

Big Reduction in Fordson Tractors

Henry Ford Announces New Prices for 1922

Prices reduced \$230.00 or about 37 per cent. lower than 1921 selling prices

The price to-day is \$395 f. o. b. Detroit

What does this mean? It means that no farmer can afford to be without a Fordson.

A Fordson will cost less today than a good pair of horses and will do more work than four horses will do and will do it with less expense. It costs you \$200.00 per year to feed one horse. You can buy a whole tractor for \$395.00.

This big reduction will surely be the means of greatly increasing the sale of Fordsons this spring and we know that demand will be greater than supply.

We ask that you place your order now. Think it over.

MOUNT JOY, PA.

RURAL BUILDING AIDS COMMUNITY

Many Advantages Are Outlined in Financing Proposition by Popular Subscription.

STUDY MADE BY SPECIALISTS

By Far the Greatest Number of Structures Are Erected Through the United Effort of People Most Interested.

(Prepared by the United States Department of Agriculture.)

To assist rural organizations in working out ways of financing and maintaining community buildings, the United States Department of Agriculture has just published Farmers' Bulletin 1192, The Organization of Rural Community Buildings. This is the third of a series of bulletins on rural community buildings, based on an intimate study made by specialists of the department of more than 200 such buildings in all parts of the country. The first, Department Bulletin 825, Rural Community Buildings in the United States, gives a history of the movement, treats of some of the

Public Reading Room, Holden (Mass.) Community House.—This is but one of many attractively furnished rooms in this building.

principles involved, and tells in detail of the erection, financing, management and use of a few representative types; the second, Farmers' Bulletin 1173, Plans of Rural Community Buildings, gives the floor plans of 21 buildings of the better class, illustrating various types.

Methods of Financing. It is pointed out in this third bulletin that though community buildings are financed in a number of ways, as individual donations, local industry, well-established social or fraternal organizations, by far the greatest number are erected through the united effort of interested people and various organizations of the community. When the latter plan is employed the necessary money is obtained either by voluntary contributions or by the sale of stock. Subscriptions are paid in the form of money, labor or materials.

Financing a building by general voluntary contributions is suggested as perhaps the simplest, quickest and most elastic way, while incorporated stock associations furnish more of the elements of financial permanency. The community method of financing has a number of advantages: (1) People are devoted to that to which they voluntarily subscribe; (2) this method develops community co-operation, promotes union, and decreases antagonisms through the necessity of different organizations and factions working together in a financial campaign; (3) as the money is voluntarily given from private funds, the people are enabled to make experiments in the building which they would hesitate to make with public funds or those of an individual or club; (4) those who pay, control. Only a high type of citizenship subscribes to an institution of this kind and thus public spirit at its best is in control.

Community Buildings. In recent years there has been a growing movement in the erection of community buildings by the municipalities through taxation. This method also has its distinct advantages. Maintenance expenses of community buildings are met by dues, fees, rentals and receipts from entertainments, profits and concessions. Some of the best organizations maintain their buildings entirely by annual dues. In the case of buildings financed by an individual or by an industrial concern, a community association is generally formed which guarantees the maintenance of the building as a condition of the donation.

Most community associations which finance their buildings by issuing stock, incorporate under the state laws in order that they may have a more effective instrument for buying, selling and holding property. To guide such associations, copies of articles of incorporation, constitutions and by-laws now in use by a number of well-established organizations are included in the bulletin. State laws relating to municipalities and counties erecting buildings are also given. Copies of the bulletin can be obtained free on application to the United States Department of Agriculture, Washington, D. C.

Who Wants This? Is there a tenant farmer around here that wants to make as much money with less work than he is doing now? Here you are. A 30-acre farm 1/2 mile from Manheim, best of gravel land, good buildings, an abundance of fruit, fine water. This would make a dandy truck farm as it is close to markets. Don't delay, act quick as I am going to turn this farm—Call, phone or write J. E. Schroll, Mt. Joy.

Won ich en shtund im shtetel bin Don will ich widdar hame.

EATS 12-POUND TURKEY TO WHET HIS APPETITE

Philadelphia—When it comes to eating William Lee wins the tangle-colored chapeau. Lee, has always boasted that he could eat as much as six men at one sitting. Yesterday he mentioned his capacity to Michael Yaffee and Wm. Smith. They would not take his word, but demanded a demonstration with \$25 as the stakes in case Lee won. If he lost he was to pay for the meal.

The three men went to a restaurant and there Lee, who is six feet four inches tall and who weighs 238 pounds, tucked a napkin under his chin and beckoned to the waiter. This is what he ordered and ate and drank:

- A twelve-pound turkey with stuffing, time, forty-five minutes; bones picked clean.
 - Five-three prime oysters.
 - Two pound of pork chops.
 - Twelve eggs.
 - Two slices of ham.
 - Beef stew, large order.
 - Twelve cups of coffee.
 - Three loaves of bread.
 - Six bottles of soda water.
- As the last bottle of soda water disappeared, the \$25 was handed Lee.

FORD AND DODGE BROS. HEAD LIST OF CAR MANUFACTURES

Present reports indicate that no changes occurred last year in the positions of the two leading automobile manufacturers considering the total production of cars. As was the case in 1920, Ford ranked first and Dodge Brothers second.

The total number of passenger cars built during the year, according to an estimate published recently by the Wall Street Journal, was 1,535,000, as compared with 1,883,150 for 1920.

Commenting on the general condition of the automotive industry, just prior to the close of the year, the Boston News Bureau published the following, which was subsequently confirmed by Dodge Brothers: "Because it is privately owned, relatively little in the way of figures ever appears in print concerning the activity of the Dodge Brothers motor organization of Detroit. Consequently its splendid and emphatic expansion in production this year and the maintenance even in recent weeks of a high output, which makes it one of the conspicuous bright spots of the industry, are not generally known outside of the trade."

"Dodge Brothers in the third quarter of this year ranked next to Ford among the world's automobile producers, with a monthly shipment record of better than 11,000 cars. This average is nearly maintained—within several hundred cars—in October, an unusual achievement in this year of unsettlement and competition in the motor industry.

"Considering that production the first quarter of the year was down to 3,000 cars, less than one-eleventh of the same quarter in 1920, and less than any single month's subsequent production, that vitality that is Dodge Brothers is apparent. The company should end the year with a final output of between 91,000 and 92,000 cars and probably hold its position as the leader of the industry next to Ford. The heritage left by the Dodge Brothers is thus being splendidly upheld by the present management."

It is understood that Dodge Brothers finished the year with a total production of 92,476 cars, which is over 12,000 cars greater production than the next nearest competitor, not including Ford, there production of Dodge Brothers continued by making good the News Bureau's leadership.

The fire loss in Lancaster County last year was \$490,000, of which amount \$224,000 or nearly half represents damages to barns, stables and their contents.

THE PRODUCE AND LIVE STOCK MARKET

CORRECT INFORMATION FURNISHED WEEKLY BY THE PENNA. BUREAU OF MARKETS FOR THE BULLETIN

Herewith is a corrected weekly report of the Lancaster markets relative to produce and live stock:

 Lancaster Grain and Feed Market

Prices Paid to Farmers
Wheat Milling 01.15, Wheat Chicken \$1.05, Corn 60, Rye, 85c Hay \$18, @ \$19, Mixed \$17 @ \$18.

ACT QUICKLY

Do the right thing at the right time. Act quickly in time of danger. In time of kidney danger, Doan's Kidney Pills are most effective. Ask your neighbor. Plenty of Mount Joy evidence of their worth.

Mrs. Susan Sample, 112 W. Main street, Mount Joy, says: "My kidneys were not in good shape and I had annoying pains in my back when I did any stooping. If I stood, for a little while, my back tired so I could hardly go on. If I lifted, sharp, cutting pains would cause me all kinds of misery. Dizziness came on, too, and the pains in my body were very troublesome. I was nervous, run down and had a lot of trouble with kidney weakness. Finally, I began using Doan's Kidney Pills and it didn't take this good medicine long to drive the pains from my back and to regulate my kidneys so that the other ailments were relieved."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Sample had. Foster-Milburn Co., Mrs. E. Balo, N. Y.

July 20
Good E. Donegal Farm.
If any one wants a real good East Donegal township farm, along the Donegal creek, with the best of limestone soil, here's your chance. 107 acres, seven acres of which is good meadow, farm divided into six fields, new barn 48x90, 8 room brick house, summer house, shedding for 10 acres of tobacco running water at the barn and house.
