

# The Sign of a Good Oil Stove

A happy housewife—delicious, wholesome foods—a comfortable, clean and odorless kitchen—fuel economy and contentment.

All of these are indications of a good oil stove in a home. They are the sure signs of a home with an oil stove which is equipped with the Patented KEROGAS Burner.

The Patented KEROGAS Burner—the heart of the oil stove—burns gas generated from kerosene. It does not burn the oil. Extracts gas from the oil, burning 400 gallons of air with every gallon of kerosene consumed.

The Patented KEROGAS Burner makes an oil stove act like a gas range. It is the most remarkable on the market for cooking efficiency and instant heat control.

Powerful, double gas flame—a flame within a flame—which is concentrated directly on the cooking utensils. No heat is wasted. It is placed right where it is wanted. This means satisfying cooking results and reduces fuel cost.

No soot or odor. The flame is clean and powerful. All of the gas generated is turned into heat—none escapes into the kitchen, creating a disagreeable odor. You can instantly regulate the flame to any degree of heat required—quick, slow, intense or simmering. You cook better without waste.

The Patented KEROGAS Burner is made of genuine brass, drawn out of one piece. It is rust and leak proof. Simple in construction. No complicated parts which require adjustment or get out of order. It will last as long as the stove itself.

Let us demonstrate this wonderful oil stove with the Patented KEROGAS Burner to you today. The sooner this oil stove is in your kitchen, the sooner you will be able to enjoy the full comfort that goes with a really good oil cook stove.

PATENTED KEROGAS BURNER

There is also a KEROGAS oven as reliable as a range oven.

# VELIE

THE LATEST VELIE RECORDS  
Every Day Brings a New One

"Velie 58 takes Ligonier Mountain in high gear." "Velie 58 loaded with passengers climbs Shelburne Mountain five times in high gear." "Just finished 72 hour non-stop run with Velie-built Motor. 1,318 miles with 87 gallons gasoline, 2 quarts oil, no water added. Nearly 21 miles per gallon gasoline, over 900 miles per quart oil, running continually 3 days and nights, averaging 25 miles an hour." "L. D. Eldridge, Trenton, N. J., completed a 2,600 mile trip in Velie 58, crossing 250 miles of mountains, averaging 24 miles per gallon."

To the remarkable Velie-Built Motor are added the beauty—the finish—the Quality all through—that make the Velie the outstanding value of all sixes. Five models open and closed. See them.

## PROMINENT MEN AT THE LANDISVILLE CAMP

(Continued from page 1.)  
service of last year will again have charge. Rev. Dando illustrates his lessons as he did last season.

The Young Peoples' meeting will have a new leader, Rev. Leroy Erving, of Broad street Methodist church, Lancaster.

With this group of leaders it is certain to be a most helpful successful camping.

The Song Leader will be Prof. Alton Casselbury. The Spiritual Director is Rev. Chas. Traux, who has so efficiently led the camp for a number of years, will again direct the meetings. He will have the loyal support of all persons in the camp family.

The Boarding house will be carefully directed this year. It is the aim of the Association to please those who come to make their homes in the Grove.

The Ladies Auxiliary organized in 1905 has accomplished much and this year they are going to put new covering on the aisles of the auditorium.

The daily programs for this year's religious services are: Thursday, July 26, 7:30 P. M., opening service on platform, address by all leaders and directors; every morning at 10, family worship and Bible study, Rev. Harry H. Traux, leader; at 1:30 Children's service, Rev. Harry S. Daulo, leader; at 2:45 Bible Study Hour, leader, Rev. Willis K. Ebbenshade; 6:30 Young Peoples' Meeting, Rev. Leroy S. Erving, leader; sermon each evening preceded by song services. Those who will preach are: Daulo; Saturday, July 28, illustrated sermon, James M. Shelley; Sunday, July 29, sermon at 10:30 and 7:30 by Rev. Amos Johnson, Philadelphia; Monday, July 30, Rev. Chas. F. Lalkald; Tuesday, July 31, Home Mission Day; Wednesday, August 1, Patriotic Day; Rev. John Kingsley, of Philadelphia, will address veterans who are especially invited at 10:30 and in the evening, Rev. Chas. Haddiway will preach; Thursday, August 2, Rev. Aubrey B. Gandie; Friday, August 3, Temperance Day, Rev. J. M. Bennetts, of Anti Saloon League; Saturday, August 4, Rev. Harry H. Traux; Sunday, August 5, sermon at 10:30 and 7:30 by Rev. Willard L. Amthor, of Philadelphia; Monday, Rev. M. Hoffmann; Tuesday, Rev. Willis Ebbenshade; Wednesday, August 8, 10:00, Sacrament of Lord's Supper, 7:30 sermon by spiritual Director, Rev. Charles Traux, Port Carbon, Pa., with march around camp and closing taps.

The President of the Association, Samuel H. Boyd, of Columbia, has been untiring in his efforts to have things in shape for camp. Walter Prutzman, of Reading, vice president has been a resident for some weeks.

## RHEEMS

Mr. and Mrs. Wm. McGarvey, of Florin, spent last Sunday at the home of Mr. and Mrs. Abe Butzer, of this place.

Mr. and Mrs. Reuban Nissly and son, Amos, of Mount Joy, spent a day at the home of her sister, Mrs. Susan Wolgemuth.

Church of the Brethren held their weekly prayer meeting at the home of Mr. and Mrs. Harvey Hoffman at this place last Thursday evening.

Mr. and Mrs. John B. Fory, Notary Public, and daughter, Dorothy, spent last Sunday at the home of relatives near Mechanicsburg, Pa.

N. E. Garber had the pleasure of producing 17 bushels of cherries from his yard near Rheems. A. S. Bard sold four hundred and thirty quarts from his cherry hill.

The well drilling outfit has arrived at the Penn Limestone and Cement Company quarries to put down a large number of twenty-five foot deep holes for blasting.

Rev. S. E. Garber, of near Bosler's church, met with a serious fall while loading hay one day last week, causing him to be confined to his easy chair for a few days.

Robert Kready and Dick Heiser have accepted important positions at the Gerberich-Payne Shoe Factory, Mt. Joy, during their summer vacation from the E'town High School.

Frequent fires along the P. R. R. tracks in this vicinity are caused by sparks from the mole-a-minute locomotives setting fire to the dry grass and rubbish along the fences.

C. H. Musser, P. R. R. assistant agent at Rheems, was on a vacation last week. One day he accompanied a veteran fisherman to the Conewago creek. He can give you a thrilling story, considering that he is an amateur fisherman.

Miss Anna Wolgemuth, of this place, a Chicago Mission Bible student, will conduct a three weeks' Bible study each morning from 8 to 10 o'clock, commencing July 9th, for children at the Church of the Brethren at Elizabethtown. She expects one dozen students from Rheems.

Mr. R. Swenck, P. R. R. supervisor, Division No. 4, located at Middle-town, on the Philadelphia Division, made a personal inspection of the Elizabethtown foreman's section, in charge of Harvey Foltz, and the Rheems section in charge of D. K. Espenshade, last Monday, finding both sections in good condition for the general inspection.

The Colebrook Gasoline well driller is putting in extra time in order to put down sufficient holes thirty feet deep at the Penn Limestone quarries at Rheems, where they forward as many as twelve loaded cars a day and furnish crushed stone for road macadamizing hauled by four large trucks to a point near Deodote, on the road leading from E'town to Hershey.

Charles Riccedorf, one of the largest farmers in this vicinity, had fifty five acres of wheat on shocks July

4, making arrangements to thrash it right from the field, commencing Monday if the weather permits. Thus far weather has been quite favorable for the hay makers but very discouraging for the potato and tobacco farmers.

Miss Anna Wolgemuth and mother entertained the following at a Fourth of July dinner at their home in this place: Mr. and Mrs. J. T. Madiera and family, Mr. and Mrs. H. H. Nye and daughter Anna, and Misses Anna Mae Miller, Martha Martin, and Ella Heistand, all of Elizabethtown.

Mr. and Mrs. John Foreman, Road Supervisor of West Donegal township, and daughter, Anna, Mr. and Mrs. John Wagner, Mr. and Mrs. Harry Foreman, produce dealer, Samuel Mason, all of Rheems, and Mr. and Mrs. John M. Weaver, of Elizabethtown, spent last Sunday in the mountains of Perry county in the vicinity of New Germantown, to set plans for their deer hunt this coming season.

Samuel Ober, a Mount Joy farmer, owner of a Case Gasoline Thrashing rig, did the first thrashing for 1923 last Saturday, July 7, on the Allen Ober farm purchased from the Rev. Hiram Kaylor, where the yield was 24 bushels per acre. The J. L. Heisey and Sons had their large truck on hand to deliver it to their Rheems warehouse as the first for the season. The price is 98c per bu. for good wheat.

Two milk delivery trucks, in charge of Paris Garber and Phares H. Landis Jr., met in a collision on a sharp curve in the road leading from the Daniel Erb farm in East Donegal township to the Landis Brothers stone meal factory. The drivers claim they failed to notice the approaching truck until too late to avoid a crash, which occurred about 7 o'clock Saturday morning, without injuries to the drivers but both trucks were badly damaged, delaying the milk delivery for several hours.

## SALUNGA

Benjamin Fory, of Pequea, is the guest of Mr. and Mrs. Harry Myers. Miss Mildred Way was the guest of relatives at Lancaster on Wednesday.

Mrs. Frank Henny has taken the position of housekeeper for A. M. Kelp.

Miss Florence Bishop, of Ephrata, spent Saturday with Miss Miriam Kendig.

Mr. and Mrs. Samuel McGill will leave for Star City, Indiana, to visit Philip Christ.

Mrs. Susan Strickler, of Chiques, quietly celebrated her eighty-sixth birthday a week ago.

Mrs. Lizzie Bauer, of Canajohare, N. Y., is visiting her brothers and sisters in this neighborhood.

Miss Mary Kendig is home from Charlestown, Va., where she attended the wedding of Miss Wall.

Misses Mary E. Peifer and Marie Herr left on Friday for Asbury Park, expecting to stay about two months.

Mrs. Claude Fackler and daughter, Frances and Bernice, of Florin, spent the week-end at her father's home.

Miss Hilda Montooth, of Lancaster is here to spend a few months with her grandparents, Mr. and Mrs. H. G. Strickler.

William Malchorn and wife, of New Orleans, La., is spending some time with his mother, Mrs. Mary Malchorn.

Mr. and Mrs. Clayton Dommel and daughter, Anna Mary, of Lancaster, spent the Fourth with O. B. Weidman and family.

Mr. and Mrs. Paul Peifer and son, Donald, spent Wednesday at Salunga the guests of his parents, Mr. and Mrs. John Peifer.

Mr. and Mrs. Eli Hornberger, Jr., and Mrs. Samuel Shortzer spent Tuesday at the home of Mr. and Mrs. B. F. Keener, near Mechanicsburg.

Mr. and Mrs. John Herr and Mr. and Mrs. R. D. Raffensperger were entertained at dinner on Sunday by Mr. and Mrs. Philip Hottenstein, at Petersburg.

Mr. and Mrs. Samuel Eby, Mr. and Mrs. N. N. Baer and Mr. and Mrs. H. Meek were entertained on Sunday at the home of Mr. and Mrs. M. S. Zimmerman.

One day last week Mrs. N. N. Baer motored from their farm to Salunga. When at her destination she wanted to turn around she did so by putting on the juice and turning the steering wheel and the little old Ford turned right around on two wheels and stopped when it ran against the curb. No damage was done to the occupants, machine or curb.

FIRE PROTECTION FOR COTTAGES AT MT. GRETTA

Taking warning from the disastrous fire which occurred at Mount Gretna more than a month ago when eight cottages on the grounds of the Chautauqua Association were leveled by flames, members of the Camp Meeting Association, of this place, took preliminary steps toward providing fire protection for cottages belonging to their association.

Tentative plans for the construction of a reservoir which shall hold an adequate supply of water during the entire year and the laying of pipes from the reservoir which shall permit a pressure of 125 pounds, were discussed.

In a resolution, the board of directors of the association have been empowered to draw up plans outlining the method and to submit these plans, with their estimated cost, to the members of the association at a later meeting.

At present the only system of fire protection available there is the old fashioned cart and chemical method. There has been some talk, but no action taken because of insufficient funds, of purchasing a modern fire truck such as is used in the cities.

A little moonlight now and then will marry the best of men.

## ALTHOUGH EIGHTY, HE IS BUSY ON THE FARM

(Continued from page 1.)  
non county to learn a trade. For thirty years he worked as a mason. He was employed by Henry Balmer for 3 years and the remainder of the 30 years worked at masonry with his brother-in-law, Isaac M. Kover.

In 1862 he was married to Mary Ann Cover, daughter of the late Jacob Cover, of Rapho township, near Keener's mill. They had two sons, Albert, of Berwyn; Clayton, deceased; and one daughter, Alice. Mr. Kover also has five grand children and 14 great grandchildren.

Mr. Kover always was a busy man. In summer he followed his trade and in winter he butchered among neighbors. Until the spring weather opened, after the butchering season was over, he made brooms.

In 1893 he moved his family to Moore's mill, where he lived two years. They moved to this boro where they lived 17 years in the property he purchased from William Brainin, on Marietta street. While living here his wife died in 1910 and he went to live with his son, Clayton, at Lime Rock, near Litz, with whom he made his home for twelve years, until the death of his son. He now resides with his daughter, Alice, wife of Harry Weidman, along the Chiques Creek, near Salunga.

## VALUE OF STATE'S MAPLE PRODUCTS LOWER THIS YEAR

Pennsylvania's flow of maple sap this spring has been estimated as being worth \$512,000 by the Bureau of Statistics of the State Department of Agriculture.

The production of both maple sugar and syrup was lower than last year, reflecting the disinclination on the part of many farmers to run their camps on the small margin of profit that has prevailed in maple production in recent years.

There were 203,600 gallons of syrup produced, a five per cent drop from last year's figure, and approximately 340,000 pounds of maple sugar, ten per cent less than in 1921.

At an average price of \$1.05 a gallon, the syrup had an estimated value of \$417,350. The sugar, averaging 28 cents a pound, contributed an additional \$95,000 to the total value of the 1923 maple production.

## COMBATING SAN JOSE SCALE IN WESTERN APPLE ORCHARDS

San Jose scale has become so destructive during the last few years throughout the southern limits of the apple belt in the Central Western States that it threatens the destruction of the apple industry. Realizing that the scale must be controlled or many growers would be driven out of the orchard business, the United States Department of Agriculture began as soon as practicable a series of experiments for controlling the pest.

Climatic effects, with more or less carelessness of spraying methods on the part of many growers, is responsible for an increase in the spread of scale. When the scale began to increase because of unfavorable weather spraying also was difficult and consequently not as efficiently done as necessary. Failure to spray during the dormant season with liquid lime-sulphur had much to do with poor results.

Because of the urgent need for relief based on preliminary results of the experimental work recommendations were made by the department for the control of the scale and to far have proved satisfactory. Department Circular 263 discusses the methods of spraying found to be effective. Of all the insecticides used in the experimental tests best results were obtained with the so-called paraffin-oil or lubricating-oil emulsion. Through spraying with an emulsion containing 2 per cent of oil should be used. Although the time to spray is in the clean up bad infestation of scale, dormant season, when it is advisable to make two applications, summer sprays of oil emulsion will give a partial checking of the scale. When this insecticide is used during the growing season, precaution should be taken to make the application during the cool part of the day. Injury to fruit and especially to foliage is likely to result from its use during extremely high temperatures.

Methods for preparing the oil-emulsion sprays and for their application as well as the results of the experimental work at various stations and sections of the infested orchard territory are given in this preliminary report.

## MITE SOCIETY ENTERTAINED BY MRS. CLAYTON FARMER

The Mite Society of the Church of God, at Maytown, were entertained at the home of Mr. and Mrs. Clayton Farmer, on Tuesday evening.

The following were present: Rev. and Mrs. Gable, Mr. and Mrs. John Trout, Mr. Ornie Smith and daughter, Nellie Anabel, Stella Rose, and Kermet, Mr. and Mrs. M. G. Arnold, Mrs. Albert Risor, Clyde Nissley, Mrs. Nolt and daughter, Ruth; Mrs. Willis Lindemuth and daughter, Louise; Mr. and Mrs. Samuel Nye and daughters, Mary, Dorothy and Elizabeth, and Grandson, Robert; Mrs. Samuel Lindemuth, Mrs. Ezra Engle and children, Henry, Eue, Elizabeth and Gilbert; Charles Wiker, Mr. and Mrs. Earl L. White and children, Betty, Junior and Clayton; Mr. and Mrs. Clayton Farmer, Marvin Strutz and Maurice Marsalles.

After a program was rendered refreshments were served, after which all returned home, having enjoyed the evening.

Hens may not be poetical, but we have seen some eggs that reminded us of "The Lays of Ancient Rome".

## HURRICANE SEASON IS OFFICIAL NOTICES RELIABLE

The hurricane season of 1923 began on June 1, and all stations of the Weather Bureau of the United States Department of Agriculture on the South Atlantic and Gulf coasts have been asked to be on the alert in order that the best possible service may be rendered. During the first two weeks of June no disturbances whatever have occurred.

The official forecaster of the Weather Bureau issues advices from the central office at Washington, D. C., at frequent intervals during the hurricane season, indicating the location, intensity, and direction of movement of hurricanes. These bulletins are as definite and complete as the information at hand warrants and are supplemented by necessary and are supplemented by points likely to lie in the path of an approaching storm. In case of conflicting reports and rumors, especially those causing uneasiness and alarm, the Weather Bureau suggests that credence be given only to official advices, which are based on authoritative information by wireless, radio, and telegraph from ships at sea and Weather Bureau stations along the coast.
