Fordson TRACTOR

lve more Time for Myself Since I Got a

Fordson"

The Fordson Tractor is taking much of the drudgery out of farm life; it is solving the labor problem; it is reducing the cost of preparing land by almost one half of what it was with horses; and it is saving one third to one half of the farmer's time; and making farm life more attractive.

The Fordson will run your threshing machine and at the most opportune time for you. It will operate the milking machines, saw your wood, fill your silo, pump the water, and take care of every kind of belt work-

And don't forget-it will plow six to eight acres in a ten hour day, handling two plows with ease.

Thus the Fordson is the ideal year-round tractor. It will pay for its fall and winter keep in many ways. There's a big story to tell you about the Ford-

son-and a true one-come in and get the facts. Or, if you prefer, telephone or drop us a card and we will bring them to you.
