W. Main street, says: "I couldn't work very long on account of the piercing pains in the small of my back. When I tried to do anything, a darting, stabbing pain went through a darting, stabbing pain went through a darting, stabbing pain went through a diff. I rested poorly at night and tired very easily in the daytime. The kidney secretions were streaked with sediment and at times my kidneys hardly acted at all. I read about the benefit Doan's Kidney Pills were bringing to home folks so I got a box at Garber's Drug Store. They eased up the pains in my back, flushed out my kidneys and restored them to a normal condition."

#### NATION'S BUSINESS TURNING TO HIGHWAY TRANSPORTATION

the increase is due to the development of this new form of transportation. It has been frequently said that the traffic is always ready and waiting when good roads are built, and that the commercial vehicle as a class is more handicapped by lack of good roads than the pleasure vehicle. The increase in the registration of commercial vehicles, coupled with the present activity in highway construction, seems to bear out this statement

in the opinion of department officials The table of statistics issued by the bureau shows a registration of 9,-467,874 private cars, 55,990 taxis and busses, and 1,096,605 motor trucks, making a total of 10,620,471. Motor cycles are not included, there being 149,924 against 196,231 at the beginning of the year.
