Mr. John Gaul Has Good Neighbors

SEVENTY-SIX, MANY WITH TEAMS, MONDAY MORNING REMOVED REMAINS OF HIS RECENT FIRE

Frequently, thruout this community, people assist their neighbor when in need which shows the proper community spirit. Especially is this true among our farmers.

When a rural resident is incapacitated thru accident or sickness, it is an ordinary occurrence for the neighbors thruout his vicinity to turn out and give him a "lift."

Last week Mr. John Gaul, a farmer south of town, had the misfortune of having his large barn completely destroyed by fire. He decided to rebuild it at once.

Monday morning, to his great surprise, neighbors and friends, seventy-six to be exact, with shovels, forks, teams, etc. went to his premises and before ten o'clock had all the remains of the fire removed, even the old stone walls and everything was in readiness for the masons to begin work on the foundations walls of the new barn. The place resembled a scene of great activity for several hours that morning.

The following men assisted in the work:

M. L. Gainor, John Hivner, Alvin Staley, Daniel Miller, Ephraim Hersh, Jacob Shelly, Michael Sherser, C. M. Herr, C. H. Herr, Enos Gible, I. M. Wolgemuth, Jacob Wolgemuth, Levi Kopp, Engle Shelly, D. R. Fry-singer, Kraybill Wolgemuth, Amos Herr, Christ Hershey, David Shelly, Ams Mumma, Clint Engle, Christ Nissley, Jacob E. Brubaker Sr., Elias Musser, Ezra Zercher, Curvin Martin Alvin Gaul, B. O. Musser, Elam Sherr, Harry Lyons, Hiram Wolgemuth, Joseph Wolgemuth, Abram Hosterter, Jacob Wolgemuth, Jerry Freymeyer, Christ Nissley, Ezra Engle, Harry Haines, Jacob E. Brubaker, Jr., Emanuel Brown, Alvin Reist, Christ Lease & Son, Earl Eyer, Lloyd Felker, David Ginder, Christ Risser, Miller Wolgemuth, Earl Brubaker, Paris Wolgemuth, Henry Brubaker, Daniel Brubaker, Albert Greenawalt, Abram Hess, Senior, Ezra Wolgemuth, Reuben Nissley, Joe Kramer, Harry Flory, Landis Charles, Levi Musser, Andrew Zercher, Elmer Gible, Harry Flory, Eli Shelly, Irvin Gaul, Benjamin Gaul, John Gaul, S. C. Hershey, "Shorty" Engle, produce dealer, Park Eberly, Henry Hess.

To say that this deed of kindness was greatly appreciated is putting it very mild. Mr. Gaul is one of our most enterprising farmers and was well deserving.

COUNTY AGENT EXPLAINS HOW INVESTMENT OF \$15 WILL EARN \$300 FOR FARMERS IN ONE YEAR

County Agent Floyd S. Bucher has discovered a method by which an enterprising farmer, who is dissatisfied with earning a "minus income" according to the cost accounts he keeps under the direction of Farm Accountant Sloan, can, on an investment of \$15 obtain a cash return of \$300 during his idle hours.

Being a public servant, Agent Bucher feels compelled to make public his findings, for they were made in the course of his duties. They are as follows: "Purchase at any drug store," said Mr. Bucher, "\$15 worth of corrosive sublimate and dissolve the same in water at the rate of 4 ounces to 30 gallons and you will have sufficient material to treat 1,000 bushels of seed potatoes for scab as thoroughly as any material known to science.

Do Community Work
The next step in the operation would be to induce your farmer friends to allow you to treat their seed potatoes at the rate of 30 cents a bushel (a modest sum), and as the \$15 worth of corrosive sublimate is sufficient for at least 1,000 bushels of seed potatoes this would (Turn to page 4.)

A New Substitute For Gasoline

ALSATIAN ENGINEER SUBMITTED INVENTION TO FRENCH GOVERNMENT FOR A THOROUGH TRIAL

Substitutes for gasoline are announced periodically, tried out and discarded. Sometimes they are a hoax; sometimes the cost of production is so high that the substitute is a commercial impossibility. To compete with gasoline as a motor fuel the "discovery" must be within certain price limits. Where this is an unattainable ideal, the fuel is useless.

Lately a certain Alsatian engineer, M. Imbert, has submitted to the French government his invention called "gasogene." France is compelled to import huge quantities of gasoline, and any invention that promises relief is welcomed. The French Ministry of War has undertaken to test out the discovery. At Lyons they are running six huge motors daily for hours of a time. Up to date the experiments have proven a great success. Military authorities and mechanical experts have been astonished at the performance of the invention and admit that they are face to face with a means of locomotion that will revolutionize the whole industry.

Charcoal takes the place of gasoline in Imbert's discovery. The apparatus which contains the charcoal is easy to build, moderate in cost, and can be substituted for the gas tank on any make of car. By means of a pipe, air is sucked in from without and brought into the combustion chamber. Here the gas is produced under high temperature, forming carbon dioxide.

The experiments are being carried on exhaustively and thoroughly. It is possible that nothing may come of it. But if it proves its worth the results will be of immense importance not only to France, but to the whole world. Hitherto the whole automotive industry has been dependent on gasoline and oil production. There is always a threatening shortage, either real or manufactured. When charcoal comes in as a genuine competitor of gasoline, we will be more certain of our supply at least, if not of the price.—Lancaster New Era.

GREAT INTEREST SHOWN IN THE PLAY "SPRINGTIME"

THE WORST STORM OF THE SEASON MONDAY NIGHT
One of the worst storms in this section for many years was witnessed Monday night. It was a strong north wind and the most damage was done to the poles of electric and telephone companies. Many telephone lines are out of order and it will require some time to get them back to normal conditions.

About the most damage was to telephone and telegraph lines along the highway between here and Lancaster. At Salunga poles were blown over on houses. Nearly every pole on the north side of the road between Salunga and Landisville was blown across the highway. Several poles also fell across the road in the east end of Landisville.

From the former Daniel Grube hotel to the top of the hill at Long's Park, every pole on the north side of the road was blown over.

This closed traffic at all these points, causing detours but the road was opened again last evening.

WILL PRESENT THE PLAY, AN OLD FASHIONED MOTHER
The young folks of St. John's Lutheran Church Maytown are rehearsing "An Old Fashioned Mother," a lively play, which will be presented on March 15th in the Maytown Hall. The play is full of humor and pathos.

Mrs. Howard Shireman plays the part of Deborah Underhill, the old-fashioned mother, and John Roath, Jr. very aptly takes the part of John Underhill, the "black sheep" of her family. The love making of Lowitz Custard (played by Miss Mary McCurdy) and Jonah Quackenbush played by Bruce Naugle) furnish fun aplenty.

Others in the play are: Miss Louisa Clepper, Miss Lillian Fletcher, Miss Caroline Keiser, little Helen Keiser, Clair Nell, Jno. Buller, Christ Beshler and C. C. Keiser. Miss Verma Peck is coaching the play.
