

Why Farmers are Turning to

for Economical Transportation

In 1923 Chevrolet jumped from seventh to second place in sales of all cars, and to first place in sales of fully equipped modern cars.

Purchases by farmers were the chief factor in this remarkable development.

Farmers want automobiles not only of low first price, but also of low later cost for operation and maintenance.

They want room, comfort, and the ability to stand up under hard conditions.

They find that Chevrolet, fully equipped as sold, is the best value per dollar in the low-priced field, and neighbors tell them it costs less per mile to operate.

Dairy Feed 25 pc. \$54.00-55.00 ton
Horse Feed 85 pc \$51.50-52.50 ton

GIVE ROOSTER VACATION, FLOCK OWNERS ADVISED

Inspection of eggs coming to market from all parts of the State indicate that many flock owners have not given roosters their annual vacation so far this year, reports E. J. Lawless, Bureau of Markets, Pennsylvania Department of Agriculture.

The roosters are still with the flocks and consequently many fertile eggs are being marketed. Fertile eggs decay much more rapidly than infertile eggs. Since the breeding season has been over for some time, there is no reason for keeping roosters with the flocks. They should be sold, killed, or confined, Mr. Lawless suggests, and then city relatives and friends will be more likely to have fine fresh eggs each morning for breakfast.

Injured in Quarry
Norman Reno, employed at the J. E. Baker quarries, Billmyer, had his left leg broken in two places, when he was knocked down by a stone car, while at work. Dr. George A. Harter, of Maytown, is attending him.

Clifford Smith, aged 38 years, of Parkersburg, was killed in an auto accident at Gap Saturday night.

JOHN BRANDT WINS NET TITLE AT MT. JOY H.S.

John Brandt, a Freshman tennis player, became the undisputed single champion of the Mount Joy High school when he defeated his three rivals in easy fashion.

In the first round of the tournament Brandt outclassed easily his fellow classmate, George Halbleib, and won two straight sets by a 6-2 score. Robert Heilig and Harry Bear played two sets with the former winning by a 7-5 and 6-4 score. Joseph Moore, the only Senior entrant, defaulted to Martin "Red" Metzler by not appearing for the match. Joseph Charles, Sophomore defeated David Laskewitz 9-7, 6-4.

In the second round of play John Brandt defeated Martin Metzler by two 7-5 scores, while Joseph Charles easily captured his two sets from Robert Heilig by a 6-1 and 6-4 score.

The third round resulted in John Brandt's defeat of Joseph Charles, Sophomore tennis protege, only after having played three sets. The scores were 6-2, 2-6 and 6-4 respectively.

This week the doubles tournament will be played on the Recreation Grounds Tennis Court and some keen, close games are anticipated.

BAINBRIDGE LADY HURT IN AUTOMOBILE ACCIDENT

Mrs. F. B. Brubaker, of Bainbridge, sustained a possible fracture of the right leg between the ankle and knee; two automobiles were smashed and Earl Hildebrand, of Lancaster, was committed at the police station in default of bail on a charge of operating a motor vehicle while intoxicated, as a result of a collision at East King and Broad streets, Lancaster. Clarence B. Brubaker, of Harrisburg, driving a touring car in which his mother and brother, Claude, of Bainbridge, were passengers, was driving west on East King street when Hildebrand, driving another touring car east on King street made a left-hand turn to enter Broad street.

Hildebrand's machine struck the left front side of the Brubaker car, breaking the axle, wheel, fender and running board on it and badly damaging the front of the Hildebrand machine.

The police were summoned and Mrs. Brubaker was removed to the Lancaster General hospital where she was held for observation and an x-ray picture was taken to ascertain whether her leg is fractured.

FIVE MEMBERS OF COLUMBIA BOARD OF HEALTH RESIGN

Without assigning any reason for their action the five members of the Columbia Board of Health tendered their resignations to Borough Council at the September meeting held Wednesday evening. The resignations, however, were not accepted in order to give the Public Safety Committee an opportunity to confer with the Board of Health to learn the cause for their quitting as a body.

Mr. Fasig, Secretary of the Board, who was present, said: the Board felt that council had failed to cooperate with them, that their communications have been ignored and no action has been taken by council on any request made by the Board. For that reason, said Mr. Fasig, the Board feels that its work is at an end.

LITTLE GIRL WITH KITTY TOOK A STROLL SUNDAY

On Sunday thirteen-year-old Mary Heizy disappeared from the home of her foster-father, Theodore Mellinger, at East Petersburg. The report that the girl was missing spread thru-out the neighborhood and many assisted in the search.

Little Mary, with a small pet Maltese cat snuggled under her arm, had walked from East Petersburg to Manheim. With tired feet dragging one after the other, a timidly knocked at the door of B. B. Winters shortly after four o'clock Sunday afternoon and asked for something to eat.

She was accommodated and Mr. Martzell, Humane officer at Lancaster, was notified. He immediately went to Manheim and returned the little ward to Mr. Mellinger at East Petersburg.

ERECTED A MEMORIAL IN HONOR OF THE RED MEN

On a little raise of ground on the farm of Ira K. Shenk, in Manor township, on a spot that may once have been the site of a Conestoga wigwam, the Pennsylvania Historical Commission and the Lancaster County Historical Society have erected a memorial stone and tablet to the Conestoga Indians, the last of the many red men who once made their homes in what is now Lancaster county. The memorial was unveiled Saturday afternoon with appropriate ceremonies.

Business Place for Sale

A business with store stock and fixtures including cigars, tobacco, confections, etc. in business district of Mount Joy. A dwelling in connection can also be rented. Immediate possession. Apply to Jno. E. Schroll, Mt. Joy.

WEEKLY LETTER WRITTEN EXPRESSLY FOR THE BULLETIN BY DR. DAVID H. REEDER

DIABETES AND INSULIN: Mrs. O. thought it was a cure.

Dear Dr. Reeder: I was a bit surprised at a statement made by you recently in regard to the new discovery in medicine, called Insulin. From the newspaper reports and the fact that the two doctors received the great price of \$40,000 for the discovery I had concluded that it was a sure cure. I have known of one case so far gone that the patient seemed dying and was unconscious for hours. He was apparently "raised from the dead" by the injection of insulin and has been doing very well. He is now up and about but the doctor is very strict about his diet, sun baths and also water baths. It looks as though the insulin has cured him.

Answer: Let me quote my answer from an editorial in the August number of "Endocrine Survey", a monthly magazine devoted to Cranotherapy and anxious to find everything in its favor.

"There is now doubt about the position in the therapy of diabetes mellitus that is occupied by insulin. It is one of the greatest discoveries of the age. It accomplishes what no other drug can do. A few injections of the insulin virtually can snatch a human being in diabetic coma from inevitable death. Its continued and persistent use keep the diabetic patient in carbohydrate equilibrium and in corresponding physiological comfort and can thus prolong his life, when without this potent aid, that life would be forfeited.

"And yet insulin is not a cure for diabetes mellitus, as has been announced so enthusiastically, more especially in the daily press. It is an emergency remedy with a quantitative action which means limited action.

"Insulin takes care of the end-results of a pathological process. It does not change the pathological process back to normal. It reduces the excess of blood sugar, which is present in diabetes mellitus, in proportion to the dose of the insulin that has been administered. But it does not prevent an excess of sugar being taken up into the blood. In that sense, it reminds us very much of some surgical measures which remove the end-products of pathological processes but without restoring to normal the disturbed physiological which has given rise to the pathological process.

While the action of insulin is remarkable in that it enables the diabetic patient to live in comparative comfort, there still remains to determine a way by which the pathological physiology of the pancreas tail might be restored to normalcy through which alone a clinical and, perhaps, a physiology cure would be established.

Evidently the physician in the case you speak of is a very wise and skillful physician. He knows that the diet and other habits were primarily at fault and he is seeking to remove the cause and thus give nature a chance to cure. Insulin simply removes the excess of sugar from the blood temporarily but has nothing to do with the cause of the sugar being in the blood. The use of auto Hemic and autogenous therapy in this case would probably complete the cure. I have seen this done. The sun baths are a big factor as well as hydrotherapy.

The greatest danger in the use of insulin is the tendency to depend upon it as a cure when it is an emergency remedy for overcoming symptoms.

HOUSES FOR SALE In Florin
