 Of course you can! When properly fitted glasses relieve the strain on the delicate eye-muscles and nerves, you can tell the difference at once.
 Perfect vision is a rarity. Many persons suffer the ill effects of impaired vision because they do not realize to what extent their sight might be helped with properly fitted glasses.
 It is such a simple matter to find out whether or not your eyes need glasses that no one should continue to put it off from day to day. Why not call and see us?
