**BRACELET WATCHES FOR GIVEABLES**

A few years ago, while the French Social Whirl was at its height at Deauville, Mrs. Poiret appeared wearing a watch upon her bracelet.

The Watch Bracelet created a furore among the fastidious French, and the vogue swiftly swept across the Channel to England.

After that, it was only a matter of time before it crossed the Atlantic, to be taken up by smartly-dressed women everywhere.

There was a time when we were amazed at the sight of a watch upon a woman's wrist. Today it amazes us not to see one there.

We are showing a number of them now, with the added feature that the watch can be detached and worn separately as a chatelaine or as a pendant.

The prices start as low as \$15.00.
