Mrs. Anna M., nee Crouser, widow
of Thomas Garihan, for the past
three years a resident of Allentown,

Reber, following an illness of six
weeks from complications, which
kept her bedfast during that time.
She was first stricken early on Fri-
day morning, six weeks ago. Mrs.
Garihan would have been seventy-
three years old, had she lived until
February 26.

A native of Northumberland, Pa.,
a daughter of the late John and
Rosanna, nee Gibbons, Crouser, she
resided for many years in Bethlehem,
later going to Allentown to make
her home with her daughter, Mrs.

The cut of lumber is decreasing
in all the Eastern States; in prac-
tically every State west of the
Great Plains it is increasing, says
the Forest Service, United States
Department of Agriculture. The
principal source of softwood lum-
ber for the entire Nation will soon
have shifted to the West Coast and
the average freight cost paid by the
home builder or manufacturer will
have advanced to a new and higher
level.

OUTLOOK FOR INCREASED SALES IS VERY BRIGHT

"The outlook for increased sales
of Ford cars in this territory never
was brighter," said H. S. Newcomer,
local Ford dealer, today. "The pres-
ent month is starting out wonder-
fully."

"I know of no better way of dem-
onstrating the popularity of the Ford
car than to cite figures recently
compiled which show more clearly
than anything else the ascendancy of
the Ford product."

"Of the 10,482,000 passenger cars
registered in the United States as of
December 1, 1922, forty-eight per
cent. or 5,000,162 were Fords, and
of all automobiles in use on farms
of the country, fifty-three per cent
are Ford cars."

"Then there are the commercial
cars and trucks. These registered
as of December 1, 1922, totalled
1,303,607 and of this figure Fords
held fifty-one percent."

"And here is something else that
is interesting. In 1918, forty-eight
per cent of all trucks in use in the
country were one ton or less, but in
1922 this percentage had risen to
eighty per cent, while one and a half
to two and a half-ton trucks were
but eighteen per cent., three to five-
ton trucks one and a half per cent.
and five-ton or more trucks only one-
half of one per cent.

BACK RUN

Sleighting was never better around
here.

The tobacco is nearly all sold in
this neighborhood.

Many from this section attended
the farm show at Harrisburg last
week.

Mr. Cyrus Sweigart is busy strip-
ping a banner crop on the Milton N.
Miller farm.

Signor F. Ruhl is stripping his ban-
ner crop of tobacco on the Milton
N. Miller farm. Mr. Ruhl has leaves
35 inches long and 19 inches wide.
It looks like a 35c crop.

A Million Dollar Industry

With \$7,500 cash and an abounding confidence in
their own product, two boys started in 1913 to write
a story of business success that is one of the roman-
