WILD IDEAS

All the wild ideas of unbalanced agitators the world over in their ignorant and pitiable quest for happiness through revolutions, confiscation of property, and crime, cannot overthrow the eternal truth that the one route to happiness through poverty or government is over the broad and open highway of service.

DIG FOR IT

Stable prosperity—wherever and whenever it has been manifested—never has been based upon incidental or haphazard circumstances. It is logical to assume, when the matter is seriously considered, that the "good luck" of your competitor has resulted from a promotive campaign in which sound common sense, far-sightedness and strenuous effort have played prominent parts.

WHY NOT HERE?

Mount Joy merchants can learn a thing or two and greatly increase their business if they would follow the footsteps of our sister borough, Litzitz. In the pretzel-town the merchants go together and contribute prorate. The money is used to hire a good band such as the Ringgold, of York, and each Saturday they give a concert. These concerts attract hundreds of people and while in town they usually buy from the merchants there.

THE MODERN SUNDAY

The Sunday of today begins at the edge of dawn with a race to the country and the fishing places. It develops through the morning into a stream of automobiles, another stream of park-goers, a third stream of folk intent on going somewhere, except to church, by any means possible. By noon the golf courses are crowded. A few hours later the base ball players are entertaining the large audiences of the week.

A VERY WISE MOVE

At a special meeting of our School Board last Friday evening, that body wisely purchased a four acre tract of land within a square of our present public school building, for school purposes. The main reason for its purchase was for the erection of a High school building that will accommodate all those from town and community who are seeking advanced education.

For years our school building was crowded, neither teacher nor pupil being able to work to advantage. This crowded condition was brought about by the growth of our town and through an ever increasing demand from applicants from the surrounding townships.

The tract was purchased with a view to providing for the future. It is the intention of the Board to erect a modern high school building, a suitable auditorium, a regulation sized basket ball gym and lay out an up-to-date base ball and foot ball field with a cinder track—a real athletic field.

This, in our estimation, is one of the most important steps ever taken by our Board of Education.

BEAUTIFYING A TOWN

There is nothing more of a credit to any village, borough or city than a neat appearing and beautiful main thoroughfare. That's the section of a town that every visitor to that place sees and quite frequently that only. Autoists, and there are so very many of them nowadays, very seldom see any part of a town that is not along the main highway.

If you pass through a beautiful town, you'll always remember that particular burg. If its appearance is the opposite you will also remember it. For just this very reason we have always agitated the best appearing Main street possible.

The first important step in the right direction is the uniform curb line on Main street from one end of the town to another. Can you imagine its beautiful appearance when completed?

On Monday the work was started and very soon you will get a good idea as to its general appearance from the Bulletin office east.

We hope that all our citizens "fall in line" and assist the Board whenever possible as it will mean a change that no one will ever regret.

Klapp and Miss Bertha Hogendobler, attendants at the South Mountain Hospital, Wernersville, Pa.; Mrs. Henry Hogendobler and sons, Henry and George, of Danville, Pa., and Mrs. Frank Shields and Fred Haus, of Marietta.

Daniel Erb, of near Rheems, in 1923 had a field of tobacco that attracted farmers and merchants from a great distance for its size and quality. This year he comes to the front with a 20 acre field hard to equal in the county. There are 160 rows with 550 plants to each row, every stalk topped, making the rows level from end to end. To prepare this field he distributed 250 manure spreader loads of manure and 300 pounds of Maxes Fertilizer per acre; frequent cultivation and sprays for the worms making large leaves and stalks.

Harvey Hoffman has been thrashing each day since July 15. His equipment has a capacity of 800 bushels per ten hours and he has engagements until corn fodder shredding time. Tuesday he cleaned up Hiram Nissley in East Donegal who had 24 acres of wheat that yielded an average of 21 bushels per acre. Mr. Nissley has 20 acres of good corn; 10 acres of tobacco, the greater portion topped, and 8 acres of potatoes that are coming out larger than the certified seed that was planted. He is a strong advocate of frequent cultivation and spraying.

Summer Dairy Feeding
If grain has not been fed while the cows have been on pasture, start now before they start to shrink in milk production. After milk production drops, it is impossible to bring it back. If pasture is still good, corn and oats are sufficient. If pasture is poor, some protein feeds, such as gluten, cottonseed meal or linseed oil meal should be fed with the corn and oats. Feed one pound of grain to each five or six pounds of milk daily.

Why is the elephant the Republican symbol?
because the famous cartoonist, Thomas Nast, used the elephant in 1874 to picture the huge Republican vote in the previous presidential election. Members of all parties vote for
