

Delicious Ice Cream In 10 Minutes

Think of it! Great fluffy dishes of pure ice cream—wholesome, nourishing, refreshing—at a moment's notice!

At last the ideal freezer! Made entirely of steel, every part heavily retinned; ice pail of galvanized iron—cannot break, rust or get out of order. Can and dasher move in opposite directions, thus making velvety ice cream at a minimum of time, labor and expense. Removable clamp firmly fastens ice cream pail to table, freezer cannot slip or slide and operator's entire effort is devoted to making ice cream, not trying to hold freezer in place.

NOSE THUMBING ILLEGAL IS THE COURTS RULING

Mayor Fair, of New Philadelphia, Ohio, believes that wiggling one's fingers with a sprightly fan-like motion, while the thumb rests against the nose, constitutes an offense against the law at least when done by an attractive young woman, and so he fined Miss Laura Fulton \$10 and costs. Miss Fulton said here today that the case would be carried to the Common Pleas Court.

She was arrested on complaint of Mrs. William Springer, a neighbor. Something Mrs. Springer allowed to escape her lips stirred Miss Fulton to such depths of emotion that she pressed a thumb to the tip of her pretty nose and gave her fingers a quick oscillatory motion. Mrs. Springer attached an esoteric significance to this performance which impelled her to seek redress at law, and she created a sensation in the neighborhood by swearing out a warrant for Miss Fulton's arrest.

CATARRHAL DEAFNESS

is often caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing. Unless the inflammation can be reduced, your hearing may be destroyed forever.

WORN NERVES

Nervous troubles, with headache, dizzy spells, queer pains and irregular kidneys, give reason to suspect kidney weakness and to try the remedy that has helped your neighbors. Ask your neighbor?

Mrs. David Zephery, 25 Mount Mount Joy street, Mt. Joy, says: "Sharp, catching pains bothered me so I could hardly take a broom in hand and do any sweeping. When I bent over, my back pained so severely I could hardly straighten. I was tired and along toward night my limbs became sore and aching. I had the worn out feeling and my nerves were easily affected. My kidneys didn't act right, either. Doan's Kidney Pills had always been highly spoken of and I finally began taking them. It wasn't long before they relieved the pains in my back and I was no longer tired, weak and nervous. Doan's surely regulated the kidney action, too."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Zephery had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

COUNTY FARM BUREAU MET AT LANCASTER

At a big meeting of Farm Bureau members from all sections of the county at the Bureau rooms in the Woolworth building Lancaster, last Saturday evening, John F. Weaver, president of the Tobacco Grower's Association, moved, seconded by president John G. Reist, of the Mount Joy Farm Products Company, that emphatic endorsement and pledge of support be given the Farm Bureau in its countrywide membership campaign, July 10—15.

The motion was passed enthusiastically, not a dissenting vote.

President J. C. Brubaker stressed the pressing need of the Bureau for larger working facilities; praised the untiring efforts of County Agent Bucher; pointed out how the demands for more and more service on Mr. Bucher and the Farm Bureau had reached a stage where expansion was imperative; farmers from all sections were urging a Statewide development.

As important as any reason for the campaign, said Mr. Brubaker, was the urging of a countrywide development of co-operative buying. The taste of co-operative fertilizer, seed potato and spray material buying the past spring has opened up a channel of tremendous importance, and he felt that nothing less than 3,000 members should be the goal for the campaign.

County Agent Bucher seconded this speech with a rousing appeal to the meeting. He had come to the conviction that side by side with the educational service of the County Agent there must be a service organization to meet the farmer's needs in co-operative buying. The experiment the past spring has saved many thousands of dollars; yet it was done in only a small way. Open it up to an organization of 2,500 or 3,000 members, and it will reach astounding proportions.

The plan of the July campaign contemplates dividing the county into two big divisions, the one manned by Harrison S. Nolt, of West Hempfield; the other by Enos G. Kreider, of Christiania. Each of these men will have five groups of townships under their control, and each of these five groups will embrace four or five townships in a cluster, each with a directing head assisted by from five to ten workers. The complete organization will be announced in this newspaper next week.

BIG CONFERENCE WAS A SUCCESS

(Continued from page 1)
of living in luxury might do well to come and look at the plain residence that he calls home. He, however, was away holding meetings at this time.

Services were going on since last Wednesday, the 7th inst., from morning until late in the evening. Among these were sermons of the highest order and were the means of bringing consolation and strength to the people of God.

Here long separated friends meet and greet each other and the renewal of their friendship and Christian fellowship in this quiet place truly makes an oasis in the desert of life that will remain to cheer and help them in the duties and bitter trials of life.

The grove this morning seems empty and in a few more hours the last members will have left for their homes throughout a large part of this great world and will never meet again, this site of judgement day; God grant that the meeting may have been instrumental to his children to render such service to the generation in which they live, that many may be saved and the cause of the Lord strengthened and His name glorified.

The writer goes from here to Postoria, Ohio, to see a few friends there and from thence to Mansfield, Ohio to visit a daughter. On Sunday, the Lord willing, I expect to attend a communion service, north of Dayton in what is known as the Salton church, in charge of Elder Wm. Minnich.

Next year's Conference goes to Calgary, in Western Canada. This is an entirely new place and the news will come with surprise to many of our people. They tell us that the round trip ticket from Chicago to Calgary will be about \$57.00.

There were thirteen new missionaries approved to go to the foreign fields. This is always a touching scene to see young men and women stand willing to say good-bye to their friends, to home ties and home comforts, to an enlightened nation (even though it is not yet entirely Christianized) and go to the dark places of the world, laboring for the salvation of the lost.

The Missionary offering this year at Conference was \$149,810.72, nearly one hundred and fifty thousand dollars. This, at first thought, looks fine but is only a drop in the bucket, compared to the cost of luxuries. Statistics tell us that in 1920, luxuries cost the United States over \$22,000,000 and we shall do well in all seriousness to ask ourselves the question, do I contribute more to the cause of missions than I do to luxuries?

A Good Truck Farm.

When Mrs. Rebecca Senpzig died in New York, ice was packed around her body to preserve it. When the undertaker was ready to put her into the casket he found her very much alive.

Attention Ford Owners!

Ford parts, like almost everything else worth while, are counterfeited. Imitation parts are manufactured to SELL at the highest possible rate of profit and the grades of steel used are consequently not the same high quality, specially heat-treated alloy steels specified in Ford formulas for the manufacture of GENUINE FORD PARTS.

Don't be misled—Insist upon GENUINE FORD PARTS made by the Ford Motor Company. By so doing you will get from 35 to 100 per cent more wear from them, and you will pay the lowest possible cost—the same everywhere.
