FARMERS REPORT THE PRESENCE OF THE TOBACCO WORM

Now is the time to apply CALSO, which this year contains 20% of quick acting poison and 10% Metallic Copper, the healing and growth promoting element of Spraying Material.

There are two reasons why this is the opportune time to apply CALSO

FIRST—Because the plant is small, therefore it can be covered with a small amount of Calso per Acre.

SECOND—The worm is young, when a small quantity of poison will kill him and the damage he would do if left alone is eliminated.

Spray with CALSO, kill the worm and stimulate the growth of the plant.

'Tis Me! 'Tain't Me!
Now get this—it's good.
Two sets of twin brothers occupy their time in the business life of Indianapolis. One set is Louis and Andrew Hoover, as alike as the acorn on a pair of dice. The other is William and Charles Small, as similar as bananas.

Lou Hoover knows Bill Small, but he doesn't know Charles.
Charles Small knows Andy Hoover, but he doesn't know Lou.
The other day Lou Hoover met Charles Small on the street.

"Hello, Bill," said Lou.
"There you are, Andy, all messed up again. You Charles not Bill."
"Well, you haven't anything on me 'm Lou, not Andy."—Indianapolis News.

A Serious Matter.
"I suppose," said the cross-examining lawyer, in his snappiest manner, "that you remember the date of your birth?"

"Certainly," said the witness with a bored air. "Every man remembers his birthday."
"A newly born infant has no memory. Now, sir, how do you know that it wasn't a day sooner or a day later or a week, or a month, or a year that the date you have in mind?"

"Why—er—ahem—I've been told—"
"Exactly. You've been told, but you don't know. Step down. Gentlemen of the jury, this is the kind of witness who has testified against the unimpeachable character of my client."—Birmingham Age-Herald.

Forage Crop Pays.
As a result of systematized regulation by the United States forest service, the forage crop of the national forests is now returning an annual income to the federal treasury of close to \$2,500,000, says the American Forestry magazine. By a system of range allotments under which nominal grazing fees are charged, the forest service has brought the national forest ranges under practical and profitable administration.

The Pitcher and the Well.
"Did you participate in many engagements while in France?" asked the interested old lady.
"Only five," replied the ex-A. E. F. or with becoming modesty.
"And you came through them all unhurt?"
"Not exactly," he returned sadly. "I married the fifth."—American Legion weekly.
