What Shilkey Bumblecock Has To Say This Week
Viel Johr zuruck in unserm Ort,
Bei kühle Spotjohrs Woche,
Do sin die Junge Leit als fort
Um Latweg helfe koche.
Was war des doch en Herrlichkeit
Bei jede Spotjohr Nacht,
Do hen die Buwe en die Mad
Ihr Zeit ger zugebracht.
Fünf Nachte in ere Woch hen sie
Als Latweg helfe koche,
Noh sin sie hehm in aller Fruh—
Hen schri viel Schlof gebroche.
En Dehl hen als die Schmitz gemacht
Den Latweg mit zu koche,
Die hen geblaudert un gelacht
In selle schone Woche.
Zweh hen als immerfort geruhrt—
En Liebling un esi Schatz,
Un Manche hen gekarasirt
In jedem dunkle Platz.
Annere hen als Holz gebracht
Vun Holzplatz hinar em Haus,
Die hen das Feuer gut gemache
Un sin dann wieder naus.
Sie ware all gepliebt un froh,
'S Alles lustig gange;
Die Buwe sin die Mad als noh
Un hen sie immer g'fange.
Do war als Fun vun allerlei,
En Jedes war gepliebt;
Die Mammy war ah do dabei
Un hot sie All gegrust.
Un guter Wei un Seider;
Gut Esse war als zugersicht,
En Jedes war schon ufgeschicht
In seine gute Kleider.
Die schwarz gegrennte Bauers Mad
Sin als fruh bei gekumme,
Die ware fein gedeckerte
Uf em Kopp mit schone Blumme
Dort war als Spass for junge Leit,
Sie hen gern Schlof gebroche,
Die sin so kumme Meile weit
Den Latweg helfe koche.
Sell war als nix for gunge Leit
En manche Meil zu lafte,
Sie ware jo zu selder Zeit
All ufgebrocht zum Schaffe.
Hen fahre konne wie en Mann,
Frucht' mahe, binne, dresche,
Hen geschafft so gut wie en Jedes
kann
Un ware gewohnt zu wasche.
Sin Morgeds schm un vier Uhr raus
Un hen die Kuh gemolke,
Dann sin sie uf die Felder naus
Unterm Himmel klohr vun Wolke.
Die dunkel Haut war net veracht
Bei selle Junge Mense;
Sie hen ehm jo recht ahgelacht—
Mer war ken Powder im Gesicht—
Do war ken Powder im Gesichte—
Die Backe net ahgestrichet,
En Mann kriegt do sei voll Gewicht
Sell hot mer als gegliche.
Destroying Ants
It is reported that red ants are doing considerable damage in wood lots and forests. Fill up the openings in the ant hills with mud and then pour carbon bisulphide into the hill and seal the opening with mud. A single treatment will not destroy all of the ants but will kill many of them.
Minister—"Come, come, my friend, try to lead a better life. Why, you are continually breaking one of the commandments."
His Friend—"Nope, parson, I dont have any trouble with a single one of the commandments. It is the Amendments I simply can't keep."

HOME HEALTH CLUB

WEEKLY LETTER WRITTEN EXPRESSLY FOR THE BULLETIN BY DR. DAVID H. REEDER

BOYS OR GIRLS: Since the publication of my book on the control of sex there has been much discussion of the subject and I have been twice requested to write articles on the subject for big New York Magazines.
Others have tried in very ingenious ways to tell the same thing in a different manner but my simple statement of the facts as they are, proven daily in Nature, has stood the test of fifteen years trial and is still without disapproval.
One woman recently wrote a small book giving her theories and my friend, Bernard MacFadden, of the Physical Culture Magazine, asked for my opinion of her system. I think it would interest you to read it in full as given but the subject was of such a nature that it was necessary to treat it from a medical standpoint and we are not yet educated up to a point where technical matters concerning reproduction may be discussed even in the most simple and cleanly manner without shocking individuals not properly trained to understand Nature's laws.
I received an urgent request from the president of the Medical Association of which I am a member, to present the matter in a paper to be read at the annual convention, and this I did with the result that over a thousand couples wrote to me for greater details.
The majority of these couples were childless and as my observations had been mostly of childless pairs who wanted the little ones, no matter what the sex might be, I was able to secure very accurate data.
Sterility can nearly always be overcome when the cause is found and removed. In the cases that I have handled the fault or deficiency has been about equally divided. The sex of the child, as stated in detail in my book and the articles referred to, is determined by the date or time of fertilization, as compared to the date of menstruation. The earlier conception takes place the more certainly there is of a female offspring, while delayed conception produces the male offspring.
In cases of sterility I always prescribe a very rigid diet, taking into consideration the condition of both the husband and the wife, also certain rules of conduct and exercises, all of which must be rigidly observed. Surgery is seldom required in these cases altho much of it is done. In such cases I always find it more difficult to overcome the trouble. Each case is an individual problem, however, and no fixed system will succeed in all.

OUR LOCAL ELEVEN SCORES GOOD VICTORY OVER VICTRIX

Lee Ellis, coach and playing halfback Saturday afternoon scored enough points to win the game against the Victrix A. C. eleven, of Lancaster, when Mount Joy A. C. won 24 to 0.
Ellis played in his old time form and was always good for a substantial gain whenever carrying the ball. The first touchdown was made early in the second period when Ellis intercepted a forward pass and raced forty yards for a score. Showalter failed in a drop kick for the extra point. Ellis again scored in the same period through a variation of plays that brought the ball within striking distance when he went over for the second score. Ellis failed at the goal.
George Germer, the big fullback, made the third score of the game when he tore big holes in the visitor's line for a score. Showalter failed in an attempted drop kick.
Russel Schatz, the flashy right end scored the final touchdown in the fourth period on a forward pass from Ellis and ran twenty yards for a score.

MANY D. A. R. DELEGATES VISIT OLD DONEGAL CHURCH

Over three hundred delegates and friends and members of the Daughters of the American Revolution went to Marietta last Wednesday afternoon, arriving there by automobiles and were entertained by Witness Tree Chapter, D. A. R. at the Marietta Community House. The party was met by a committee of the Chapter and escorted to the Community House, where they were given luncheon. After their visit they started on a tour of Donegal, where they visited the Donegal church. Leaving Donegal the party journeyed to Mount Joy where they passed down the State highway to Lancaster. The following National and State Officers, together with the delegates of the State Conference, composed the party: President General, Mrs. Anthony Wayne, Cook (Cookeville, Pa.); Treasurer General, Mrs. Alfred J. Brossenau; Corresponding Secretary, General, Mrs. James H. Stansfield; State Officers, Regent, Mrs. John B. Horon, Pittsburgh; Vice Regent, Mrs. Clarence G. Grisjin, Berwick, Pa.; Recording Secretary, Mrs. Albert J. Sandles, Export, Pa.; Corresponding Secretary, Mrs. Joseph M. Caley, Philadelphia; Treasurer, Mrs. M. R. Hach, Lebanon; Historian, Mrs. George N. Reed, Oil City; Librarian, Mrs. Joseph G. Rhoads, Williamsport; Registrar, Mrs. Willard M. Bunnell, Scranton; Director, Mrs. Samuel S. Hill, Wernersville; Miss Christine King, Chambersburg; Mrs. Hubert Moore, Philadelphia. The following are the officers of Witness Tree Chapter and present: Past Regent, Miss Josephine Buchanan, Marietta; Regent, Miss Lillian S. Evans, Columbia; Vice Regent, Mrs. S. L. Frey, Marietta; Treasurer, Mrs. H. N. Kehler, Columbia; Recording Secretary, Mrs. John Hughes, Columbia; Corresponding Secretary, Miss Maud Haldeman, Marietta; Registrar, Miss Emma Wisler, Columbia; Historian, Miss Irene McClure, Columbia.

COLLEGE COW BECOMES NEAR WORLD'S CHAMPION
A near world's record has just been completed by a cow in the dairy herd at the Pennsylvania College. Mary Dysart, a purebred Brown Swiss, produced in 365 days a grand total of 16,868 pounds of milk and 804.4 pounds of butterfat.
This phenomenal production gives her the honor of being the second highest producing Brown Swiss cow in the world, the champion of the breed in Pennsylvania, and the highest producing cow in butterfat in the college herd.
"Brownie", as she is affectionately called by the students at Penn State, is ten years old but is still hale and hearty and is considered by many as one of the most beautiful cows of the breed.
Too Much
The orchestra was practicing a very tedious and lengthy piece when the composer himself arrived.
"What's this?" he demanded from the doorway, "I can hear only the violins and not the wind instruments."
"It is too hard a job for the wind instruments," replied the orchestra leader. "They can't blow and yawn at the same time."
If silence is really golden, President Coolidge is a millionaire.
Pinchot proved himself a good pinch hitter.
CATARRH
This is a local disease greatly influenced by Constitutional conditions. HALL'S CATARRH MEDICINE consists of an ointment which gives Quick Relief by local application, and the Internal Medicine, which acts through the Blood on the Mucous Surfaces and assists in restoring the System of Catarrh.
Sold by druggists for over 40 Years. F. J. Cheney & Co., Toledo, O.
