COW TESTING ASSOCIATIONS DECLARE WAR ON BOARDERS

Fully 15,000 dairy cows are having a chance to prove whether they are assets or liabilities in the 40 cow testing associations now operating in Pennsylvania.

1.000 dairymen of the state are care fully weighing their milk and feed there to Canada where they will ateach day and are having the milk of every cow tested once a month for butterfat content. As a result, more than 1.000 animals have been adjudg ed guilty of being "star boarders" and have been sentenced block in the past year.

Twenty-four of the 67 counties the state have one or more associ tions within their borders. county is in the lead at the present time with five testers making their monthly rounds in as many associa-

Besides aiming to get rid of the boarder cow, the associations, according to E. B. Fitts, of State College, who is in charge of dairy extension work in the state, have declared war on the "scrub" bull and ten associations report that all of their mem-More than one hundred registered herd leaders have been purchased for individuals during the past year thru the county agents.

Testers and county agents through out the state are urging members of the associations to use butter instead of butter substitutes on their own tables and several assocations report a complete boycott on the "ccocoanut cow."

In addition to the cow testing associations in the state, there are several cow testing clubs, each composed of several farmers in a vicinity who are weighing and testing their milk. These clubs are formed in districts where a sufficient number of members can not be obtained to make it possible to hire a tester.

Many motorists who have always insisted on the best in everything they buy, have discarded their heavy, bulky, high-priced cars and have replaced them with the Studebaker Big-Six. And they report that, in every way, it represents precisely their conception of what a really fine motor car should be. They are enthusiastic over their all-round satisfaction with the Big-Six because of its dependability, surplus power, extreme comfort for seven passengers, the completeness of its equipment and its fine appearance.

The series 24 model—the finest Big-Six Studebaker ever Bigt—presents a value unapproached by other cars at anywhole near the price. And its nominal cost of operation is a source of continual satisfaction. Every thing for which one can wish in motoring convenience, comfort and utility has been provided—even to an extra disc wheel complete with tire, tube and tire cover; handsome nickel-plated bumpers, front and rear; automatic gasoline signal mounted

on instrument ward, and many other features. on instrument heard, and many other reatures.

The low price the Big-Six is due to large volume, the fact that Studebaker ove head is shared by three models, the manufacture of all vital pairs in Studebaker plants and Studebaker's vast physical and financial resources.

After 71 years of serves, the name Studebaker enjoys confidence and respect more than ever.
