

VELIE

THIS SEASON'S SMARTEST SEDAN \$1795, at Factory

Velie's following among car owners, is as distinctive as the car itself—an unusual class, desiring a little more in comfort and luxury than the ordinary; ready to pay a little more for a greater margin of surplus power, greater flexibility and ease of handling, less trouble risk, less upkeep worry; wanting a little more in the final details that mean unalloyed satisfaction.

Yet strangely enough, the Velie purchaser pays no more for these things. And in the instance of Velie closed cars, actually pays less.

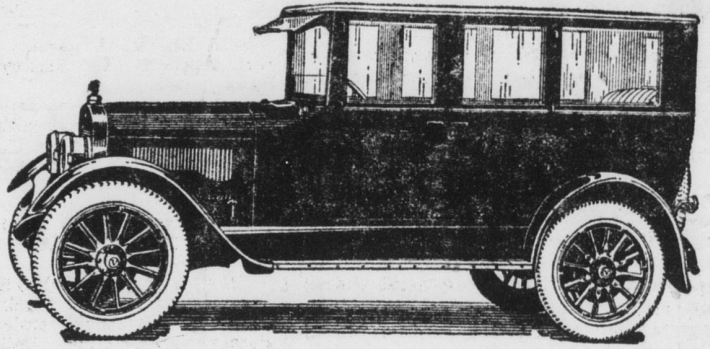

This Velie 5-passenger Sedan, mounted on the Model 58 chassis and powered with the vibrationless, automatically lubricated Velie-built motor, is choicely equipped down to the last detail of silvered flower vase, vanity case and smoking set.

Sixty per cent of all Velie cars are sold to Velie owners—a positive proof of Velie value.

Every time we sell a car we make a friend.

Ira K. Newcomer
R. D. Elizabethtown, Pa.

Fordson

You Will Want Your Fordson Tractor Early

Everything points to the greatest shortage of Ford products this year that has ever existed.

Never before has the demand been so great.

You will want a Fordson Tractor early—here is one product you cannot wait for—when the weather opens up you will need it.

You will want it for plowing, seeding, cultivating—and all your other work. Already it has proved the greatest help to profitable farming that has ever been offered to you. And at \$395 f. o. b. Detroit, the price is so low that you lose money every day you are without a Fordson. To get delivery you must order early.

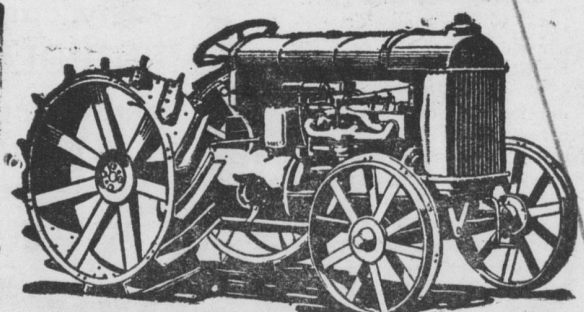

There are no reserve stocks among our dealers—our production capacity, great as it is, will not enable us to build up a reserve.

It must be a case of "first come, first served" and the only way in which you can protect yourself is to list your order with a Ford Dealer immediately.

By taking advantage of our dealer's first opportunity to make delivery, you will be assured of having your Fordson when you need it.

STATE BONUS FOR PENNA. SOLDIERS

(Continued from page 1)
of \$10 a month and the same maximum, but allowed payment for the period from April 6, 1917, up to June 1, 1919. This law would grant the bonus to all who served in the military and naval forces, with the following exceptions:

Commissioned officers above the grade of captain in the army or marine corps, lieutenant in the navy first lieutenant or first lieutenant of engineers in the Coast Guard or past assistant surgeon in the Public Health Service one having the pay and allowances of the rank of any officer above the rank of these specified grades.

Persons who held permanent or provisional commissions or permanent or acting warrants or service under a temporary commission in a higher grade in each case for the period of service under the commission or warrant or in the higher grade after the accrual of the right to pay thereunder. This would not apply to non-commissioned officers.

Civilian officers or employees of any branch, contract surgeons, cadets of the United States Military or Naval Academy or Coast Guard, members of the Reserve Officers' Training Corps or Students' Army Training Corps, Philippine Scouts or members of the Philippine Guard or Constabulary or of the Porto Rico Regiment or National Guard of Hawaii and certain similar organizations.

Members of the Public Health Service for periods during which they were not detailed for duty with the army or navy. Persons granted farm or industrial furloughs during the period of furlough.

Those detailed for work in the Spruce Production Division of the Air Service for the period during which pay was equalized to conform to the pay of civilian employes in the same like employment.

All applications would be made personally except in cases of physical or mental incompetency when a representative prescribed by the Adjutant General would make application.

Hall's Catarrh Medicine
Those who are in a "run down" condition will notice that Catarrh bothers them much more than when they are in good health. This fact proves that while Catarrh is a local disease, it is greatly influenced by constitutional conditions. HALL'S CATARRH MEDICINE is a Tonic and Blood Purifier, and acts through the blood upon the mucous surfaces of the body, thus reducing the inflammation and restoring normal conditions. All druggists. Circles free. F. J. Cheney & Co., Toledo, Ohio.

HAPPENINGS IN THE LEGISLATURE

(Continued from page 1)
county commissioners office to a place of greater power and decision than the present county controllers.

Giving the salary board consisting of the three commissioners and county controller authority to create new jobs without number.

It contains an attempt to approve by specific legislation the creation of official German newspapers as against newspapers published in the English language.

The measure has already passed the House of Representatives at Harrisburg, and is now before the Senate.

No more important bill to the entire State of Pennsylvania is before the Legislature than this act.

It takes 513 pages of printed matter to present it. It repeals specifically by citation of title and page number in the Pamphlet Laws of the State 456 existing statutes. It has a general repealing clause that repeals all other acts and parts of acts inconsistent with its provisions.

House Bill 1330, introduced by Representative Spangler, gives any bank, savings bank or trust company the right to establish branches. This would prove a detriment to local banks.

House Bills Nos. 1242, 1243 and 1253 have been introduced at the suggestion of a Philadelphia divorce lawyer and instead of advertising applications for divorce it is planned to cover the matter by sending a registered letter and would result in secret annulments of marriage. It will make it easier, cheaper and less onerous to secure a divorce about six or seven months. It would mean greatly increasing the number of divorces in this state. It is not for the best interests of society to make it any easier than now to get divorces.

Court Fee Raised
Lancaster County and other counties of the third and fourth classes will increase fees collected by the clerk of the court of quarter sessions to help make up the loss of revenue which the repeal of the Woner liquor dealers' licensing act caused.

The Thomas bill provides for a general increase of thirty per cent in the fees of the clerk of courts as scheduled in the act of 1868. It passed the House finally by a vote of 140 to 1.

The clerk of the courts in third and fourth class counties gets a salary which is paid out of fees collected, but all amounts above his salary are turned into the treasury.

Bills Signed
Among the bills signed were those by Representative Anderson, Mercer authorizing counties to appropriate funds for controlling dangerous plant diseases and insect pests in cooperation with the State Department of Agriculture; and the bill of Representative Spangler, York, authorizing county commissioners to purchase and rent road building machinery to townships.

Other bills signed were the bill of Representative Behney, Lebanon, removing seven traveling auditors from the list of salaries in the Auditor General's Department filed by law; by Representative Fratt, Montgomery, permitting boroughs to levy special taxes, not exceeding three mills, for purchase of fire apparatus.

FIRE DESTROYS BUILDINGS ON CHICKIES HILL TUESDAY

A forest fire raged over Chickies hill last Tuesday evening, causing considerable damage to the woodland and buildings owned by Tuffield Olena. The fire started on the north side of the hill, near the siding, where the trolley cars pass and burned up over the hill in a southerly direction. Several frame buildings, the shooting gallery and about fifteen cords of cut wood were destroyed. An old horse car, a relic of the days of horse-drawn cars in Lancaster, which stood at the edge of the hill overlooking the river, was also destroyed. Men from the Shank sand quarry, at Henry Clay, went to Chickies and helped fight the flames which burned out when they reached the trolley road.

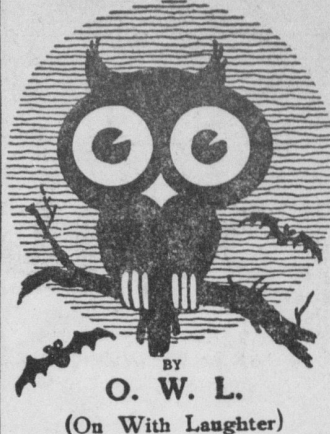

Wednesday night the Keystone Fire Company, with a large force of volunteers went to the scene of the conflagration and did a splendid service in preventing a further spread of the flames by cutting down standing trees and digging wide ditches. Columbia's Boy Scouts, who are trained in fire fighting, helped the firemen and were of decided assistance.

Sergeant Eckert, of Troop E, State Police, went to Chickies to investigate the blaze. State police have as part of their duties the investigation of all fires. Rumors that the blaze started from a cigarette stump thrown carelessly into underbrush were heard.

YOUNG LADIES' SERVICE AT KINDERHOOK CHURCH

What was known as "Young Ladies Sunday" was observed in the Kinderhook U. E. Sunday school on Sunday morning at 9 o'clock, when the lesson, "Ruth, the Faithful Daughter," was the subject of the lesson study. The program was very neatly arranged by Martha Kline, as chairman, and was in charge of the girls' classes, taught by John M. Keiser, Mrs. Herbert Snyder and Mrs. Mary Minnich. The program was as follows: Selections in each class with Miss Mae Zercher; opening service, with prayer by Alice Birk; one of the finest and best of the lesson, Leah Schlegelmilch; call, Mabel Kline; reading an entitled "Woman's Work in Church," by Ruth Kauffman.

OWL-LAFFS

O. W. L.
(On With Laughter)

Hello fellow Optimists—An opportunity is a good deal like a wasp, it takes a lot of experience to know how to grasp it without getting stung.

A man must be all right when his small son admits that "dad's a good scout."

We heard a fellow remark at Al Stump's restaurant the other day that when a preacher begins to tell about the luck he had fishing, he descends to the level of the ordinary lay angler.

While standing out front Saturday evening as the rain was just pouring down, Miles Backenstoe came along and said: "Well, we certainly needed rain and I do hope it keeps up." I told him how in the deuce will it benefit us if it "keeps up", we want it to come down.

Now I will poet—
If Franklin caught the lightning,
That fact should cause no wonder:
For scores of married men,
Have long been catching thunder.

We predict that traveling will become much higher when aeroplanes displace trains and automobiles.

It's Old Stuff
"That young man stays to an unearthly hour every night, Gladys," said an irate father to his youngest daughter. "What does your mother say about it?"

"Well, dad," Gladys replied as she turned to go upstairs, "she says that men haven't changed a bit."

A lot of guys never look natural when they are dead because the undertaker gives 'em a shave and a clean collar.

We notice the government is going to discontinue the two dollar bills. It can discontinue everything above the ones as we are not familiar with them.

"Bud" Carpenter says smoking a pipe looks cheaper than cigarettes but think of the extra years you will live to smoke.

Up at Earl Kaylor's barber shop the other evening Jno. Simons was relating a story, during the course of which he said he grabbed a fellow by his hind leg.

There's a fellow in Mount Joy township near Mt. Pleasant church that does more work on Sunday than any other day in the week. I asked him why and he remarked: "Because the rest are all week (weak) days." I told him if he insists working on Sundays he may as well start making himself a suit of asbestos underwear.

A Pointer for Our Burgess

Speeders in Akron, Ohio, are fined \$1 for each mile beyond the 20-mile speed limit, their machines being timed by arresting officers. When arrested within a school district the speeder's fine is doubled. This may be a good plan to adopt in Mount Joy.

Married men employed by the city of New Orleans hereafter will have their pay checks mailed to their home address. You ought to see the women sit out and watch for the mail man.

The Boy Was Right

A little fellow of about seven or eight summers living on North Market street, told Sixty Groff that his cat had chickens. George said: "I want you're kidding, boy, you mean your cat has kittens." The boy laughed and then replied: "I'm right for two reasons. In the first place it aint that kind of a cat, and in the second place you know that nest full of little chickens that my mudder brunged in the other day." George answered, "Yes", after which the boy replied: "Well, the cat's got 'em."

Charles Garber says the scarcity of girls on our streets is due to the fact that many of them are sitting at home waiting for their hair to grow out again.

A waiter at one of Lancaster City's restaurants has been arrested for failing to report the finding of a \$100 bill which he picked off the floor, but in our estimation it will be hard to convict him. He can say he thought it was a tip.

"Les" Roberts told us the other day that when a motor knocks all the time there is something wrong with it. Right you are, and we have been thinking that the same thing is true about some of our citizens.

A formula for success: More bone in the back and less in the head.

at the beginning half of the bulls in ser- was as follows: Selections in each class with Miss Mae Zercher; opening service, with prayer by Alice Birk; one of the finest and best of the lesson, Leah Schlegelmilch; call, Mabel Kline; reading an entitled "Woman's Work in Church," by Ruth Kauffman.
