The Car for the Girl in **Business**

The modern business woman needs her own personal transportation medium. Chevrolet Utility Coupe with high-grade body, refined upholstery, plate glass windows, artistic fittings, stream-lines and riding comfort, fully meets her quality requirements. Its mechanical efficiency and ease of handling make strong appeal, and finally its surprisingly low price and lowest per mile cost decide her choice.

> W. L О. (On With Laughter) Well Saturday was straw hat day but you always see a chap here and there who is way ahead of the seasons. That fellow in Mount Joy is "Doc" Hollowbush. He was sporting a new straw hat two weeks ago.

> > May first was child's day and Saturday was straw hat day, but it is beginning to look as though every day was ladies' day at the barber shops.

OWL-LAFFS

One of our bank directors told a fellow yesterday: "A little saving now and then, has established lots of our best business men," and he's exactly right.

An East Main street lady told me that instead of going to church Sunday night she read a hair-raising story and I was just wondering what effect a story like that would have on some of the bald-headed guys we have here in town.

The best part of a man's reputation is usually what isn't found out about him.

A certain married man from Milton Grove says there's a big difference in the mother of to-day and yesterday. The latter used to worry about her children and the former hasn't any children to worry about.

"It's all off," said the barber to the convict. "Funny. I once heard monkey say the same thing when ne backed into a lawn mower.

Jim Dillinger will be the traffic cop here during the firemen's convention. He says if things go thru right he will be a candidate for Con-

stable at the next election. Here's good advice fellows. If you ever travel thru the south and covered with a special soundproof comany body tells you the steak is as pound. tender as a woman's heart-take my

which a national association of Rotary

clubs was formed. Two years later

in order to include clubs from for-

eign countries the association was

made international. At the beginning

of 1923 the membership of the asso-

ciation totaled over 83,000. Member-

ship in a local club is restricted to one

man from each business or profession.

A new club must start with not less

than 15 or more than 25 members. The

clubs are grouped in districts, each

district electing a governor to repre-

sent it on the international board,

which meets in Chicago every 60

days. The Rotarian, a monthly pub-

lished at Chicago, is the official pub-

Keeps Absolute Check on

Time Taken for Operation

Modern efficiency methods as ap-

plied in factories and shops often

make it necessary to study the time

required for different operations in the

manufacture of certain products. For

this work it is absolutely necessary to

have a stop watch. The conventional

stop watch, however, leaves much to

be desired, for the reason that, while

it gives the time elapsed for a certain

operation, it is necessary to indulge

termining the output per hour or day.

evolved for the purpose of eliminat-

ing all computation and making it possible for an observer to read from

the dial the quantity desired. The cir-

cumference of the dial of the watch is

divided into 100 parts, as in the well-

known decimal dial, but instead of

these divisions being numbered in the

ordinary manner they are marked with

figures which indicate the number of

operations per hour, when the time of

a single operation is represented by

the elapsed time. In the instance of

very short operations ten operations

Soundproof Booths

constructed by various firms, and ow-

ing to the principle involved in their

makeup it is said that not the least

sound can escape from them while the

The walls of the booth are built of

five layers of thin wood, with the grain

crossed each time, and the layers are

glued together, the whole then being

Inasmuch as the whole is made in

telephone is being used.

Now a time-study watch has been

in a considerable calculation for de-

lication of the organization.

Civil Improvement Is **Trustees of Church Object** of "Rotarians" Insure Pastor's Life

A new idea in church building finance made its appearance in The Rotarians are members of the Rotary club, which was formed in Rochester, N. Y., recently when the Chicago in 1906 by four men-a coal trustees of the Baptist temple, who dealer, mining operator, merchant tailor and lawyer. "Rotary" was are putting up a combined church and office building in that city, inchosen for the name of the club be sured the life and health of their cause the members met in "rotation" at their places of business. Civil impastor, the Rev. Clinton Wunder, for provement was the object of the club \$100,000 for the benefit of the church, and the motto adopted is: "Service the premium to be paid out of the building fund. above self-He profits most who Success of the undertaking depends serves best." Other clubs were soon organized in other cities and in 1910

so much upon the Rev. Wunder's a convention was held in Chicago at energy, initiative and devotion, the trustees explained, that his death or disability would be an irreparable blow to it, and the insurance is taken out to protect the plan so far as money can do it.

The policy calls for fifteen payments. In the event of the pastor's total disability the church will receive \$3,000 a year; in case of the death it will receive the full amount of \$100,000.

At the expiration of twelve years, if the church desires to surrender the policy, it will have \$50,000 in cash to apply on the payment of its second mortgage bonds, which become due at that time. The premium will amount to approximately \$4,000 a year.

Birds May Share Fate of Antelope and Bison

America's effort to preserve her game bird supply has proved a complete failure, according to T. Gilbert Pearson, president of National Association of Audubon Societies. He says that many species of birds are declining so rapidly that they are as sure to pass as have the antelope and bis

"Some time ago," said Mr. Pearson, "Prof. Henry Fairfield Osborne, head of the American Museum of Natural History, issued a widely quoted statement that the animal kingdom is tottering. He said that nothing in the history of creation has paralleled the ravages of the fur and hide trade, which threatens the entire vertebrate kingdom, and he added that final cause of the close of the age of mammals can only be arrested through the creation of sound sentiment and education of the women and children. "In the same manner the bird kingdom is tottering and will fall unless the National Association of Audubon Societies keeps up its work of arresting the destruction of birds."

Shaking Mop Out Window

In a loud voice she was telling a friend in the subway of a slumming trip she had recently made. "And do you know, my dear," she said, "the people are too lazy to dispose of rubbish in the proper way. They fling it from the windows into the street. It's all your life's worth to walk down there after dark. It's a wonder some one wouldn't teach them better."

"There's a law against it, of course," the friend agreed. "But even people who know also break it. Up where I live it is a common sight to see housewives shaking mops out of the windows over the sidewalks, and that's only one step away, don't you think?

But the loud-speaking one suddenly became silent. The shot had gone home .-- New York Sun and Globe.

We also sell CUT FLOWERS and POTTED PLANTS from Mr. David Zerphey's Green Houses of town.
Size Make Name St. No. Áddress	 enecker has a good position. A young fellow got a job as blacksmith at one of our restaurants. He shoos flies. Guess that's a new one, eh? A few days ago there was a gab meeting of the broom brigade along Main street. Five women had answered the roll. They were engaged in a friendly argument as to who could make the best doughnuts. Just then I happened along and why, I can't tell, but they decided I should be the judge. I told them that the Salvation Army ladies bake the best doughnuts because they are so holy. A certain man on Marietta street gave his son thunder the other day just because he won't stick to one job. The old man said: "Don't you know that a rolling stone gathers no moss?" But believe me that kid was right there. He answered his Dad by saying: "That may be true, but remember Dad, a sitting bee gathers no honey either." 	<text><text><text><text><text><text><text></text></text></text></text></text></text></text>	<text><text><text><text></text></text></text></text>	<text><text><text><text><text><text><text><text><text><text><text><text></text></text></text></text></text></text></text></text></text></text></text></text>
