Every boy and girl of High school age should enter High school as soon as possible. This is your greatest opportunity. Ten years from now nine of every ten boys and girls will regret it. This is a proven fact now. Make haste while it is day. High school training is free so awake at once and seize the opportunity. Mt. Joy Township can come up in the ranks and Mt. Joy Township will come up in the ranks. Let every teacher impress upon the minds of boys and girls the great necessity and the great value in it. Let every teacher in the township prepare two or three applicants for entrance next year. We must have better trained farmers, better trained teachers, better trained merchants and better trained men and women all around. The Milton Grove High school offers a training suitable for the country boys and girls. A Christian influence with the best of morals. We need country trained teachers to teach our country schools. The boys and girls of the Seventh and Eighth Grade will be formed into a Junior High next year and science taught them. Farmers awake to your sense of duty and instruct, teach and send your boys and girls to country schools and you will keep them there.
