BUSINESS FRIENDSHIP

When town people convince the farmers that they are interested in their welfare, the farmer's confidence is won. It is not how many dollars' worth of business you do each day that counts most, but how many friends you have made, friends that have confidence in you as a merchant and feel that you will deal fairly with them.

SOFT SNAPS

If you have found a "soft snap", don't count yourself lucky. You'll soon be as soft as the snap.
If you are looking for a soft snap, turn right about face and go the other way. "Hard lines" would be the making of you.
Feeling that you have a soft snap makes you take things easy, prevents your extending yourself and drawing powers, causes you to postpone effort, assures your failure.
It is better to be a good finisher than a strong starter.

"CLEAN-UP AS YOU GO"

Thousands of tourists every day during summer and autumn months picnic under rural skies. Invariably they leave behind a great deal of refuse matter—paper bags, newspapers, and scraps of eatables.
All those who picnic out-doors, whether in city parks, boulevards, or along the country roadside, should resolve not to violate the hospitality of those who afford them pleasure spots for spreading their basket lunches. Motorists should co-operate to keep the road-sides clean. Those who leave smeared scraps of paper, greasy boxes, and other miscellany behind them after finishing their lunches are not only indulging in indifference to the rights of others but are helping to destroy their welcome and the pleasure to be derived from occasional visits to the country.

OUR GOOD HEALTH

We doubt whether many of you noticed how the Secretary of our local Board of Health patted Boro Council on the back at the last regular meeting of council. Such a compliment should not go by unnoticed.
Secretary Leib said the general health of our boro is largely due to the excellent condition and cleanliness of our streets and alleys. That's a fact and it should be broadcasted. There isn't a town anywhere that has cleaner streets and alleys than Mount Joy.
Wherever refuse is not permitted to accumulate and breed disease is where you always find healthy people. Note how very few cases of contagious disease we have here.
We are quite proud that our Boro Council and Board of Health are earnestly striving to make Mount Joy a bigger, better and healthier place in which to live. Keep on.

WHY WAIT FOR GEORGE

This is a pretty good town, as towns go. We all admit it, and are proud of it.
But there is one fly in the community ointment that prevents us from advancing as rapidly as we should.
Everybody is willing to have things done, but wants to "let George do it," and when George reaches a certain point he balks. He gets tired of carrying the whole load.
What we need is a greater spirit of co-operation, a willingness on the part of each one to do his or her share in the advancement of our community interests.
In every community there are always a few who are willing to work for the public good. They are the Georges.
There are also a lot of others who are willing to let them do it. They are not Georges.
Once in a while we read of some town like Mount Joy that keeps booming and shoving right along regardless of conditions or handicaps.
Such a town is full of Georges, and because the Georges are so numerous one of them are overworked and there is no occasion for balking. Why can't we all be Georges in town?
There is room for improvement, we have plenty of people with brains like George.

were weighed in the balance, how many of us would be found possessing a clean-cut humility. You know as one observes humanity journeying along life's highway, some are very humble in some things and otherwise in others. The subject of humility is certainly an interesting study, especially if we apply it to ourselves.
