JOY OF HEALTH WOMAN'S RIGHT

Mrs. Evans Freed from Female Weakness by Lydia E. Finkham's Vegetable Compound

Detroit, Michigan.—"I had female weakness with pains in my back, and I could not stand on my feet for any length of time. I was working in a factory but had to quit as I was too much on my feet. A friend recommended Lydia E. Finkham's Vegetable Compound to me, and I can hardly believe it myself that I am well. Oh, it is a grand thing to have your health! I feel well all the time and can go out like other women and not feel the awful torture. When I took your medicine first I thought it should cure me for the first bottle, but I am glad my husband kept me at it. I have had nine bottles and now I am well."—Mrs. JENNY EVANS, 1004 Lafayette Blvd., Detroit, Michigan.

If you are suffering from displacements, irregularities, backache, nervousness or other forms of female weakness, you should take Lydia E. Finkham's Vegetable Compound. The reason is given in letters like these, and we have published thousands of them. You may expect that a medicine that has helped other women will help you. Try it.

third class cities, and requires them to be qualified voters of the city instead of the precinct of ward.

"Act No. 122 repeals the exemption of women from arrest and imprisonment for non-payment of taxes

"Act No. 165 changes the date of the spring primary in presidential years from the third Tuesday in May to the fourth Tuesday in April.

"Act No. 171 provides that when any of the members of the computing board of election returns are candidates for office and not qualified to act, the remaining officer or officers who are not candidates shall perform the duties of the board.

"Act No. 190 amends the act providing for computing the votes for candidates to the primary, when the county commissioners, the judges or judge or prothonotary, are disqualified to act by reason of their being candidates, by providing that the sheriff shall act as the return board.

"Act No. 201 of the session of 1923 provides that the voters who expect to be unavoidably absent from the county on the day of the primary or on the day of the election, may make application not more than thirty days and not less than three days next preceding such primary or election to the county commissioners of the county in which they reside for a certificate of qualification and an official absent voters ballot.

"For information as to details of absent voting communicate with your county commissioners who, under the law, are required to furnish all the supplies, blank forms, etc., to carry the act into effect.

"Act No. 278 amends the act of July 21, 1919, which provides for the registration in cities of the first and second classes of persons employed in the service of this state or of the federal government by including the wife or the husband of such employe in the privilege of registering by petition instead of appearing personally before the registrars.

"Act No. 417 provides that the domicile of a married woman for the purpose of voting or holding any public office, shall be determined for all purposes as if she were unmarried."

HOME HEALTH CLUB

WEEKLY LETTER WRITTEN EXPRESSLY FOR THE BULLETIN BY DR. DAVID H. REEDER

ARE YOU MARRIED? Perhaps more young people will be helped than others by my question and suggestions.

I think that a letter from a young married woman is responsible for the question. This woman expects to become a mother before the year is ended. On two occasions in their three years of married life her husband has abruptly left home.

Once he left her in a large city and for several months she was compelled to do very hard work in order to live.

In spite of the fact that she will become a mother she is now carefully laying her plans to separate permanently from such an unreliable mate. Of course, she regrets the fact that her child may inherit the same instability of character, yet she is happy because she is to be a mother.

For many years I have steadily maintained that no one should be permitted the wonderful privilege of parenthood without it was definitely established that they were mentally, morally and physically fit, and some day when we reach that degree of sanity which will enable us to live without wars it will become a part of the duty of the Government to permit only such a reproduce.

Our very incomplete records show that one illegitimate boy born to a beautiful but defective young woman became the ancestor of a long line of drunkards, criminals, imbeciles, murderers, epileptics and insane persons. The crimes committed by his descendants cost one state alone millions of dollars.

The father of that boy afterwards married a sound, healthy young woman of normal brain and morals and his descendants through her became successful farmers, lawyers, ministers, physicians, judges and statesmen, not a single criminal among them.

The time will come when we must pay at least as much attention to the parenthood of children as we now devote to the breeders of our cows, hogs and poultry.

Those who agitate these things at the start are called cranks, theorists and dreamers, but were it not for the dreamers we would never progress.

All progress is the result of desire and desire stimulates the imagination. Imagination creates. Without imagination we would still be living in caves and trees. Our clothing would be the hair of our bodies and we would eat our food as Nature provides it.

On account of the fact that I have been able to direct many childless couples in Nature's correct methods I have the great pleasure of their happiness expressed to me when the little ones come to brighten their lives.

In some cases I have been compelled, through a sense of duty to them and to the balance of humanity, to refuse aid. In such cases I advise them to avoid parenthood and if I consider that they could successfully raise and properly care for and educate children I advise them to adopt at least two.

And if I conclude they should not have the training of children I advise some kind of service or work that will enable them to increase their love and protection to their less fortunate fellow man.

Some couples of this kind are doing splendid work in the ranks of the Salvation Army, and others in Community Service.

Young men and young women, its lots better to study carefully beforehand the character, physical and mental condition as well as the ancestry of the person you are about to accept for a life mate, as a part of the lives to come hereafter in which you are to share the glory or the shame.
