with air-sprayed lime to which
a little Paris green has been added, or,
better still, spray them with arsenate
of lead, one pound to a gallon of wa-
ter. There is absolutely no danger in
using poison on young cabbages, as
the heads grow from the inside, and
the outer leaves on which the poison
falls will later be removed.

Uninterrupted Business.
"I shall continue to direct our af-
fairs from the jail," said the convicted
grafter.

"All right," replied the trusted lieut-
enant; "maybe in the course of time
we can get enough prison reform to
remodel jails so that they'll have ele-
vators and telephone exchanges and
all the conveniences of regular office
buildings."

Religions of the Future.
"Don't you think we should let pos-
terity pay our war debts?"
"Possibly," replied Miss Cayenne.
"It will at least prevent posterity from
falling into any abject fallacy of an-
cestor worship."

Boston Chamber Largest.
With a membership of 7,800, the
Boston chamber of commerce has be-
come the largest commercial organi-
zation in the world.

Life Hung in Balance.
Hearing the report, the father of
Thompson and William ran out of his
house and found his eldest son and
his nephew lying on the ground party

BOY LIVES WITH SHOT IN HEART

Life in Balance for Several Days;
He Leaves Hospital Two Weeks Later.

SHOT WHILE AT PLAY

Doctors Say It is the Most Remarkable
Case in History of Hospital—
Seven Bucks Shot Pellets Lodged
in Heart Muscles.

Paterson, N. J.—Alive with seven
pellets of buckshot in the muscles of
his heart, and apparently suffering
slight, if any, ill effects, is the remark-
able case of twelve-year-old Law-
rence Setterfield, of Bloomingdale, N.
J., according to doctors of the Paterson
General Hospital.

The boy was accidentally shot on
May 1. He left the hospital two weeks
later, having prevailed on his parents
and the staff doctors to let him do so,
declaring he was all right, and did
not want to stay indoors any longer.
His pleading won the consent of the
attending surgeons, but not before a
further X-ray examination was made.

The result showed the pellets all re-
maining in the muscles of the heart.
They could be seen moving around
when the boy was taking long breaths,
according to the statement made by
Dr. Samuel Thompson, of the hospital
staff.

Remarkable Case.
"When this little fellow was first
brought in," Dr. Thompson said, "he
hovered between life and death for
several days. When he left here he
was apparently none the worse for
his accident. I find his case one of
the most remarkable ever entered in
this hospital, or that has occurred in
Passaic county during my memory.
It is almost beyond belief."

On Sunday, May 1, the boy, with
his two cousins, Thompson Yatman,
sixteen years old, and William Yatman,
fourteen years old, were playing
around the grounds of the Yatman
home in Bloomingdale. Thompson
went into the Yatman barn and
brought out an old shotgun belonging
to his father. It was the old story,
"we did not know it was loaded."

The children began the usual boy-
ish game of "handits." The old shot-
gun in the hands of Thompson, young-
est of the three, was discharged. Part
of the load of shot struck William
Yatman in the left leg and a scattering
of the shot penetrated Lawrence Set-
terfield's left side, lodging in the heart
muscle.

Was Accidentally Shot.
unconscious. Commandeering an au-
tomobile he rushed them to the Gen-
eral hospital at Paterson.

Setterfield's case was diagnosed at
once as "extremely critical." For two
days his life hung in balance. As the
little fellow accompanied by his
parents, Mr. and Mrs. Joseph Setter-
field, walked out of the hospital, the
surgeons who attended him shared his
happiness.

Though William, his cousin, was less
seriously wounded, he did not leave
the hospital, being still confined to bed.
The heart is surrounded by a mus-
cular structure that propels the blood
by alternate contractions and dilations.

Sues Doctor Who Cut Up Son's Body.
Denver.—Declaring that the physi-
cian had no right to perform the au-
topsy, Mrs. Florence B. Loomis, moth-
er of William C. Baker, has brought
suit for \$15,000 against Dr. Matt R.
Root, who used the knife to determine
the cause of the boy's death so he
could report to the city authorities.

Boy Has Committed Nine Burglaries.
New York.—Fourteen years old, with
nine burglaries already to his credit,
was the record of which Howard Ward
boasted when arrested. Howard and
a chum, Oscar Anderson, were ar-
rested after pedestrians said they had
seen the boys at work on a safe in a
shoe store.

Big Alligator Negroes' Prize.
Two negroes were attacked by a
huge alligator in West Caney swamp,
near Orange, Texas. The big saurian,
which measured ten feet, chased one
of the negroes up a tree. The other
negro in the meantime placed eight
bullets in the center of its head. The
negroes, who had encountered the al-
ligator while fishing, returned to the
spot where the battle occurred next
morning, and found it dead. They
towed it through the marshes to the
northern limits of the city.

BASE BALL!

B. A. C. Shut Out Enola
Brown's Athletic Club won a
humdinger of a game here Sunday
when it defeated the Enola nine by
a score of 2 to 0. The victors played
errorless ball and but one miscue was
chalked up against the visitors.
Simmons was on the mound for the
local aggregation and was touched
up for seven bingles but he kept
them well scattered, while the home
team tallied five bingles. The score.

Locals Lost Two
Millersville canceled at the
eleventh hour last week but Jake
Brown's team was not idle. Instead
it played a double header. A team
composed of Old Timers, as they
termed themselves, defeated the
Brown A. C's in a good five inning
game 5 to 4. A second game was
played with Maytown and resulted in
a victory for the visitors by a score
of 4 to 1.

Base Hits
On Saturday Elizabethtown de-
feated Hummelstown 9 to 4.
The Marietta Crescents lost to the
Liberty Nine of Columbia 5 to 3.
Landisville defeated Brownstown
on Saturday in 12 innings 4 to 2.
It required ten innings for Man-
heim to defeat Terre Hill Saturday
7 to 6.

The Marietta Crescents defeated
the Billmeyer Giants Saturday in ten
innings 13 to 10.
Late Friday night Millersville can-
celed its Saturday game with
Brown's A. C. team here.
On Sunday, July 24th, at 2.30, the
Certained Products Co. team of
York, one of the strongest amateur
teams in York County, will play the
Brown Athletic Club. This should
be a good game.

On Saturday, July 23rd the
Liberty Nine of Columbia will play
the Donegal Rod and Gun Club team
on the Gun Club Athletic Field at
Maytown at 3 p. m. A good game
can be expected.

On Saturday, July 23, Honeybrook
will cross bats with the B. A. C. of
this place. There will also be a pre-
liminary game between the B. A. C.
Juniors and another good Junior
team. Honeybrook has a good team
and a real game is anticipated.

Had Partiality for White.
An odd request was made by a negro
who was hanged at Lake Charles, La.
He requested that the scaffold for his
execution be painted snow white in
keeping with the white suit, shoes,
tie, and socks he wore. He also asked
that the executioner and attending
deputies be clothed in white.

Beans Cooked by Lightning.
Lightning struck the wires that were
stretched between the rows of lima
beans in a truck garden near Washing-
ton and cooked the beans. It was re-
ported that the beans were large and
juicy, cooked with a delicacy that
would suit the palate of an edicure.

I have a few exceptionally good
bargains in real estate for late buy-
ers but you must act at once.

JOT IT DOWN
That we do the very
best line of Commercial
Printing and at reasonable
prices. Give us your next
order and let us prove our
assertion.

Bear in mind, we want
your business, and we pro-
pose making ourselves de-
serving. Are you with us?

—and all ready for another, whether it be to
plow, harrow, drill; to run the thresher, the
corn sheller, the hay baler or what-not. For
Fordson Tractors are not only doing in the
most economical and most efficient manner, all
general field work for farmers the world over,
but they are saving them time, labor and
money in taking care of every power job.

It combines all of the qualities—all of the ad-
vantages—you have wished for in a tractor.
It is light; it is powerful; it is efficient; it is
economical in both fuel consumption and up-
keep; it is durable; it is dependable; and it is
not extravagant in cost.

It's hard to tell you all the facts about the
Fordson here. We prefer to talk to you per-
sonally and to show you its many advantages.
We'll gladly bring all the facts to you if you
will phone or drop us a card.
