INTERESTING LETTER FROM NATIVE CITIZEN

MR. GEORGE W. MISSEMER, OLDEST SON OF THE LATE J. R. MISSEMER, WRITES MR. M. M. LEIB

The following interesting letter was received a few days ago by Mr. M. M. Leib, on West Donegal street. The writer is Mr. George W. Missemmer, oldest son of the late J. R. Missemmer, of this place. Mr. Missemmer is editor of the Gazette, published in Shanghai, China. At present he is on a visit to New York City. The letter follows:

Dear Mr. Leib:

"I arrived in this city several days ago with my son after having traveled China, Indo-China, Straits Settlements, Ceylon, Port Said, Cairo Jerusalem and various other cities in Palestine, such as Tiberias and Nazareth (took an early morning swim in the sea of Galilee), thence to Syria stopping at Damascus, traversing the mountains of Lebanon by a modern rack-and-pan railway, thence taking a steamer from Beyrouth, which allowed a short visit to Constantinople, the island of Rhodes, Athens, and embarking at Naples, where we visited the ruins of Pompeii and Vesuvius. Thence to Rome, climbing to the dome of St. Peter's, visiting the Museum of the Vatican (it surpasses all possible expectations), thence a day or two each at Florence, Venice and Milan. Thence several days in Switzerland, finishing off the European end with a week each in Paris and London. I stayed in a little chambre mublée a la voinde de la Rue St. Martin at the Boulevard St. Martin. I didn't have time to employ your pet phrase: "Voulez vous m'embrasser, ma chère mademoiselle," but Paris is full of good looking ones all right.

However, the most interesting thing of the trip to me was the following: Several days out from Beyrouth I overhauled a group of French soldiers—the boat was full of them—speaking a most beautiful imitation of Penna. Dutch. So I went up to them to find out what it all meant. The explanation was quite simple. They came from Alsace. Whether they had the French or German flag over them was pretty much the same as they had to do compulsory military service in the army anyhow. I said to one of them: "I don't suppose the French officers like you to speak this dialect." His answer was quite curt: "If they don't, let them learn it, the same as we have to learn French."

I became quite friendly with them. I traced the origin of many a Penna. Dutch expression, which I couldn't reconcile with my later studies in German. For instance, the correct German word for "inquisitive" is "neugierig." The Penna. Dutch use a word that sounds like "gnunner-fitzig." The explanation is that in the dialect two perfectly good German words are used having a related meaning but which are then lumped together and mispronounced.

1923 LICENSES GOOD TILL MARCH 1

Although owners, drivers, paid drivers' and operators' licenses for 1923 are valid until March 1, 1924, the Department of Highways daily is receiving hundreds of applications for 1924 licenses. The revised form of application for these licenses will not be ready for distribution until some time in January due to a change in the law made by the 1923 Legislature. Department officials reported that thousands of applications for certificates of title, unaccompanied by the 1923 license fee, are being received. In such cases it will be necessary for persons to wait until they receive an application form describing the car they have titled before the 1924 license can be issued, it was pointed out. Upon receipt of this blank it will be necessary for the applicant merely to sign his name, state the type of car used and attach the required remittance.

ISSUE 15,184 LICENSES TO LOCAL HUNTERS

Hunters are still coming to the County Treasurer's office for licenses and up to now there have been issued 15,184. This is somewhat behind the number granted last year. There are several reasons assigned for this, one being that the licenses were not received at the local office until a month later than usual, and another is that most of the places in the country are placarded against gunners. From now there will be but a few issued as the season for big game is almost over and all hunters who contemplate going after it have their licenses.

THANKSGIVING DAY ON NOVEMBER 29

PRESIDENT COOLIDGE ISSUES HIS PROCLAMATION FOR OUR ANNUAL HOLIDAY

President Coolidge has issued the annual Thanksgiving Day Proclamation as follows:

The American people from their earliest days have observed the wise custom of acknowledging each year the bounty with which Divine Providence has favored them. In the beginning this acknowledgment was a voluntary return of thanks by the community for the fruitfulness of the harvest. Though our mode of life has greatly changed, this custom has always survived.

It has made Thanksgiving Day not only one of the oldest, but one of the most characteristic observances of our country. On that day, in home and church, in family and in public gatherings, the whole nation has for generations paid the tribute due from grateful hearts for blessings bestowed.

To center our thought in this way upon the favor which we have been shown has been altogether wise and desirable. It has given opportunity justly to balance the good and evil which we have experienced. In that we have never failed to find reasons for being grateful to God for a generous providence of the good.

Even in the least propitious times a broad contemplation of our whole position has never failed to disclose
