The majority of accidents continue to occur on dry, straight road sections, rather than on slippery curves—reports received by the State Highway Department show. This is not only true of the month of March, but of the period beginning October 1, last, when the Highway department began the compilation of accident data.

Since October 1, 1923, 698 accidents were reported to the department. Of this total 476 occurred on dry roads, 185 on roads that were wet and 37 on icy roads. Three hundred and forty-eight accidents (Turn to page Four)

## MAN SHOTS HIS WIFE, THEN SHOTS HIMSELF

### Eight years of constant quarreling between Richard Sammet and Mrs. Kate Naglee, with whom he lived about three miles west of Rothsville, on the Lititz Creek road ended Thursday when Sammet in a moment of jealous passion, used a double-barreled shot gun to kill the woman and then himself.

The tragedy occurred between 9 and 10 o'clock while the couple were alone in the isolated farmhouse except for their two and half year old son, Richard. The child was alone with the dead until almost noon, when Albert Hornberger, a son of the slain woman, returning for his dinner, discovered the bodies lying in the parlor of the home. The child, covered with blood, was wandering from parlor to kitchen and back again, crying bitterly.

## MADE BIG ADVANCE SINCE LAST REPORT

We point with pride to our two most excellent and solid financial institutions—the First National bank and the Union National bank. Each time their reports appear they show increased resources. Especially is this true of the First National. For the first time in the history of this institution it has advanced beyond the two million mark. At the last report in January its resources were \$1,804,406.63 and its report this week shows an increase of \$201,945.80 or total resources of \$2,006,352.43. The officers and directors can well feel proud of the bank's progress.

The report of the Union National shows even greater resources. \$2,187,763.45 is the amount on that side of the ledger.

Mount Joy and community can well feel proud of two banking houses that have resources of over four million dollars. Added to this must not be forgotten the good reports of the Florin Trust Company and the First National bank at Landisville. These four institutions represent resources to the amount of \$5,267,686.16. That is a record that any community would be proud to boast of.
