A Thief is Taken With His Plunder

CONEWAGO FARMERS CAPTURE NIGHT HEN ROOST RAIDER BUT LATER HE GIVES THEM THE SLIP

A wholesale theft of chickens was taking place at the farm of J. E. Brinser, near Conewago, between 11 and 12 o'clock Thursday night, when Mr. Brinser was awakened by the noise of the thieves made in bagging 70 fowls.

An alarm was spread and with the assistance of N. P. Garver and son, Paul, who resides close by, they discovered a man standing by a team parked along side the roadway near a stretch of woodland at the Garver farm.

The horse and team was confiscated by the men and the stranger held until a search was made. In the woods bags and crates were found containing the seventy chickens, with only one dead. The chickens were taken back to the barn and the man in the team was made to drive to Middletown, accompanied by Mr. Brinser, Mr. Garver and his son. When they got to Middletown the stranger drove the team up Poplar avenue in the dark, and there jumped out and made good his escape.

The team was taken to the Keiffer stables and is being held for identification. The thieves had carried the chickens through a field a quarter of a mile to the place where they were found. It is believed the other parties escaped in the woods, leaving their companion in charge of the team. The State Police expect early arrests on suspicion of several parties.

MUST PAY MERCANTILE TAX ON NEAR BEER SALES

Hotel keepers and merchants who sell near beer are subject to the payment of the state mercantile tax on the gross amount of business handled by them this year, then an appraiser is made by the County Mercantile Appraiser. This ruling conforms with a decision handed down recently by Auditor General S. S. Lewis.

Two Telephone Companies to Merge

ALL THE BELL AND INDEPENDENT SUBSCRIBERS WILL BE GIVEN ONE SERVICE

Plans are being worked out for the elimination of duplicate telephone service throughout the state which will result in a big saving to the telephone using public. In the western end of Lancaster county, which includes the Columbia, Marietta, Elizabethtown and Mount Joy Exchanges, now being served by both the Bell and Independent telephone companies, arrangements have been made whereby there will be but one exchange in each town. This means that a telephone subscriber will have but one telephone service and he will get the same service over the two separate telephone systems as he will be able to reach any other telephone, both Bell and Independent. At present to have this telephone service a subscriber must maintain two telephones, one to each telephone system.

Each Exchange will have both Bell and Independent Long Distance Toll lines so that a subscriber will be able to reach by the use of his one telephone any long distance station that he formerly reached over the two different systems.

In Columbia and Marietta, it is understood, the Columbia Telephone Company's exchange plants will be used in addition to the Bell Telephone Co.'s long distance trunk lines; in Elizabethtown and Mount Joy the Bell Telephone Co.'s exchange plants, including their long distance trunks, will be used.

It is estimated that after the unification a subscriber will be able to reach twice the number of telephones in the above territory than he can now reach over either of the two separate systems.

GARAGE NEAR LANDISVILLE WAS DESTROYED BY FIRE

A large concrete garage owned by Itsky Miller, at the extreme eastern end of Landisville along the Harrisburg pike, was completely destroyed by fire of mysterious origin on last Wednesday evening at about eight o'clock. Two automobiles, a truck and a large quantity of automobile accessories were destroyed. The loss is estimated at about \$10,000 which is less than half covered by insurance.

The garage which was about 35 by 42 feet in size, and was just completed about three months ago, is operated by Mr. Miller's son, Harry. He left the place for the night at about 6:30 that evening. At that time there was no fire about the building and no way, to his knowledge, that the fire may have been started excepting by an incendiary.

The blaze was discovered by passing autoists who sent in an alarm to which fire companies from this place and Landisville responded. By the time the companies arrived the flames had gained so great headway that it was impossible to save the building nor any of the contents.

First of a Series of H. School Debates

MOUNT JOY HIGH WON FROM MANHEIM HIGH DEBATING TEAM HERE LAST FRIDAY EVENING

The debating team of the Mount Joy High School composed of Virginia Newcomer, Frank Tyndall and John Eshleman, opposed the team from Manheim High School in an inter-school debate in the High School assembly room last Thursday evening. The members of the Manheim team were Theora Bishop, Horace Martin and John Wasser. Excellent arguments were set forth on both sides of the question, which was: "Resolved, That a Soldiers' Bonus Bill Should be Passed". The local debaters, who upheld the affirmative, by their clear cut presentation of forceful, logical arguments won the unanimous vote of the judges. Prof. A. C. Baugher, of Elizabethtown College; G. Read Alexander, Asst. Co. Supt. of Schools and Harry N. Nissly, Cashier of the Union National Bank, of this place, rendered the decision which brought victory to M. J. H. S. in its first inter-school debate. A second debate will be held between these two schools at Manheim later in the year.

The High School orchestra rendered several selections in a pleasing manner while the Girls' Chorus sang several songs. Dwight Landis added much to the program with a violin solo.

God Save Us From Endless Taxation

A SMALL RURAL CORPORATION PAID ONE-FOURTH ITS NET INCOME FOR TAXES LAST YEAR

(By H. Frank Eshleman)

A day or two ago, it was my duty as legal advisor of a small rural corporation organized to help the farmer avoid the jaws of professional profiteers, to look over the expenditures of the concern for a year. The capital invested was about \$28,000, and the net income \$2,699.

I was astonished to find that this little corporation paid road, school and county tax \$46.65; mercantile tax \$63.68; state tax on capital stock, \$117.09; state tax on loans, \$12.83; state tax on gross receipts, \$17; workmen's insurance tax, \$64.92; state emergency capital stock tax, \$13.49; state auto truck license, \$69; U. S. income tax \$37.44 and that these eleven taxes, ten levied by the state of Pennsylvania and one by the general government, together with \$44.24 fire insurance premiums and \$116.73 auto truck insurance made this little concern pay in taxes for its privilege and safety of existence the sum of \$847.20 or about one-fourth of their net income.

And as the New York Times editorially says in anguish under date of March 11th, it will never end.

In the creation of our government safety against wild appropriation of money and against dangerous handling of the taxing power was supposed to be secured by placing those powers to initiate appropriations and raise money in the lower house of the legislative body, to initiate and all of the states have followed the example. It was thought that the direct representatives of the people would guard the people's purses; and that the Senate was not to be allowed to originate bills for appropriation of money. It was thought to be composed of too many rich men—men out of sympathy with the views and tastes of the generality of the people.

In modern days that safe-guard has been swept away; and a new check is needed to prevent the servants elected by the people to serve and govern them, from bankrupting the people and country. Only one remedy is left. It is to make it a fundamental law that no bill for appropriation of money shall pass upon less than a vote of two thirds of the whole house. This will not cripple payment of proper debts and charges, for at least two thirds of the people are at all times honest enough to pay all the country's proper debts. The danger and the temptation in the spending of "other people's money" now a pastime so popular with our rulers must be checked or not only we but the next generation, who must pay the enormous amounts we tax out and borrow and spend, will be burdened with debts of our making and be crippled all their lives from doing the needed financing demanded by the needs of their times.
